If you have an HD-capable television connected via a Cox mini box, you will be able to view TV Starter and TV Essential channels in High Definition by tuning to either the two-digit or three-digit Standard Definition channel or the corresponding HD Channel in the 1000-series range. For example, with a mini box, The Weather Channel may be viewed in HD on either channel 43 or channel 1043 (the Weather Channel numbers in your market may be different). If your television is connected via equipment other than a mini box, such as a Cox HD receiver or a Cox-provided CableCARD together with a CableCARD compatible retail device (and a Cox-provided Digital Tuning Adaptor for certain channels), programming is available in high definition only at the HD Channel position - typically the four-digit number above 1000.

Si usted cuenta con un televisor HD conectado vía una Cox mini box, podrá ver los canales TV Starter y TV Essential en alta definición al cambiar ya sea a los canales en definición estándar de 2-dígitos o 3-dígitos o al canal de alta definición correspondiente en el rango de los 1000. Por ejemplo, con la mini box, The Weather Channel puede ser visto en alta definición ya sea en el canal 43 o en el canal 1043 (los números del Weather Channel en su mercado pueden ser diferentes). Si su televisor está conectado con un equipo que no sea una mini box, como un receptor Cox HD o un CableCARD proporcionado por Cox junto con un dispositivo compatible con CableCARD (y un adaptador digital proporcionado por Cox para ciertos canales), la programación en alta definición estará disponible únicamente en la posición del canal de alta definición - usualmente el número de 4 dígitos por encima del 1000.
