LOCAL EXCHANGE SERVICE

APPLICATION OF TARIFF

This tariff sets forth the service offerings, rates, terms and conditions applicable to the furnishing of intrastate communications services by COX NEBRASKA TELCOM, L.L.C. to Customers within the local exchange service area defined below: (Freemont Children's Hospital).

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions

Certain terms used generally throughout this tariff are defined below.

Account Codes: Allows a User to allocate local calls to a 4-digit, non-verified account code.

Advance Payment: Payment of all or part of a charge required before the start of service.

Authorized User: A person, firm, corporation or other entity that either is authorized by the Customer to use local exchange telephone service or is placed in a position by the Customer, either through acts or omissions, to use local exchange telephone service.

Business Telephone Service: Telephone service to a business location, or to a residential location and which is listed in the business section of the local telephone book.

Cable Service: This service is defined as the basic service tier (BST). BST includes the local broadcast stations and any public, educational, and government programming required by the franchise agreement.

Call Forward Busy: Automatically routes incoming calls to a designated answering point when the called line is busy.

Call Forward No Answer: Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forward Remote Access: Allows a customer to change the forwarding of a call from a remote location by dialing in and pressing a series of codes.

Call Forward Variable: Automatically routes incoming calls to a designated answering point, regardless of whether the user's Station is idle or busy.

Call Hold: Allows the User to hold one call for any length of time provided that neither party goes On Hook.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Call Park: Allows a User to "park" a call against their directory number within the business group and "unpark" the call from any other directory number. A business group consists of a series of Customer-defined telephone numbers.

Call Pickup: Allows a User to answer incoming calls to another Station line within a defined call pickup group. Call Pickup is provided as either Group Call Pickup, where predesignated groups can pickup each other's calls by activating an access code or a feature key, or Directed Call Pickup, where any call can be retrieved by dialing a different access code followed by the extension number.

Call Trace: Allows a Customer who has been receiving harassing or annoying phone calls to have the number of the caller recorded for follow-up by appropriate law enforcement agencies.

Call Transfer/Consultation/Conference: Provides the capability to transfer or add a third party, using the same line.

Call Waiting: Provides the User with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting Cancel: Allows a User to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Calling Number Delivery (Caller ID): Identifies the 10-digit number of the calling party.

Calling Number Delivery Blocking: Blocks the delivery of the number to the called party on a per call basis.

Cancellation Charge or Cancellation Fee: A charge applicable under certain conditions (N)
when an application for service and/or facilities is cancelled in whole or in part prior to the (N)
completion of the installation of the service. (See Section 2.7 for details.) (N)

Class of Service (COS): Used to prevent a Station from dialing certain codes and numbers.

Combination Service: shall mean a residential Customer, who may qualify for discounts on the first and additional lines if the Customer also purchases either Cable Services or high speed internet access from a Cox Affiliated Company. The eligibility will continue so long as the Customer continues to purchase the either service from the Cox Affiliated Company.

Conference/Six-Way: The User can sequentially call up to five other people and add them together to makeup a six-way call.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Company or Cox: COX NEBRASKA TELCOM, L.L.C., which is the issuer of this tariff.

Cox Affiliated Company: shall mean a wholly owned subsidiary of COX NEBRASKA TELCOM, L.L.C.'s parent company, Cox Communications, Inc., which provides cable and high speed internet access in the State of Nebraska.

Customer: The person, firm, corporation or other entity which orders service and is responsible for the payment of charges and for compliance with the Company's tariff regulations.

Customer Group Dialing Plan: A dialing scheme shared by the members of a Customer group, such as 4 digit internal dialing.

Dial Pulse (DP): The pulse type employed by rotary dial Station sets.

Direct Inward Dialing (DID): A service attribute that routes incoming calls directly to Stations, by-passing a central answering point.

Do Not Disturb: Allows the User to prevent incoming calls from ringing its line by diverting them to a tone or a recorded announcement that informs the caller that the User is not accepting calls at this time.

Dual Tone Multi-Frequency ("DTMF"): The pulse type employed by tone dial station sets.

Early Termination Charge or Fee: A charge assessed to a Customer if a contract is terminated prior to the expiration of the contract period. (See Section 2.7 for details.)

Embedded Multimedia Terminal Adapter ("eMTA"): Equipment provided to the Customer to enable Cox's provision of voice telephone service. (N)
(N)

Exchange Carrier: Any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged in the provision of local exchange telephone service.

Holidays: New Year's Day, Martin Luther King's Birthday, President's Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, Christmas Day.

Hunting: Routes a call to an idle station line. With Serial Hunting, Calls to a member of a hunt group will search from that point to the end of the group and stop.

Individual Case Basis: A service arrangement in which the regulations, rates and charges are developed based on the specific circumstances of the Customer's situation.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Joint User: A person, firm or corporation designated by the Customer as a user of local exchange service furnished to the Customer by the Company, and to whom a portion of the charges for such facilities are billed under a joint use arrangement.

LATA: A local access and transport area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192 for the provision and administration of communications services.

Least Idle Trunk Selection (LIDL): LIDL trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the shortest period of time.

Local Calling: A completed call or telephonic communication between a calling Station and any other Station within the local service area of the calling Station.

Local Exchange Carrier: A company which furnishes exchange telephone service.

Mbps: Megabits, or millions of Bits, per second.

Measured Rate Service: The term "Measured Rate Service" denotes business service for which charges are made according to a measured amount of usage. Rates include an access line charge, which are billed in advance, and usage charges, which are billed in arrears.

(N)
(N)
(N)
(N)

Message Waiting: This feature provides an indication to a Station User that a message is waiting. Indications may be visual (lamp) or audible (stuttered dialtone).

Most Idle Trunk Selection (MIDL): MIDL Trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the longest period of time.

Multiple Appearance Directory Numbers: A directory number that is assigned more than once to one or more Proprietary Business Sets.

Multi-Frequency ("MF"): An inter-machine pulse-type used for signaling between telephone switches, or between telephone switches and PBX/key systems.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Non-Recurring Charges: The one-time initial charges for services or facilities, including but not limited to charges for construction, installation, or special fees, for which the Customer becomes liable at the time the Service Order is executed.

Off-Hook: The term "off-hook" denotes the active condition of a telephone exchange service line.

On-Hook: The term "on-hook" denotes the idle condition of a telephone exchange service line.

Presubscription: A process whereby a Customer chooses a long distance carrier and is then able to access that carrier by dialing 1+.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Repeat Dialing: Allows a customer to dial the same number over again by pressing a specific code.

Residential Service: Residential service rates apply if the Customer's service is used primarily for social or domestic purposes.

(C)
(C)

Resold Services: Local exchange services provided by the Incumbent Local Exchange Carrier and resold by the Company.

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance of service. The parties may mutually agree on a substitute Service Commencement Date.

Service Order: The written request for local exchange services executed by the Customer and the Company in a format specified by the Company. The signing of a Service Order by the Customer and acceptance thereof by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Services: The Company's telecommunications services offered on the Company's network.

Shared Facilities: A facility or equipment system or subsystem which can be used simultaneously by several Customers.

Speed Call: Provides a User with the option to call selected directory numbers by dialing a one or two-digit code.

Station: Telephone equipment from or to which calls are placed.

Trunk: A communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

User: A Customer or any other person authorized by the Customer to use service provided under this tariff.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations

2.1 Undertaking of the Company

2.1.1 Scope

The Company undertakes to furnish communications service in connection with one-way and/or two-way information transmission between points within the State of Nebraska under the terms of this tariff.

Customers may use services and facilities provided under this tariff to obtain access to services offered by other service providers. The Company is responsible under this tariff only for the services and facilities provided herein, and it assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own customers.

