2.1 Undertaking of the Company

2.1.1 Scope

1. The Company undertakes to furnish communications service in connection with one-way and/or two-way information transmission between points within the State of Florida under the terms of this Price List.

2. Customers may use services and facilities provided under this Price List to obtain access to services offered by other service providers. The Company is responsible under this Price List only for the services and facilities provided herein, and it assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own customers.

3. The Company’s obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary poles lines, circuits and equipment and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.

4. The regulations covering the connection of equipment, accessories or facilities provided and maintained by the Customer are contained in other sections of this Tariff.

2.1.2 Shortage of Equipment or Facilities

1. The Company reserves the right to limit or allocate the use of existing facilities that it deems necessary to manage the lack of facilities or to manage a facility shortage due to some other cause beyond the Company’s control. The Company will not provide additional service or connect new service to any Customer that would contribute to a shortage condition until the problem has been identified and rectified. The Company will incur no liability for call interruptions resulting from the Company’s efforts to avoid degradation.

2. The furnishing of service under this Price List is subject to the availability on a continuing basis of all the necessary facilities and is limited to the availability and capacity of the Company’s fiber optic cable and other facilities as well as facilities the Company may, from time to time, obtain from other carriers to furnish service as required at the sole discretion of the Company.

3. The furnishing of service under this Price List is subject to the availability to the Company of adequate numbering resources and may be subject to the Company’s implementation of interconnection arrangements with incumbent local exchange carrier in Florida.

SECTION 2 – Regulations, cont’d.

2.1 Undertaking of the Company

2.1.3 Terms and Conditions

1. Except as otherwise provided herein, service is provided and billed on the basis of a minimum period of at least one month, and shall continue to be provided until canceled by the Customer. Unless otherwise specified herein, for the purpose of computing charges in this Price List, a month is considered to have 30 days. All calculations of dates set forth in this Price List shall be based on calendar days, unless otherwise specified herein. When service is discontinued prior to the expiration of the minimum period, charges are applicable, whether the service is used or not.

2. Customers may be required to enter into written Service Orders which shall contain or reference the name of the Customer, a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this Price List.

3. At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party upon 30 days written notice. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the Service Order and this Price List prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the Service Order shall survive such termination.

4. This Price List shall be interpreted and governed by the laws of the State of Florida without regard for the State’s choice of laws provisions.

5. Another telephone company must not interfere with the right of any person or entity to obtain service directly from the Company.
LOCAL EXCHANGE SERVICES

SECTION 2 – Regulations, cont’d.

2.1 Undertaking of the Company, cont’d.

2.1.3 Terms and Conditions, cont’d.

6. Cox will reserve the telephone numbers for Customer’s new telephone service. Reserved telephone numbers may change prior to the time of installation of service. Customers shall not use, publish or advertise reserved numbers until service has been activated. Customer is solely responsible for any expense or loss resulting from Customer’s use, publication or dissemination of these numbers. The Customer has no property right in the telephone number associated with Cox telephone service; however, if Customer ports telephone numbers from another carrier to Cox, subject to federal or state law, or telephony industry guidelines, Cox will use such numbers with Customer’s telephone service. After activation, Cox reserves the right to change telephone numbers subject to federal or state law, or telephony industry guidelines.

Business Customers may switch class-of-service from Business to Residential, only at the expiration or termination of a commercial services agreement. Customers who switch class-of-service prior to either of the foregoing will be issued a new telephone number when the service is transferred to a Residential class-of-service. Additionally, call intercept will not be deployed to inform the caller of the new Residential service telephone number.

7. Service to certain Customers is provided via an Embedded Multimedia Terminal Adapter (“eMTA”). If service is provided via an eMTA, the Customer will receive an EMTA provided by Cox during installation. The eMTA works on household power and requires a battery to operate during a power outage. The battery will operate up to 8 hours in case of a power outage depending on usage. Services, including access to 9-1-1 services will not be available during outages without a battery or if the battery has been drained. The Customer may order a battery from Cox by calling the Cox customer service number or visiting a Cox retail store after telephone service is installed.

a. If the Customer ordered phone service before November 1, 2013, Cox will provide a battery and all replacements at no charge. The Customer is responsible for monitoring the battery and contacting Cox when the battery no longer is able to function properly, including but not limited to the ability to maintain a charge, and must be replaced.

