

Save Time With. . .

Busy Line Redial

Get Through To Busy Numbers As Soon As They're Free.

This service is conveniently available on a monthly subscription as well as on a per use basis.

How it works:

You can save time dialing busy numbers over and over. Your phone rings you as soon as the line is free, and automatically connects you.

How to use:

1. After you hear a busy signal, hang up. Lift the handset and listen for a normal dial tone.
2. Press *** 6 6** (On a rotary phone, dial 1166.)
3. If the line is still busy, hang up. Your phone will check the number for up to 30 minutes.
4. A special callback ring alerts you if the line becomes free (some phones ring normally).
5. Lift the handset to automatically place the call.

To cancel your Callback request:

1. Lift the handset and listen for a normal dial tone.
2. Press *** 8 6** (On a rotary phone, dial 1186.)
3. Listen for the confirmation tone or announcement. Hang up.

Notes: Does not work on 800 numbers, 900 numbers, numbers outside the specified service area, or on lines where Call Forwarding and some other call services have been activated.

900 and 976 Number Blocking

Restricts Specific Types Of Calls From Being Made From Your Home.

How it works:

Currently, Cox Communications automatically blocks calls to 900 and 976 numbers dialed from your home. Please call your local Cox Customer Care Representative to find out more on the availability in your area.