2.1.2 Shortage of Equipment or Facilities

1. The Company reserves the right to limit or allocate the use of existing facilities when it deems necessary to manage the lack of facilities or to manage a facility shortage due to some other cause beyond the Company's control. The Company maintains the right to apply protective controls, such as call gapping, which selectively cancels the completion of traffic carried over its network, including the traffic associated with an End User's transmission to another carrier. In addition, the Company reserves the right to limit call duration when deemed necessary to prevent network degradation and to optimize network efficiency of its telephone service. The Company will incur no liability for call interruptions resulting from the Company's efforts to avoid such degradation.
2. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's fiber optic cable facilities as well as facilities the Company may obtain from other carriers, from time to time, to furnish service as required at the sole discretion of the Company.
3. The furnishing of service under this tariff is subject to the availability to the Company of adequate numbering resources and may be subject to the Company's implementation of interconnection arrangements with incumbent local exchange carrier in Nebraska.

2.1.3 Terms and Conditions

1. Except as otherwise provided herein, service is provided and billed on the basis of a minimum period of at least one month, and shall continue to be provided until canceled by the Customer, in writing, on not less than 30 days' notice. Unless otherwise specified herein, for the purpose of computing charges in this tariff, a month is considered to have 30 days. All calculations of dates set forth in this tariff shall be based on calendar days, unless otherwise specified herein.
2. Customers may be required to enter into written Service Orders which shall contain or reference the name of the Customer, a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff. Customers will also be required to execute any other documents as may be reasonably requested by the Company.
3. Upon expiration of a term agreement, service shall continue on a month to month basis at the then current rates unless terminated by either party upon 30 days written notice. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the Service Order shall survive such termination.

4. In any action between the parties to enforce any provisions of this tariff, the prevailing party shall be entitled to recover its legal fees and court costs from the non-prevailing party in addition to other relief a court may award. (M)
5. This tariff shall be interpreted and governed by the laws of the State of Nebraska. (M)
6. Another telephone company must not interfere with the right of any person or entity to obtain service directly from the Company.
7. Cox will reserve the telephone numbers for Customer's new telephone service. Reserved telephone numbers may change prior to the time of installation of service. Customers should not use, publish or advertise reserved numbers until service has been activated. Customer is solely responsible for any expense or loss resulting from Customer's use, publication or dissemination of these numbers. The Customer has no property right in the telephone number associated with Cox telephone service; however, if Customer ports telephone numbers from another carrier to Cox, subject to federal or state law, or telephony industry guidelines, Cox will use such numbers with Customer's telephone service. After activation, Cox reserves the right to change telephone numbers subject to federal or state law, or telephony industry guidelines. Business Customers, who have fulfilled contract obligations and wish to transfer service type from Business to Residential, will be allowed to keep existing telephone number(s) and receive residential rates. Business Customers, who have not fulfilled contract obligations and switch service types from Business to Residential, will be issued a new telephone number when the service is transferred to a Residential Service type. Additionally, call intercept will not be deployed to inform the caller of the new Residential Service number.
8. The Customer agrees to operate any Company-provided equipment in accordance with instructions of the Company or the Company's agent. Failure to do so will void Company liability for interruption of service and may make the Customer responsible for damage to Company-provided equipment pursuant to section 2.1.3.10 below.

9. Service to certain Customers is provided via an Embedded Multimedia Terminal Adapter ("eMTA") and/or other voice telephone service devices ("Equipment"). If service is provided via Equipment, the Customer will receive Equipment provided by Cox during installation. The Equipment works on household power and requires a battery to operate during a power outage. The battery will operate up to 24 hours in case of a power outage depending on usage. While the Customer's telephone service will be available without a battery or a fully charged battery, services, including access to 9-1-1 services will not be available during outages without a battery or if the battery has been drained. The Customer may order a battery from Cox by calling the Cox customer service number or visiting a Cox retail store after telephone service is installed.

(a)

- (b) Cox will provide a battery upon request at the then-prevailing retail price, plus shipping if applicable. The Customer may obtain batteries from sources other than Cox if available, but the Customer is responsible for ensuring that any battery obtained from another source is compatible with the Equipment. 2.1.4 Liability of the Company

1. The liability of the Company for damages arising out of the furnishing of its services, including but not limited to mistakes, omissions, interruptions, delays, or errors, other defects, or representations by the Company, or use of these services or damages arising out of the failure to furnish the service whether caused by acts or omissions, shall be limited to the extension of allowances for interruption as set forth in Section 2.6, below. The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to Customer as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company's employees or agents.
2. The Company's liability for willful misconduct, if established as a result of judicial or administrative proceedings, is not limited by this tariff. The Company's liability, if any, with regard to delayed installation of Company facilities or commencement of service, shall not exceed \$1,000. With respect to any other claim or suit, by a Customer or by any others, for damages (including any such claim or suit arising out of or related to the reservation of any specific number for use with a service), associated with the ordinary" installation (including delays thereof) provision, termination, maintenance, repair, interruption or restoration of any service or facilities offered under this tariff, and subject to the provisions of Section 2.6, the Company's liability, if any, shall be limited as provided herein.

The Customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or by any other party, for any personal injury to, or death of, any person or persons, or for any loss, damage or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate maintenance, removal, presence, condition, locations or use of service furnished by the Company at such locations.
13. The Company shall not be liable for the Customer's failure to fulfill its obligations to take all necessary steps including, without limitation, obtaining, installing and maintaining all necessary equipment, materials and supplies, for interconnecting the terminal equipment or communications system of the Customer, or any third party acting as its agent, to the Company's network. The Customer shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection. In addition, the Customer shall ensure that its equipment and/or system or that of its agent is properly interfaced with the Company's service, that the signals emitted into the Company's network are of the proper mode, band-width, power, data speed, and signal level for the intended use of the Customer and in compliance with the criteria set forth in Section 2.1.6 following, and that the signals do not damage Company equipment, injure its personnel or degrade service to other Customers. If the Customer or its agent fails to maintain and operate its equipment and/or system or that of its agent properly, with resulting imminent harm to Company personnel, equipment, or the quality of service to other Customers, the Company may, upon written notice, require the use of protective equipment at the Customer's expense. If this fails to produce satisfactory quality and safety, the company may, upon written notice, terminate the Customer's service without liability.

2.1.4 Liability of the Company, cont'd.

14. With respect to Emergency Number 911 Service:

(a) This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies. The Company is not responsible for any losses, claims, demands, suits or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or by any other party or person for any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused by: (1) mistakes, omissions, interruptions, delays, errors or other defects in the provision of this service, or (2) installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of any equipment and facilities furnishing this service.

(b) If the Customer does not purchase a battery for the eMTA or does not monitor the status of the battery and replace it when it no longer holds a charge, service, including 911 service, will not function during a household power outage. Even if customer has a battery for the eMTA, if customer only has a phone that requires electricity to operate (e.g. a cordless phone), access to 911 service will not be available during a household power outage.

(c) Neither is the Company responsible for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of emergency 911 service features and the equipment associated therewith, or by any services furnished by the Company including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing emergency 911 service, and which arise out of the negligence or other wrongful act of the Company, the Customer, its Users, agencies or municipalities, or the employees or agents of any one of them.

Business Customer acknowledges and understands that the E911 database will provide accurate information to first responders and others who access the database only if the Customer assures that the information is accurate at every moment of time. Company shall have no liability for any delay, incorrect response, or any injury that Customer or any person suffers as a result of any inaccuracy in the E911 database caused by Customer's actions or failure to act. The Customer must advise the Company of E911 move, add, change, or delete information in writing within twenty-four (24) hours of the effective date of the change. Company makes no warranties, express or implied, regarding the accuracy of E911 information provided by the Customer.