b. If the Residential Customer ordered phone service on or after November 1, 2013 and is not a Lifeline Customer, Cox will provide a battery upon request at the then-prevailing retail price, plus shipping if applicable. The Customer may obtain batteries from sources other than Cox if available, but the Customer is responsible for ensuring that any battery obtained from another source is compatible with the EMTA. The Customer is responsible for installation of the battery and for monitoring the battery and determining when the battery no longer is able to function properly, including but not limited to the ability to maintain a charge, and must be replaced.

c. If the Customer is a Lifeline Customer, the Customer is entitled to receive one battery for each EMTA installed at the Customer premises. The battery will be delivered to the Lifeline Customer at the service address when eligibility for Lifeline is established. The Lifeline Customer is responsible for installing and monitoring the battery, and contacting Cox when the battery no longer is able to function properly, including but not limited to the ability to maintain a charge, and must be replaced. Lifeline customers may request a replacement battery from Cox free of charge.
2.1 Undertaking of the Company, cont’d.

2.1.3 Terms and Conditions, cont’d.

8. The Customer agrees to operate any Company-provided equipment in accordance with instructions of the Company or the Company's agent. Failure to do so will void Company liability for interruption of service and may make the Customer responsible for damage to Company-provided equipment pursuant to section 2.1.3.8 below.

9. The Customer agrees to return to the Company all Company-provided equipment delivered to Customer within five (5) days of termination of the service in connection with which the equipment was used. Said equipment shall be in the same condition as when delivered to Customer, normal wear and tear only excepted. Customer shall reimburse the Company, upon demand, for any costs incurred by the Company due to Customer's failure to comply with this provision.
SECTION 2 - Regulations, cont’d.

2.1 Undertaking of the Company, cont’d.

3.1 Local Exchange Service, cont’d.

3.1.2 Local Line, cont’d.

2. Custom Calling Features

Custom Calling Features are optional central office services furnished to individual line Customers. Custom Calling Features are available where facilities exist and operating conditions permit.

a. Feature Descriptions

900/976 Call Block: Allows Customer to block calls to 900 and 976 numbers from their home.

Anonymous Call Rejection: Allows the Customer to reject incoming calls from callers that intentionally block their caller identification information.

Busy Line Redial: Allows a Customer to program his or her telephone to automatically redial a busy number.

Call Forwarding: Allows the Customer to program his or her telephone so that incoming calls are forwarded to another number.

Call Forwarding - Busy: Automatically forwards all incoming calls to a Customer-defined alternate number when the Customer's line is off hook.

Call Forwarding - No Answer: Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forwarding of Call Waiting: Provides the Customer the capability to forward unanswered waiting calls to a Customer-designated number by using the combined functions of Call Waiting and Call Forward - No Answer. An incoming call to a busy line first receives standard waiting treatment in which an audible tone is heard by the called party and audible ringing is heard by the calling party. If the call is not answered after a period of time equal to the time-out value of Call Forward - No Answer, the incoming call is given Call Forward - No Answer treatment and is forwarded to a subscriber designated number.

Call Forwarding - Remote Access: Allows the Customer to change the forwarding of a call (edit, activate, or deactivate) from a remote location by dialing in and pressing a series of codes.

Call Return: Provides the customer an announcement of the last phone number that called them.

Call Trace: Allows a Customer who has been receiving harassing or annoying phone calls to have the number of the caller recorded and kept by the Company. Customer must then file a complaint with appropriate law enforcement agencies. This feature is only available on a per use basis.

Call Transfer: Allows a customer to communicate between telephone instruments connected to the same primary access line; when another telephone on the line is answered, ringing stops. The originator of the call then picks up his received and communications begins.

Call Waiting: The subscriber, already involved in a call, receives a tone that another incoming call is waiting to be answered. The called party, hearing the call-waiting tone during the existing conversation, can choose to flash the hook-switch and connect to the incoming call. This feature includes Cancel Call Waiting which allows the subscriber to enter a code that disables the Call Waiting feature so that he or she will not hear a tone during a conversation with another party.

Call Waiting ID: Allows the subscriber to receive calling party information during call waiting. Call Waiting ID presents the subscriber with a set of options to treat the incoming call. These options include forwarding the call, placing the call on hold, sending the call to treatment, placing the existing call on hold and answering the incoming call, or answering the call and dropping the existing call. This feature requires specialized Customer Premises Equipment.

