

## Cox Homelife<sup>SM</sup>

Cox Homelife offers the ability for you to know what's going on at home – whether you're there or not. In addition to providing 24/7 professional monitoring, we put you in control of what's happening at home. So when the weather takes a turn, you can adjust the thermostat from work. Cameras allow you to see your child come home from school, or enable 24-hour recording so you can play back how your pets spend their days. You can turn on lights from the road whenever you like or unlock the door when you arrive – all through the convenient mobile app. Wherever you are and wherever you go, your home is in great hands: yours.

# COX Homelife<sup>SM</sup>

Protect. Monitor. Control.

## Protect.

It's a natural instinct to want to do everything we can to protect those we love. In addition to professional, around-the-clock monitoring and security features, Cox Homelife<sup>SM</sup> detects carbon monoxide, smoke and water leaks.

## Monitor.

Indoor and outdoor cameras keep you in touch with what's happening at home, from watching the baby sleep to checking in on your new puppy from work.

## Control.

Device features allow you to lock and unlock doors, adjust your thermostat, control lighting, and even turn small appliances on or off.

## Both Home and Away

### Home Control – At Home and On the Go

Manage and maintain your home's activity from your online subscriber portal or touchscreen control panel, or with the free Cox Homelife<sup>SM</sup> mobile app.

### Online Subscriber Portal

Use your online portal to arm/disarm your system, view live camera feeds or play back 24-hour cloud-stored recordings, and check event histories. You can also use your online portal to manage your home with better efficiency by setting up rules for lighting, heating and cooling.

#### Logging in to portal:

- // Go to <https://portal.coxhomelife.com>
- // Log in using the Username and Password you set up during installation

#### Setting up rules:

- // Device-Driven Event: Take a picture when the front door opens; or send a text message if the door does not open between certain times
- // Scheduled Event: Turn connected lights off when the household goes to bed
- // System Event: Turn thermostat off when armed in Arm Away mode

### Touchscreen Control Panel

Easily access system features through the apps on the digital display of the touchscreen – the hub of your Homelife system.

### Cox Homelife Mobile App

With the Cox Homelife mobile app, you have remote access to your home security system and can arm/disarm the system, view the status of individual zones (open, closed, etc.), view live camera feeds, and control connected thermostat and lighting devices. No key is needed if you have Cox Homelife smart door locks installed. Lock or unlock from the door's keypad or through the Homelife app on your mobile device.

- // Download the free Cox Homelife mobile app

- // Use your same Cox Homelife Subscriber Portal Username and Password to log on

Please refer to page 4 for your Cox Homelife Online Subscriber Portal information.