It is Customer's responsibility to conduct initial and regular testing of the ability to dial 9-1-1 over Cox Business services and ensure that: 1) Customer Premises Equipment ("CPE") is compatible with Cox Business's services; 2) the PSAP is able to identify the Customer's address when a 911 call is placed from Customer's location; and, if Customer is using a PS-ALI service to provide enhanced PS/ALI functions (as described below), that 3) the PSAP is able to identify the specific location within Customer's address from where the 911 call is placed. SECTION 2 - Regulations, cont'd.

2.1 Undertaking of the Company, cont'd.

2.1.5 Notification of Service-Affecting Activities

The Company will provide the Customer reasonable notification of service activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventive maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notifications requirements. However, some emergency or unplanned service-affecting conditions, such as outage resulting from cable damage, notification to the Customer may not be possible.

2.1.6 Provision of Equipment and Facilities

1. The Company shall use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with, the regulations contained in this tariff. The Company does not guarantee availability by any such date and shall not be liable for any delays in commencing service to any Customer.
2. The Company shall use reasonable efforts to maintain facilities that it furnishes to the Customer. The Customer may not, nor may the Customer permit others to, rearrange, disconnect, remove, and attempt to repair or otherwise interfere with any of the facilities installed by the Company, except upon the written consent of the Company.

2.1.6 Provision of Equipment and Facilities, cont'd.

3. Equipment installed at the Customer Premises for use in connections with the services the Company offers shall not be used for any purpose other than that for which the Company has provided it.
4. The Company shall not be responsible for the installation, operation or maintenance of any Customer provided communications equipment. Where such equipment is connected to the facilities furnished pursuant to this tariff, the responsibility of the Company shall be limited to the furnishing of facilities offered under this tariff and to the maintenance and operation of such facilities. Beyond this responsibility, the Company shall not be responsible for:
 - (a) the transmission of signals by Customer provided equipment or for the quality of, or defects in, such transmission; or
 - (b) the reception of signals by Customer provided equipment; or
 - (c) network control signaling where such signaling is performed by Customer-provided network control signaling equipment.
5. The Customer shall be responsible for the payment of service charges as set forth herein for visits by the Company's agents or employees to the premises of the Customer when the service difficulty or trouble report results from the use of equipment or facilities provided by any party other than the Company, including but not limited to the Customer.

2.1.7 Non-routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

Standard installation service charges reflect service provided between Monday through Saturday, 8:00 a.m. - 5:00 p.m., at current installation intervals and without work interruptions by the Customer. For Customer requests for expedited services that require installations on a date that is less than the normal offered interval, a 100% increase in applicable service charge shall apply, or if during a promotional period, the full non-discounted service charge would apply.

2.1.8 Ownership of Facilities

Title to all facilities provided in accordance with this tariff remains in the Company, its agents or contractors.

2.1.9 Residential Contracts (Term Agreements)

Cox may from time to time offer its Residential Customers term pricing via a contract. Residential Customers may be offered a verbal contract for a period of 12 months or less. For periods longer than 12 months, Cox will require a written contract. Both verbal and written agreements may include a prorated Early Termination Fee.

With respect to any service, equipment or facility provided by the Company, Customer shall indemnify, defend and hold harmless the Company from all claims, actions, damages, liabilities, costs and expenses, including reasonable attorneys' fees for:

1. any loss, destruction or damage to property of the Company or any third party, or the death of or injury to persons, including, but not limited to, employees or invitees of either the Company or the Customer, to the extent caused by or resulting from the negligent or intentional act or omission of the Customer, its employees, agents, representatives or invitees; or
2. any claim, loss damage, expense or liability for infringement of any copyright, patent, trade secret, or any proprietary or intellectual property right of any third party, arising from any act or omission by the Customer, including, without limitation, use of the Company's services and facilities in a manner not contemplated by the agreement between the Customer and the Company.

2.3.3 Private Identification Number ("PIN") Access

The F.C.C. requires that Customers set up and use a Private Identification Number ("PIN") when communicating with the Company to obtain certain information about, or to make certain changes to, their telephone account. Use of this PIN may be waived when communicating with an account representative dedicated to a Business Customer's account. Cox Telephone Service is subject (T)

2.4 Customer Equipment and Channels

2.4.1 General

A Customer may transmit or receive information or signals via the facilities of the Company.

2.4.2 Station Equipment

1. The Customer is responsible for providing and maintaining any terminal equipment on the Customer's (or authorized user's or joint user's) premises. The electric power consumed by such equipment shall be provided by, and maintained at the expense of, the Customer. All such terminal equipment must be registered with the FCC under 47 C.F.R., Part 68 and all wiring must be installed and maintained in compliance with those regulations. The Company will, where practicable, notify the Customer that temporary discontinuance of the use of a service may be required; however, where prior notice is not practicable, nothing contained herein shall be deemed to impair the Company's right to discontinue forthwith the use of a service temporarily if such action is reasonable under the circumstances. In case of such temporary discontinuance, the Customer will be promptly notified and afforded the opportunity to correct the condition which gave rise to the temporary discontinuance. During such period of temporary discontinuance, credit allowance for service interruptions as set forth in Section 2.6 following is not applicable.

2.4 Customer Equipment and Channels, cont'd.

2.4.2 Station Equipment, cont'd.

2. The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.
3. **The Customer is responsible for ensuring that the Customer-Provided Equipment (CPE), such as a Private-Branch Exchange (PBX), provisioned on the Company's network is maintained and operated to deter fraudulent or unauthorized access to the CPE. The Customer is responsible for payment of all charges incurred on their monthly billing statement.**
4. **The Customer is responsible for ensuring that station location information for all Customer-provided Multi-Line Telephone Systems (MLTS), or PBXs, is current in the PS-ALI so that emergency responders have the ability to locate the station in emergency situations.**

2.4.3 Interconnection of Facilities

1. Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing local exchange service and the channels, facilities, or equipment of others may be provided at the Customer's expense.
2. Local Services may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with, the terms and conditions of the tariffs of the other communications carriers which are applicable to such connections.
3. Facilities furnished under this tariff may be connected to Customer provided terminal equipment in accordance with the provisions of this tariff.

2.4 Customer Equipment and Channels, cont'd.

2.4.4 Inspections

1. Upon reasonable notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth in Section 2.4.2.2 for the installation, operation, and maintenance of Customer-provided facilities and equipment to Company-owned facilities and equipment. No credit will be allowed for any interruptions occurring during such inspections.
2. If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within 10 days of receiving this notice the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to take such actions and provide such notice, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment and personnel from harm. The Company will, upon request 24 hours in advance, provide the Customer with a statement of technical parameters that the Customer's equipment must meet.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations, cont'd.

2.5 Payment Arrangements

2.5.1 Payment for Service

The Customer is responsible for payment of all charges for service and facilities furnished by the Company to the Customer or its Joint or Authorized Users. Objections must be received by the Company within 30 days after statement of account is rendered, or the charges shall be deemed correct and binding upon the Customer. If an entity other than the Company imposes charges on the Company, in addition to its own internal costs, in connection with a service for which a Company Non-Recurring Charge is specified, those charges may be passed on to the Customer.

1. Taxes: The Customer is responsible for the payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges or surcharges (however designated) excluding taxes on the Company's net income imposed on or based upon the provision of Local Exchange Service, all of which shall be separately designated on the Company's invoices. Any taxes imposed by a local jurisdiction (e.g., County and municipal taxes) will only be recovered from those Customers residing in the affected jurisdictions. It shall be the responsibility of the Customer to pay any such taxes that subsequently become applicable retroactively.