Caller ID (Caller Name & Number Delivery): Allows the called party to see the name and where available the telephone number of the calling party. This feature requires specialized Customer Premises Equipment.

Circular Hunt: Allows the inbound call to start hunting from the previous line called and hunts in a circular fashion until it again reaches the previous line called. All lines in the hunt group may be hunted regardless of the start point of the hunting.

a. Feature Descriptions, cont’d.

Custom Number: Customer requested vanity number.

Directory Number Hunt: Hunting starts from the top of the group list every time, then goes to the first idle line it finds.

Distinctive Ring: Where facilities and operating conditions permit, this feature allows up to four directory numbers to terminate on a telephone line and telephone set. Each directory number has a distinctive ringing sequence and is priced separately.

Distinctive Ring Fax: Allows more than one directory number to terminate on a telephone line and telephone set. Each directory number has a distinctive ringing sequence. Intended for scenarios where the second line is a fax machine and will not roll to voice mail in a “no answer” scenario.

Priority Ringing: Allows up to 31 directory numbers to be automatically identified by distinctive ringing. If a subscriber is engaged in conversation and a call from one of the designated directory numbers arrives, a distinctive call waiting tone accompanies the incoming call. All other calls ring normally.

Remote Call Forwarding: Allows the Customer to rent a directory number (RCF base number) in a remote location. Calls placed to the RCF number are automatically forwarded to the Customer’s principal number. The RCF Customer is billed for the forwarded portion of the call. All toll calls will be carried over the Cox network. Charges for additional talk paths will apply per path.

Remote Call Forwarding Additional Paths: Allows the Customer to order additional paths to handle incoming calls related to Remote Call Forwarding.

LOCAL EXCHANGE SERVICES

SECTION 3 – Local Exchange Service, cont’d.

3.1 Local Exchange Service, cont’d.

3.1.3 Cox Redirect

1. General

a. Where technically feasible, Cox Direct allows the Business Customer to establish predetermined alternate routing plans for incoming voice and for data traffic. The service can be used as a disaster recovery service. The alternate routing plan is created by the Customer working with a Company representative at the time the Cox Redirect service is established. The Customer’s alternate routing plan may:

- Route incoming calls to an announcement
- Route incoming calls to a single Backup Number
- Route incoming calls to multiple Backup Numbers according to subscriber-defined percentage allocation
- An announcement or more Backup Numbers on a subscriber-defined percentage basis

b. The Customer must contact the Company to activate the Cox Redirect service. This will route traffic to numbers pre-selected by the Customer.

The Customer may make changes to the routing plan at the time activation is requested. The Customer may change the numbers to which the calls are to be routed and the percentages of calls to be routed to other numbers. The Customer cannot request activation on additional numbers to be redirected at that time.

c. In order to restore the original call routing, the subscriber must contact the Company to deactivate the alternate routing plan. Any changes made to the routing plan at the time the plan was activated will not be retained.

In order to restore the original call routing, the Customer must contact the Company to deactivate the alternate routing plan.

d. The Customer must establish a routing plan for each location included in his serving arrangement for which traffic is to be rerouted.

A test call capability allows a Customer, whose routing plan has been activated, to place a call to test the operation of the subscriber’s normal service. In this manner, the Customer may test his facilities before initiating recovery.

e. The Customer is required to specify a Callback Number and Verification Party Name(s) which will be used by the Company representative receiving a request to activate, deactivate, or modify a Customer’s service to verify a request.

Section 7 - Residential Assistance Offerings

7.1 Lifeline Assistance

Lifeline Assistance Plan (Lifeline) assists low-income households/applicants by reducing their monthly costs for one telephone line per household at the principal place of residence. The applicant must satisfy certain program-based or income-based eligibility tests established by the Florida Public Service Commission. The plan is currently available only in non-rural portions of Cox’s Florida service area.

7.1.1 Eligibility Requirements

1. Applicant must participate in one of the following programs:
   - Medicaid;
   - Supplemental Nutrition Assistance Program (Food Stamps or SNAP);
   - Supplemental Security Income (SSI);
   - Federal Public Housing Assistance (Section 8);
   - Reserved;
   - Reserved;
   - Reserved;
   - National School Lunch Program (NSL);
   - Veterans Pension Benefits.

