MAKING AN IMPACT IN LOUISIANA

Cox has a history of championing diversity, education and inclusion. Locally, we are doing our part to be the type of change we want to see in our communities. We are proud to support local organizations that are addressing some of the most pressing problems of our times, including the Boys and Girls Club, the Children's Defense League, Junior Achievement, the Salvation Army, the United Way and the Urban League of Louisiana.

Committed to connecting people and communities

We know a fast, reliable internet connection is essential. We share your goal of ensuring our neighbors have access to robust broadband networks.

Whether you're considering solutions to increase broadband access and adoption or looking to build a smarter, more efficient community, **we're your trusted partner.**

Connecting Families In Need

Most people are already served by network infrastructure and have the ability to connect to the internet. We support adoption efforts to help connect those families in need. **We can partner.**

- Connect2Compete, our affordable Internet product for low-income families
- Bulk Accounts
- Utility Assistance Services
- Emergency Broadband Benefit
- Tech Centers/Innovation Labs
- Cox Digital Academy

Expanding Our Robust Broadband Network

A small percentage of households, mostly in rural areas, do not have access to the internet. We offer solutions to help connect them to our robust broadband network. **We can partner.**

- Public/private partnerships
- Open Access Public Wi-Fi hotspots
- Rural expansion via federal funding/grant programs
- Wireline and wireless solutions
- Cost Sharing
- Robust, national fiber optic backbone

Building Smarter, Efficient Communities

There are many applications available now that can build smarter, more efficient communities. We help transform cities with tailored solutions to improve quality of life and reduce expenditures. **We can partner.**

- Public safety solutions
- Smart hospitals/telehealth
- Traffic management
- Water conservation
- Supply chain efficiency
- Government efficiencies
- Wireless backhaul/middle mile