2.5 Payment Arrangements

2.5.1 Payment for Service, cont'd.

2. A surcharge is imposed on all charges for service originating at addresses in states which levy, or assert a claim of right to levy, a gross receipts tax on the Company's operations in any such state, or a tax on interstate access charges incurred by the Company for originating access to telephone exchanges in that state.¹ This surcharge is based on the particular state's receipts tax and other state taxes imposed directly or indirectly upon the Company by virtue of, and measured by, the gross receipts or revenues of the Company in that state and/or payment of interstate access charges in that state. The surcharge will be shown as a separate line item on the Customer's monthly invoice.

(D)

(D)

¹Pending the conclusion of any challenge to a jurisdiction's right to impose a gross receipts tax, the Company may elect to impose and collect a surcharge covering such taxes, unless otherwise constrained by court order or direction, or it may elect not to impose and collect the surcharge. If it has collected a surcharge and the challenged tax is found to have been invalid and unenforceable, the Company will credit or refund such amounts to affected Customers (less its reasonable administrative costs), if the funds collected were retained by the Company or if they were delivered over to the taxing jurisdiction and returned to the Company.

2.5 Payment Arrangements, cont'd.

2.5.2 Billing and Collection of Charges

Bills will be rendered monthly to Customer.

1. All service, installation, monthly Recurring Charges and Non Recurring Charges are due and payable upon receipt.
2. The Company shall present bills for Recurring Charges monthly to the Customer, in advance of the month which service is provided. Charges based on measured or message usage will be included on the next invoice rendered following the end of the billing period in which the usage occurs, and will be due and payable upon receipt and considered past due if not paid within 15 days after the invoice date.
3. For new customers or existing customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.
4. **For Customers provisioned under a term agreement and service is terminated prior to the expiration of the term commitment, Early Termination Charges will apply. Early Termination Charges are due and payable effective as of the termination date. For details, see Section 2.7.**
5. Amounts not paid within 5 days after the billing due date will be assessed a late payment charge of 1.5% per month on the unpaid balance.
6. A \$25.00 charge will be assessed **on all negotiable instruments presented as payment to Cox and subsequently returned to Cox by a financial institution for** insufficient funds or non-existing accounts.

2.5.3 Disputed Bills

The Customer shall notify the Company of any disputed items on a bill within 30 days of receipt of the bill. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the Nebraska Public Service Commission in accordance with the Commission's rules of procedure.

1. The date of the dispute shall be the date the Company receives sufficient documentation to enable it to investigate the dispute.
2. The date of the resolution is the date the Company completes its investigation and notifies the Customer of the disposition of the dispute.

2.5.4 Advance Payments

To safeguard its interests, the Company may require a Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount equal to the Non-Recurring Charge(s) and one month's charges for the service or facility. In addition, where special construction is involved, the Advance Payment may also include an amount equal to the estimated Non-Recurring Charges for the special construction and Recurring Charges (if any) for a period to be set between the Company and the Customer. The Advance Payment will be credited to the Customer's initial bill. An Advance Payment may be required in addition to a deposit.

SECTION 2 - Regulations, cont'd.

2.5 Payment Arrangements, cont'd.

2.5.5 Deposits

1. Applicants for service or existing Customers who cannot establish a satisfactory credit standing with the Company may be required at any time to provide the Company a security deposit. The deposit requested will be in cash or the equivalent of cash, and will be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:
 - (a) two month's charges for a service or facility which has a minimum payment period of one month; or
 - (b) the charges that would apply for the minimum payment period for a service or facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in event that a termination charge is applicable. In addition, the Company shall be entitled to require such an applicant or Customer to pay all its bills within a specified period of time, and to make such payments in cash or the equivalent of cash. At the Company's option, such deposit may be refunded to the Customer's account at any time. Also, the Company reserves the right to cease accepting and processing Service Orders after it has requested a security deposit and prior to the Customer's compliance with this request.
2. A residential applicant shall not be required to pay a deposit:

If it can be verified that the residential applicant has been an end-user of any telecommunications service provider in the State of Nebraska for the same type of service within the last two years and is not currently delinquent in payment of any such telecommunications service provider account, unless the applicant during the last twelve (12) consecutive months was delinquent in the payment of a telecommunications service provider account on more than two (2) occasions, presented a dishonored check for payment of a telecommunications service account or had service disconnected due to nonpayment of a telecommunications service.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations, cont'd.

2.5 Payment Arrangements, cont'd.

2.5.5 Deposits, cont'd.

- (a) If the residential applicant furnishes in writing, a satisfactory guarantee to secure the payment of bills for the telecommunications service requested.
 - (1) Unless otherwise agreed to by the guarantor, the guarantee shall be for the amount of deposit Cox would normally require on the applicant's account. The amount of guarantee shall be clearly indicated on any documents or letters of guarantee signed by the guarantor.
 - (2) When the residential customer has paid bills for telecommunications service for twelve (12) consecutive residential billings without having service disconnected for nonpayment of bills and without having more than two (2) occasions in which a bill was delinquent, did not present a dishonored check for payment and is not delinquent in the payment of current bills, Cox shall void and return to the guarantor any documents or letters of guarantee.
- 3. The amount of the deposit for residential customers shall not exceed an amount equal to two (2) months local exchange charges and/or two (2) months toll charges determined by actual or anticipated usage. The deposit for local charges billed in advance shall include only one (1) month's such charges.
- 4. When a residential customer's deposit exceeds \$40, the customer may arrange to make the payment over three billing periods. However, the Company may allow a residential customer to extend the payments of any required deposit over a longer period of time to avoid undue hardship.

2.5.5 Deposits, cont'd.

5. A present end-user may be required to post a deposit as a condition of continued service if undisputed charges have become delinquent, with delinquent meaning a payment not received on or before the due date as posted on the bill, in two (2) out of the last twelve (12) billing periods or if the end-user has had service disconnected during the last twelve (12) months or has presented a check to Cox that was subsequently dishonored

Interest on cash deposits shall be paid by Cox at no less than the rate calculated as follows:

For all consumers deposits kept longer than 90 days, the interest rate shall be established the 1st day of January of each year to equal the average of the weekly percent annual yields of one (1) year U.S. Treasury Securities for September, October, and November of the preceding year. The interest rate shall be rounded to the nearest basis point. Such interest shall be calculated to December 1 of each year, and the payment shall be made by credit to customers' account on the December billing or at the request of the customer, the payment shall be made directly to the customer.

6. If a refund of the deposit is made within ninety (90) days of receipt of the deposit, no interest payment shall be made. If Cox retains the deposit more than ninety (90) days, payment of interest shall be made retroactive to the date of deposit. No interest shall accrue on a deposit after discontinuance of service. Cox will provide payment of accrued interest for all end-users annually by negotiable instrument or by credit against current billing.
7. The deposit shall cease to draw interest on the date it is returned or credited to the end-user's account.
8. In determining the amount of any deposit, no charges for estimated telephone directory advertising will be used.

SECTION 2 - Regulations, cont'd.