2. Applicants not participating in the programs listed above may still qualify for Lifeline services if they certify and furnish proof that their total gross annual household income does not exceed 135% of the Federal Poverty Guidelines (FPG).

3. Applicant must request assistance by completing a Company provided form, and may also apply directly via the Florida Public Service Commission (FPSC) or the Office of Public Counsel (OPC).

4. Proof of income, or proof of eligibility in any of the qualifying low income assistance programs listed above, should be provided to Cox at the time of application for service. The Lifeline discount will not be established until proof of eligibility has been received by Cox or by the two state agencies listed in 7.1.1.3. If the Customer requests installation prior to Cox’s receipt of such proof, the service requested will be provided, but without the Lifeline discount. When eligibility documentation is rendered post installation, the Lifeline discount will apply on a going-forward basis.

5. The use or disclosure of information concerning Cox’s Lifeline applicants and Customers is limited solely to purposes directly connected with the administration of the Lifeline Program and will be treated as highly confidential.
LOCAL EXCHANGE SERVICES

Section 7 - Residential Assistance Offerings

7.1 Lifeline Assistance, cont’d.

7.1.1 Eligibility Requirements, cont’d.

6. It is the Lifeline Customer’s responsibility to notify Cox if the Customer ceases to be eligible for Lifeline service.

Lifeline eligibility will be verified annually. If after verification a Lifeline Customer is identified as being ineligible, the Company will send the Lifeline Customer a written notice of discontinued eligibility. If no proof of eligibility is furnished to Cox within 60 days, the Customer’s Lifeline discount will be discontinued. If proof is furnished to Cox, the Lifeline discount will be restored as of the date Cox received proof of continued Lifeline eligibility.

Florida Statute 364.105 provides for a continuing discount for Lifeline subscribers who no longer qualify for Lifeline service (i.e., Transitional Lifeline). The Transitional Lifeline discount provides discounted residential basic local service at seventy percent (70%) of the tariffed basic local service rate (i.e., local access line monthly recurring charge only) for any subscriber who becomes ineligible for Lifeline, and who requests such service. Upon such request, the former Lifeline customer will receive the Transitional Lifeline discount for one year after the date the subscriber ceases to be qualified for Lifeline, after which time the Customer will automatically be billed the tariffed rates. If, during this one-year period, the customer disconnects telephone service, such disconnection will nullify the Customer’s eligibility for the remaining balance of the one-year period.

6.1.2 Rates

Customers meeting the eligibility requirements herein will have the FCC Access Fee associated with the primary residential access line waived and receive a reduction from the CDT Starter Residential rate, described in Sections 3.1.A.2.b and 3.1.B.2.1.b of this tariff. Such reductions will be based on the procedures mandated in the FCC Lifeline Rules at Section 54.403.

6.1.3 Additional Regulations

8.4.1 Emergency Locator Service

1. General

Emergency Locator Service is available to Cox Business Customers based on the following provisions. At the request of the Business Customer and upon the approval of the Company and at those prices set forth in the chart below, the Company will offer to the Customer certain Automatic Location Identification ("ALI") and/or Private Switch/Automatic Location Identification ("PS/ALI") services as an enhancement to its other 911 local service offerings. PS/ALI service provides E911 service features for stations that operate behind private switches, e.g., PBXs. Specifically, the PS/ALI service provides an automatic display at the Public Safety Answering Point (hereafter "PSAP") of the caller's telephone number and the address/location of the telephone. A Customer's PBX must be capable of providing the telephone number to the 911 system to identify the specific extension originating a 911 call. The Company's PS/ALI service provides a PBX 911 manager for "public safety/address location point" database management and the Customer is required to update databases using a web-based interface.

All telephone numbers that a customer desires to be included in the Company’s PS/ALI service must be owned by the Company. Telephone numbers that are provided by a service provider other than the Company are not eligible for inclusion in this service.

2. Eligibility Requirements

A Customer who desires to receive ALI or PS/ALI service shall satisfy the following obligations to Company:

1. Customer will complete a customer profile ordering form (i) designating a single point of contact for all operational issues, (ii) supplying the necessary telephone number range(s) and PSAP, if multiple locations apply. Customer and Company shall validate telephone number ranges provided through any LEC dial tone provider(s) other than Company.

