

Feature Description

Contact List allows customization and management of a personal contact list. This feature is available with the VoiceManager Office and Anywhere packages, and IP Centrex service.

Solution

Make fast work of managing business contacts! Quickly and easily personalize and manage a contact list using the Contact List feature. Administrators can also manage the Common Contact List that is accessible to all employees.

Setup

Add/Edit Contacts

Contact List

Contact List allows you to personalize and manage your "Personal Contact List." Administrators can also manage the "Common Contact List." You can choose to add contacts one at a time or by importing a contact list.