2.5 Payment Arrangements, cont'd.

2.5.5 Deposits, cont'd.

9. The amount of the deposit, with accrued interest, shall be applied to any unpaid charges at the time of a discontinuance of services. The balance, if any, shall be returned to the customer within thirty (30) days after settlement of the consumer's account, either in person or by mailing it to the end-user's last known address.
10. If service is not connected, or after disconnection of service, Cox shall promptly and automatically refund the customer's deposit plus accrued interest on the balance, if any, in excess of the unpaid bills for service furnished. A transfer of service from one (1) premise to another within the area of Cox shall not be deemed a disconnection within the meaning of this rule, and no additional deposit may be required unless otherwise permitted by these rules.
11. Cox shall automatically refund the deposit for residential service, with accrued interest, after twelve (12) months' satisfactory payment of undisputed charges and where payment was not late more than twice; provided, however, that service has not been disconnected within the twelve (12) month period. Payment of a charge shall be deemed satisfactory if received on or prior to the date the bill is due. Payment of a charge shall be deemed not satisfactory if made by a check that is subsequently dishonored. If the customer does not meet these refund criteria, the deposit and interest may be retained in accordance with subsection (d) of this Section.
12. Cox shall automatically refund the deposit for business service, with accrued interest, after twelve (12) months' satisfactory payment of undisputed charges and where payment was not late more than twice; provided, however, that service has not been disconnected within the twelve (12) month period. Payment of a charge shall be deemed satisfactory if received on or prior to the date the bill is due. Payment of a charge shall be deemed not satisfactory if made by a check that is subsequently dishonored.

Cox may withhold refund or return of the deposit, pending the resolution of a dispute with respect to charges secured by the deposit.

13. Cox will keep records to show:

- (a) The name, account number, and address of each depositor.
- (b) The amount and date of the deposit.
- (c) Each transaction concerning the deposit.

14. Cox will issue a receipt of deposit to each applicant from whom deposit is received and shall provide means whereby a depositor may establish claim if the receipt is lost.

15. Such records shall be retained for two (2) years after deposit and/or interest is refunded or applied.

16. Upon the sale or transfer of Cox or operating units thereof, the seller shall file, with the application of transfer, a verified list of Customers with deposits held by the Company and the associated unpaid interest thereon. The information provided shall be treated as confidential and shall not be available for public inspection unless ordered by the Commission after notice and hearing.

(T)

2.5.6 Discontinuance of Service

1. Cox may refuse service or terminate existing service to an end-user without notice for tampering with Cox's equipment, or misuse or abuse thereof in order to avoid payment of lawful charges or use thereof in such manner as to create danger to life or property of Cox or end-users.
2. Cox may refuse service or terminate existing service to a customer pursuant to the disconnect procedure provided below for any of the following reasons:
 - (a) Nonpayment of a bill within the period prescribed by these tariffs and/or nonpayment of a single bill within a multiple-billed account.
 - (b) Failure to make a security deposit as set forth in these tariffs.
 - (c) Violation of or noncompliance with any provision of law.
 - (d) Refusal to permit Cox reasonable access to its telecommunications facilities for recovery, maintenance, and inspection thereof.
 - (e) Interconnection of a device, line, or channel to Cox's facilities or equipment contrary to Cox's terms and conditions of service on file with and approved by the Commission.
 - (f) Use in such manner as to interfere with service to other Customers.
 - (g) Abandonment of the service.
 - (h) Impersonation of another with fraudulent intent or other acts, whether real or perceived, to defraud the Company.
 - (i) Use of service or facilities for a call or calls in a manner reasonably expected to frighten, abuse, torment, or harass another.
 - (j) Any other violation of the Company's regulations.

In an effort to protect itself and/or its Customers, the Company will, at its option, disconnect an End User's service without prior notice for violation of subsections (f) or (h) above.
3. Cox will provide documentation to the customer upon request, indicating the reason(s) that service is being withheld.

SECTION 2 - Regulations, cont'd.

2.5 Payment Arrangements, cont'd.

2.5.6 Discontinuance of Service, cont'd.

4. Upon a customer's request to terminate local exchange service, Cox will inform such customer of the customer's responsibility to contact the customer's IXC regarding continuance or termination of such service from the IXC.
5. Cox shall not be required to provide service to an applicant or customer who has not paid for prior telephone service rendered by another telecommunications service provider in the same or different location, and furnished to the same person or legal entity.
6. Cox shall not be required to furnish or continue furnishing service when applied for in the name of another person or legal entity, or a fictitious name or other member of the same household, for the purpose of avoiding payment of an unpaid obligation for telephone service previously furnished.
7. Customers will not be held responsible for the nonpayment of another customer's bill unless the customer superseded the service or was a co-applicant or guarantor for the service or shared the service of the nonpaid account.
8. Cox will extend a payment arrangement to an applicant for a prior bill, unless the applicant has not fulfilled prior payment arrangements within the past twelve (12) months.
9. Cox will not refuse service or disconnect existing service by reason of nonpayment for telephone service by a previous occupant at the premises for which service is sought, or by reason of nonpayment of any amount back-billed due to misapplication of rates provided the applicant enters into a deferred payment plan. Cox will not disconnect or suspend service without mailing or delivering a bill to the customer for the amount due to Cox.

2.5.6 Discontinuance of Service, cont'd.

11. Service may not be withheld from a customer whose name was fraudulently used to obtain service at another location without the customer's permission or knowledge
12. Service will not be discontinued to a current customer in good standing who accepts an additional household member owing a previous bill to Cox, unless that additional household member is listed on the lease arrangements or another utility service as a responsible party, or unless the household member shared service with the customer at a different or same location.
13. Cox will not provide billing and collection for any provider of intrastate telecommunications services who does not have proper authority to operate in the State of Nebraska.
14. Cox may require each customer whose service has been suspended for nonpayment of bills, to pay all amounts due for regulated services or execute a deferred payment agreement, if offered before service is restored.
15. If there is an unresolved dispute pending with the Commission concerning a bill and the customer pays the undisputed portion of that bill, disconnection procedures shall be held in abeyance until the dispute is resolved.
16. Service to a customer may be disconnected for any reason which by these tariffs requires notice, other than nonpayment for service or failure to make a security deposit, only upon order of the Commission, upon application and after notice and hearing. For good cause shown, the Commission may order disconnection of service pending hearing, with or without notice to the customer.

17. Telephone Calls with Intent to Annoy: (N)
- A. The Company may discontinue service to any Customer, who with intent to annoy, telephones another and addresses to or about such other person any obscene language or addresses to such person any threat to inflict injury to the person or property of the person addressed or any family member.
 - B. The Company may discontinue service of any Customer, who with intent to annoy, repeatedly telephones another without disclosing his/her true identity to the person answering the telephone, whether or not conversation ensues during the telephone call.
 - C. The Company may, at its discretion, terminate service to any Customer who establishes a pattern of behavior with respect to the services provided by the Company that is intended to vex, harass or annoy the Company, its employees, agents or other Users of the Publicly Switched Telephone Network. A pattern of behavior is intended to vex, harass or annoy if it disturbs, irritates or interrupts the Company's operations through continued and repeated acts, or disturbs, irritates, or interrupts Users of the Public Switched Telephone Network through continued and repeated acts.
 - D. Prior to disconnection of service for calls described in parts A. and B. above, the Company will make reasonable effort to persuade the Customer placing such calls to cease all such activity. If such activity persists, the Company may, at its option, disconnect service. Prior to disconnection of service for calls described in part C. above, the Company may, at its option, refuse to transact business with the Customer except by written communication. If the Customer continues to engage in conduct set forth in section C above, the Company may, at its option, immediately discontinue service.
 - E. For the purpose of this section 2.5.6, telephone calls shall include Customer's usage of facsimile, paging or any other communication devices to access the service provided by the Company.

2.6 Allowances for Interruptions of Service

- 2.6.1 Credit for interruptions: When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company, except as otherwise specified in the Company's tariffs. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the monthly Recurring Charges specified herein for Local Line or Cox Connect Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours.