2. Company will have up to thirty (30) business days to attempt to load the initial customer data after the receipt of acceptable data files from the customer. Should the initial load attempt fail due to the loosing company’s business practices, it shall be the customer’s responsibility to negotiate with the loosing company to release the numbers that are being transferred to Cox.

3. Company will attempt to load additional numbers submitted on subsequent Load Forms within seven (7) business days following the receipt of a valid TNs but full assurance of meeting a seven (7) day timeline is not guaranteed.

4. Customer is responsible for working with Company and any other LEC dial tone provider(s) to set up any required National Emergency Numbering Association identification codes (hereafter referred to as "NENA ID") for Customer’s PS/ALI records.

5. Customer is responsible for obtaining authorization from any LEC dial tone provider other than Company to insert and modify ALI records for the specified telephone number ranges in any regional E911 databases using the separate NENA ID assigned for PS/ALI records.

8. In the event some of the automatic location identification records needed by Company to provision PS/ALI services are not “owned” by the Company, Customer shall obtain and provide to Company prior written consent from the E911 service provider to allow Company to use same without charge.

9. If Customer is porting to Company a block of telephone numbers from another telephone company, Customer is responsible for working with the transferee LEC to port the main billing telephone number and all associated telephone numbers via the NENA standard unlock and migrate function codes through normal Service Order Input (“SOI”) processing.

10. If Customer discontinues dial tone services with Company or another provider, the use of PS/ALI services by Customer will be discontinued for the corresponding block of telephone numbers.

11. Customer must have a personal computer workstation with the following requirements in order to interface with Company and receive PS/ALI service from the Company and Customer shall meet these requirements at every point in time:

The web-based system permits Customer to maintain station level ALI identification records in the form of “move”, “add,” “change” or “delete” to pre-authorized Customer records identified by telephone number range on the PS/ALI Customer Profile Order Form.

17. After validation and processing through the PS/ALI database system, Company will route updated telephone number records to the appropriate “E911 database” provider based upon the NPA/NXX on each record. Records processed by the Company will be transmitted to the appropriate E911 database provider(s) throughout the country.

18. Telephone numbers that are transported outside of Company’s defined operational jurisdictions, either on a temporary or permanent basis, may not be routed to the proper PSAP and customer will assume any and all risk associated with this condition.

20. For day-to-day management processing matters, Customer should contact its designated Company data analyst. Company analysts provide routine support services Monday through Friday during normal business hours (8:00 a.m. – 5:00 p.m. Mountain Time), excluding Company-observed holidays.

The rates contained herein apply only to direct charges associated with the Cox TSP System. Rates for specific telecommunications services and products are covered under the current Cox Local Exchange tariff and may include recurring monthly charges, non-recurring charges, construction charges and mileage sensitive charges are outlined in the Cox tariff specific to services.

Rates for Priority Provisioning, Priority Restoration, are applied on a “per circuit” basis for special access services and on a “per line or trunk” basis for Switched Access Service. Priority Provisioning and Priority Restoration rates are applied as a one-time activation charge for each Cox TSP circuit, line and/or trunk service request. When an Access Service is ordered with both Priority Provisioning and Priority Restoration, the non-recurring charge for Priority Restoration applies for both the provisioning and the restoration.

The Administration and Maintenance charges are applied per line or trunk and per circuit for Special Access Service. Each loop or loop segment of a Special Access multi-point service will be treated as a separate circuit with charge applied on a per loop basis.

The Priority Level Change charge is applicable when the TSP System order activity is changing priority levels. It applies each time the level is changed to a higher or lower level or when moving to an “E” category.
8.4 Cox Business Miscellaneous Services

8.4.4 Telecommunications Service Priority (TSP) System

7. Rate Applications, cont’d.

For subsequent orders for additional lines and circuits, TSP System assignment may apply upon Customer request and review by Cox. When the TSP System is revoked, or discontinued, and the associated Service is continued in service, no charge applies for such discontinuance of Cox TSP.

When performing services under TSP where additional labor charges may apply, Cox will attempt to notify Customer of charges before the required additional labor is undertaken. The Customer, in obtaining a Priority Restoration, recognizes that quoting charges and obtaining permission to proceed with the restoration of certain Services may cause certain delays and, as a result, could jeopardize the intent of early restoration of services provided under this program.

8. Rates

In subscribing to the TSP System service, the Customer recognizes this condition, grants the Company the right to quote charges after the restoration or installation is completed and agrees to pay the charges.