2.9 Notices and Communications

- 2.9.1 The Customer shall designate on the Service Order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.
- 2.9.2 The Company shall designate on the Service Order an address to which the Customer shall mail or deliver all notices and other communications, except that Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.
- 2.9.3 All notices or other communications required to be given pursuant to this tariff will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following deposit of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs

2.10 Toll Service

1. If a Residential Customer in any single month accrues toll charges in excess of twice the average monthly toll charges of the Company's Customers in the same class of service or twice the actual monthly average of the individual Customer's charges, the Company will review the Customer's previous billing and payment history. If such review indicates that it is unlikely the Customer shall be able to pay such bill, the Company may contact the Customer to make inquiries concerning the abnormal usage. If the explanation is not satisfactory, the Company may require a security and/or payment of charges on the account to continue service. The Company may terminate service provided the Customer is given 48 hours advanced notice and the Customer makes no further attempt to secure and or pay the account in order to continue service. The 48-hour notification rule shall be waived and service will be terminated immediately in those situations where intentional Customer abuse of toll usage is evident.
2. If a Customer exceeds the average monthly toll charges of Company Customers in the same class of service and has exhibited a previous inability to pay such charges, the Company may impose toll control, where technically feasible, or a toll cap of \$100.00.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations, cont'd.

2.11 Transfer of Credit Balances

For disconnected bundled service accounts consisting of regulated and non-regulated services, Cox may apply any/all remaining credit balances on any regulated services against any remaining outstanding debit balances on any non-regulated services on the same account.

LOCAL EXCHANGE SERVICE

SECTION 3 - Service Descriptions

3.1 Local Exchange Service

The Company's local telephone service provides a Customer with the ability to connect to the Company's switching network via a voice grade communications channel, and which provides the Customer:

- the ability to place or receive calls to any calling Station in the local calling area, as defined herein;
- access to enhanced 911 Emergency Service, or 911 Emergency Service, where available
-
- access to Operator Services;
- access to Directory Assistance for the local calling area;
- the ability to place or receive calls to 800/888 telephone numbers;
- access to Telephone Relay Service.
- privacy protection (e.g. per call blocking);
- touch tone;
- a white pages directory listing.

SECTION 3 - Service Descriptions

3.1 Local Exchange Service

3.1.1 Service Areas/Calling Area

Where facilities exist and operating conditions permit, exchange and local service area is defined by the service area map on page 9, Application of Tariff or as defined in Section 3.1.1.1, Local Calling Area, below. (T)
(T)

3.1.1.1 Local Calling Areas

The Company's local calling area for Omaha, Bennington, Elkhorn, Gretna, Fremont and Waterloo exchange areas shall match the Extended Area Service (EAS) #5 and #6 local calling area of Qwest Communications, as defined by Qwest Communications' Exchange and Network Services Catalog, Section 5.1.1 (B). 3.1.2 Local Line

Local Line provides the Customer with a single, voice-grade communications channel. Each Local Line will include a telephone number.

1. Custom Calling Features

Custom Calling Features are optional central office services furnished to individual line business and/or residence customers. Custom Calling Features are available where facilities and operating conditions permit.

(T)

(a) **FEATURE DESCRIPTIONS -- BASIC**

800 Call Block: Allows a Business Customer to block calls to 8XX based Toll-Free Numbers.

Anonymous Call Rejection: Allows the subscriber to reject incoming calls from callers that intentionally block their caller identification information.

Busy Line Redial: Allows the Customer to program his or her telephone to automatically redial a number that is busy.

Call Forwarding: Allows a subscriber to program his or her telephone so that incoming calls are forwarded to another number.

Call Forwarding - Busy: Forwards all incoming calls to a customer defined alternate number when the customer's line is off hook.

HD (High Definition) Voice: Provides Residential Customers crystal clear conversations with reduced background noise. Requires CPE/Handset support for both calling and called parties. A standard call will be established if HD Voice is not supported.

(N)

Simultaneous Ring: The simultaneous ring feature can ring several different phones at one time when an incoming call is received. All designated (programmed) numbers will ring at the same time and the call can be answered from any of the programmed devices.

SECTION 3 - Service Descriptions, cont'd.

3.1 Local Exchange Service, cont'd.

3.1.2.1. (a) FEATURE DESCRIPTIONS – BASIC (cont'd)

Call Forwarding - No Answer/Don't Answer: Forwards all incoming calls to a customer defined alternate number after a user-defined number of rings.

Call Forwarding - Remote Access: Allows the customer to edit, activate or deactivate Call Forwarding features remotely.

Call Number Block (per call block): Allows the party placing an outgoing call to have his or her call blocked from having his or her number sent.

Call Return: Allows the subscriber to make an outgoing call to the last number that called the subscriber.

Call Trace: Allows a Customer who has been receiving harassing or annoying phone calls to have the number of the caller recorded. Customer must then file a complaint with appropriate law enforcement agency(s). Information regarding the traced call will be made available to the appropriate law enforcement agency, upon Company's receipt of proper lawful authorization. This feature is only available on a per use basis.

Call Waiting: The subscriber, already involved in a call, receives a tone that another incoming call is waiting to be answered. The called party, hearing the call-waiting tone during the existing conversation, can choose to flash the switchhook and connect to the incoming call. This feature includes Cancel Call Waiting which allows the subscriber to enter a code that disables the Call Waiting feature so that he or she will not hear a tone during a conversation with another party.

SECTION 3 - Service Descriptions, cont'd.

3.1 Local Exchange Service, cont'd.

3.1.2.1. (a) **FEATURE DESCRIPTIONS – BASIC (cont'd)**

Distinctive Ring: Where facilities and operating conditions permit, this feature allows more than one directory number to terminate on a telephone line and telephone set. Each directory number has a distinctive ringing sequence.

Line Number Block (per line block): Allows the party placing an outgoing call to have his or her line always blocked from having his or her number sent.

Long Distance Alert: This feature helps increase the completion of toll calls by providing a distinctive call waiting tone (if the line is off-hook) or a distinctive ringing cadence (if the line is on-hook) that alerts the subscriber to an incoming long distance call.

Priority Ringing: Allows the Customer to program up to 31 numbers which will be identified by a distinctive ring when the incoming call is from the designated list. If the Customer is engaged in conversation (off-hook) and a call from one of the designated numbers arrives, a distinctive call waiting tone accompanies the incoming call.

Privacy Control[♦]: Unidentified callers are intercepted and asked to identify themselves; the calling party's recorded name is provided to the called party. The called party can (1) accept the call, (2), reject the call or (3) forward the call to voice mail. (D)

Remote Call Forwarding: Allows the Customer to rent a directory number (RCF base number) in a remote location. Calls placed to this number are automatically forwarded via the toll network to the Customer's principal number. All calls will be carried on Cox's network. RCF is provided on condition that the Customer subscribes to a sufficient number of RCF paths to adequately handle calls to the RCF number without impairing other services offered by the Company. Charges for additional talk paths will apply per path for non-Cox RCF numbers.

Selective Call Acceptance: Allows the subscriber to create a list of telephone numbers. Incoming calls from these numbers are accepted. All other calls are forwarded to an announcement.

♦ Privacy Control feature will be eliminated from the tariff offering as of December 17, 2010. All affected Customers have been provided a 30-day notice of the service discontinuation. (D)

3.1.2.1. (a) FEATURE DESCRIPTIONS – BASIC (cont'd)

Selective Call Forwarding: Allows the subscriber to create a list of telephone numbers. Incoming calls from these numbers may be forwarded to another number instead of being completed at the subscriber's telephone number. All other calls are completed as usual.

Selective Call Rejection: Allows the subscriber to create a list of telephone numbers. Incoming calls from these numbers are forwarded to an announcement. All other calls are accepted.

Speed Calling - 8: Allows a subscriber to preprogram up to eight telephone numbers, and then access these numbers with the simple touch of one digit on his or her telephone set.

Three-Way Calling: Allows a subscriber to conference in a third person to an existing call so all three people can speak together in the same conversation.

Ring-Down Service: Allows a customer to establish a switched connection to a predetermined number when the customer's telephone goes off-hook. No dialing is required and the call is processed automatically to the pre-determined telephone number.

3.1.2.1(b) **ENHANCED CUSTOM CALLING FEATURES**

Caller ID (Caller Name and Number Delivery): Allows the called party to see the name (if available) and telephone number of the calling party.

Call Waiting ID: Allows a Customer who is engaged in a conversation and receives an incoming call hears a special call waiting tone and is provided a visual display of the calling party's name and or number. The feature combines and enhances Caller ID and Call Waiting.

Call Forwarding on Call Waiting Calls: Provides the customer the capability to forward unanswered waiting calls to a subscriber-designated number by using the combined functions of Call Waiting and Call Forward Do Not Answer. An incoming call to a busy line first receives standard waiting treatment in which an audible tone is heard by the called party and audible ringing is heard by the calling party. If the call is not answered after a period of time equal to the time-out value of CF Do Not Answer, the incoming call is given CF Do Not Answer treatment

Line Restoral Charge ^{+ ‡} (per line)	20.00	35.00	35.00	
Office-Only Install	20.00			

*Waive charge if Cox Long Distance is selected.

[^] Initial Connection Charges will be waived for direct and telemarketing sales. Line Connection charges for commercial service may be discounted by 25% or 50% based on term of contract and if bundled with other Cox Business services and may be waived in competitive situations or when Customer commits to a 36 month or longer term agreement. Initial and subsequent Residential Line Connection Charges may be discounted if Customer subscribes to additional services provided by Cox or a Cox-Affiliated Company, such as cable TV and/or high speed internet access. Other charges may apply for inside wire repair and/or additional jack installation.

^{*} Full or reduced Line Connection Charge may apply in addition to or in lieu of Self-Install Connection Charge if Cox Technician is dispatched to Customer's premise as a result of failed Self-Install attempt that is determined to be customer related.

[†] If service is temporarily interrupted for non-payment and payment is not received within 10 days following the interruption, the Company reserves the right to discontinue service. If service is discontinued and subsequently re-established, charges apply as if for a new installation of service.

[‡] Rate applies to restore service after Customer Initiated Service Suspension. (section 7.2)

3.1.6 Message Telecommunications Service (MTS)

1. General

IntraLATA toll service is furnished for telephone communication between telephones in different local calling areas within the LATA in accordance with the regulations and schedules of charges specified in this tariff.

2. Timing of Messages

- (a) Unless otherwise indicated, all calls are timed in sixty (60) second increments and are rounded up to the next whole minute.
- (b) For station to station calls, call timing begins when a connection is established between the calling and called stations.
- (c) For person to person calls, call timing begins when connection is established between the calling person and the particular person, station, or mobile unit specified, or an agreed upon alternate.
- (d) Call timing ends when the called station "hangs up," thereby releasing the network connection. If the called station hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network, or by the Company operator.
- (e) Calls originating in one time period as defined in 3.1.5.3 and terminating in another will be billed the rates in effect at the beginning of the billing increment.

Cox Business Minute Pack 800,000

This optional long distance call plan provides Cox Business Customers a block of 800,000 minutes of direct dialed intrastate and interstate long distance and toll free service. The block of 800,000 minutes is shared among a Business Customer's access lines. Any remaining minutes at the end of the billing period will not rollover to the next month. Toll minutes in excess of the 800,000-minute block will be assessed as detailed below. All minutes will be billed in six second increments and rounded up to the nearest six-second increment. If this Minute Pack is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth in this tariff, Cox may, at its option: (i) re-rate Customer's usage to the nearest qualifying plan or (ii) charge Customer the standard rates for service under this tariff up to the date of termination, whichever is greater.

Cox Business Unlimited Call Plan

A. Description:

Where facilities exist and operating conditions permit, the Cox Business Unlimited Call Plan offers Business Customers in Company's service area with unlimited intrastate and interstate direct-dialed toll calling subject to the conditions below.

B. Eligibility

Business Customers in Company's service area, who subscribe to the following services:

1. At least one but not more than ten flat-rated Business Line and all lines on the Customer's account must be provisioned with Cox Business Unlimited, (see Sections 3.1.2.2 (a), (b) & (c) of this tariff for applicable service activation and monthly recurring rates); and
2. Cox Long Distance for both the intra- and inter-LATA toll services.

C. Terms and Conditions:

1. The Customer must select Company as the carrier of choice for toll services for each Business access line subscribed to under this plan.
2. The Customer may subscribe up to a maximum of ten (10) Unlimited Calling lines for a one-year minimum commitment. All lines in a common hunt group must be provisioned with the unlimited package. The Unlimited Calling is only available to Customers who subscribe to ten (10) or fewer access lines.
3. The Cox Unlimited Package's Monthly Recurring Charge will be billed in advance
4. The unlimited intraLATA and interLATA toll minutes included in this package (1) shall apply exclusively to direct-dialed calls made from the line subject to this package, (2) have no cash value for refund purposes, (3) are not transferable or assignable, (4) shall not be applied to calls outside the United States, (5) shall not apply toward operator-assisted, collect calls, calls billed to a third party or credit cards, or calls to directory assistance, **and (6) shall only apply to calls that are two minutes or above in length.**

The Business Nickel Call Plan

This Business call plan provides Cox Business Customers a competitively priced alternative to the standard long distance plan. The call plan is available to new and existing customers who choose Cox Long Distance for both PIC and LPIC. The plan is a flat \$0.05 per-minute all day, every day on direct dialed intrastate calls with no monthly recurring charge and billed on six-second increments. Additionally, there is a complementary interstate call plan that includes state-to-state calls to all 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam and CNMI. Additionally, as an added benefit, the Customer will receive free LD minutes each month depending on the number of lines associated with the account pursuant to the table below.

Number of Lines	Free Minutes
1 through 5	250
6 through 10	500
11+	1,000

5. Toll Free Service

1. Service Description

Toll-Free Service is an inbound service originating on feature group facilities, which terminate on a Business Line. This service enables the Customer to receive toll-free calls at their place of business **and is available only in conjunction with Cox Local Exchange Service.**

(T)
(T)

A) The Company reserves the right to require an applicant for Toll-Free Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company may also require that the Customer submit a new traffic forecast quarterly after service is initiated.

B) The Company's Toll-Free Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effects upon it or any service rendered by the Company. The Company may terminate or refuse to furnish the Company's Toll-Free Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.

5. Toll Free Service

1. Service Description (cont'd)

- C) The Customer must obtain an adequate number of access lines for Company Toll-Free Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish Company Toll-Free Service to any Customer that fails to comply with these conditions.
- D) If the Customer requests assignment of a specific Toll-Free Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than ten (10) numbers reserved. Any reservation shall be for no more than fifteen (15) days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after the Company's Toll-Free Service has been in actual and substantial use for a consecutive sixty (60) day period.

5. Toll Free Service

1. Service Description (cont'd)

- E) Use of numbers: Each Company Toll-Free Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any toll-free telephone number associated with the Company's Toll-Free Service that has not been placed in actual and substantial use during the first sixty (60) day period after service activation may be recovered upon written notice to the Customer. Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved toll-free telephone numbers hereunder or Customers who subscribe to and use the Company's Toll-Free Service or their transferee or assigns, any ownership interest or proprietary right in any particular toll-free number; however, upon placing a number actually and substantially in use, as defined above, the Company's Toll-Free Service Customers do have a controlling interest in this toll-free number(s). The Company Toll-Free Service Customers may retain the use of their toll-free number assignments, even following changes in their toll-free carrier and/or Responsible Organization. (T)

Pursuant to 52.107 of the FCC rules:

As used in this section, hoarding is the acquisition by a toll free subscriber from a Responsible Organization of more toll free numbers than the toll free subscriber intends to use for the provision of toll free service. The definition of hoarding also includes number brokering, which is the selling of a toll free number by a private entity for a fee.

(1) Toll free subscribers shall not hoard toll free numbers.

(2) No person or entity shall acquire a toll free number for the purpose of selling the toll free number to another entity or to a person for a fee.

(3) Routing multiple toll free numbers to a single toll free subscriber will create a rebuttable presumption that the toll free subscriber is hoarding or brokering toll free numbers.

- F) If a Customer places an order for the Company to carry Customer's already existing toll-free number service, the Customer shall provide to Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to the Company's Toll-Free Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its toll-free number(s) to the Company's Resp. Org. If the Customer elects to retain a non-Company Resp. Org., the Customer must notify the Company of any changes in the Customer's Resp. Org. in writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or toll-free service carrier. The Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to Company.

G) Subject to execution of a Resp. Org. Service Agreement between the Company and the Customer, the Company Resp. Org. will perform the function of Resp. Org. for all Company Toll-Free Service orders unless the Customer requests another Resp. Org. The Company's Resp. Org. functions include 1) search for and reservation of toll-free numbers in the SMS/800; 2) creating and maintaining the toll-free number Customer record in the SMS/800; and 3) provision of a single point of contact for trouble reporting.

(1) Where the Company serves as the Resp. Org. for a Company Toll-Free Service Customer, the Company will, at the Customer's request, subscribe to Toll-Free Directory Listing for the toll-free number(s) assigned to the Customer. A charge for Toll-Free Directory Listings will apply as set forth in this Tariff. In the event that a Customer transfers its toll-free service to another Resp. Org., the Company shall cease to subscribe to Toll-Free Directory Listing Service on behalf of the Customer and the Customer is responsible for assuring that Toll-Free Directory Listing Service is maintained through the new Resp. Org. Customer is responsible for payment of any outstanding Toll-Free Directory Listing charges, including any unexpired portion of any minimum period applicable to such services, and the Company shall have no liability for any interruption or other delay, error, mistake, omission or other defect occurring in connection with the transfer of Toll-Free Directory Listing responsibility.

- H) It is the Customer's responsibility to provide answer supervision back to the Company point of connection even when the Company Toll-Free Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.
- I) In accordance with FCC regulations, ANI shall only be used for billing and collection, routing, screening, and completion of the originating subscriber's call or transaction or for service directly related to the originating subscriber's call or transaction.

The ANI shall not be reused or resold without first notifying the originating telephone subscriber and obtaining affirmative consent of the subscriber for reuse or resale.

Unless the originating subscriber has given consent for the reuse or resale, any information provided shall not be used for any purpose other than:

- performing the services or transactions that are subject of the originating subscriber's call;
- ensuring network performance security, and the effectiveness of call delivery;
- compiling, using and disclosing aggregate information; and

2. Toll Free Service Termination

Customers who terminate service prior to the end of the service term as selected by Customer will be liable for a cancellation charge which shall be calculated as follows: Cox shall rerate Customer's usage for services provided up to the date of termination by charging Customer the difference between the monthly rate for the service term selected by Customer and the rate for service applicable to the longest term plan for service the Customer could have satisfied prior to discontinuance and multiplying this difference by the number of minutes of service actually provided to Customer. All per-minute charges for each month shall be at the per-minute charge based on rate associated with Customer's highest MOU for the month. Cox bills in six-second increments and rounds up to the nearest six-second increment. If this Call Plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth in this tariff, Cox may, at its option: (i) re-rate Customer's usage as provided in this Section or (ii) charge Customer the standard rates for service under this tariff up to the date of termination, which ever is greater.

Example: Customer signs a three-year term agreement. At the end of the eleventh month, the Customer terminates the agreement and transfers the toll-free service to another carrier. All usage to-date would be re-rated from the three-year term rate to the month-to-month rate.

Example: Customer signs three-year term agreement. At the end of the thirteenth month, the Customer terminates the agreement and transfers the toll-free service to another carrier. All usage to-date would be re-rated from the three-year rate and volume to the one-year rate and volume.

3.2 Directory Assistance

A Customer may obtain Directory Assistance in determining telephone numbers within its local calling area by calling the Directory Assistance operator. Additionally, Cox will offer Call Completion for one number at no additional charge to the Customer.

3.2.1 Each call to Directory Assistance will be charged as follows:

Residential Per Call*	\$2.49
-----------------------	--------

Business Per Call	\$2.49	(I)
-------------------	---------------	-----

The Customer may request a maximum of two telephone numbers per call to Directory Assistance service.

3.2.2 A credit will be given for calls to Directory Assistance as follows:

- The Customer experiences poor transmission or is cut-off during the call; or
- The Customer is given an incorrect telephone number.

To obtain such a credit, the Customer must notify its Customer Service representative.

3.2.3 Charges for Directory Assistance (DA) are not applicable to calls placed from Customers whose physical, visual, mental or reading disabilities prevent them from using the telephone or the directory. The method of exempting those disabled Customers shall be via the completion of an exemption form supplied by the Company and the Company's acceptance of that form. The exemption for disabled Customers includes sent-paid calls from the Customers' local exchange service. Third number billing of DA calls to the disabled Customers' local exchange service are not exempt.

*Charges for the first 500 DA calls will be waived for certified Customers who cannot use the telephone directory due to a visual or physical impairment.

3.3 Operator Assistance

A Customer may obtain the assistance of a local operator to complete local exchange telephone calls in the following manner. In addition to the rates specified in Section 3.1, surcharges as specified in Section 3.3.1 will apply:

Third Number Billing: Provides the Customer with the capability to charge a local call to a third number which is different from the called or calling party. The party answering at the third number has the option to refuse acceptance of the charges in advance or when queried by the operator.

Collect Calls: Provides the Customer with the capability to charge a call to the called party. On the operator announcement of a collect call, the called party has the option to refuse acceptance of charges in advance or when queried by the operator.

Calling Cards: Provides the Customer with the capability to place a call using a calling card of an Interexchange Carrier with or without the assistance of an operator.

Person to Person: Calls completed with the assistance of an operator to a particular Station and person specified by the carrier. The call may be billed to the called party.

Station to Station: Calls complete with the assistance of an operator to a particular Station. The call may be billed to the called party.

General Assistance: The Customer has the option to request general information from the operator, such as dialing instructions, country or city codes, area code information and Customer Service 800/888 telephone numbers, but does not request the operator to complete the call.

3.4 Directory Listings

The Company shall provide for a single directory listing, termed the primary listing, in the telephone directory published by on or behalf of the incumbent local exchange carrier in the Customer's exchange area of the Station number which is designated as the Customer's main billing number. Directory listings of additional Customer Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for a monthly recurring charge per listing.

3.4.1 The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. Where more than one line is required to properly list the Customer, no additional charge is made.

3.4.2 Directory listings must be in the name of a person who lives at a residence and must be a legally authorized or adopted name. Listings may reflect full first/given name or initials of that name. For example, John Smith may be listed as John or J. Smith. (N)
(N)
(N)
(N)

3.4.3 The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, obscenities in the name, or any listing which in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto. (T)

3.4.4 To ensure that listings are placed in the appropriate section of the directory, each Residential listing must be designated "Residential" and each commercial listing must be designated "Business" or "Government". In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto. (T)

3.4 Directory Listings, cont'd.

3.4.5 In order for listings to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory publishing schedule. (T)

3.4.6 Directory listings are provided in connection with each Customer service as specified herein. (T)

1. **Primary Listing:** A primary listing contains the name of the Customer, or the name under which a business is regularly conducted, as well as the address and telephone number of the Customer. This listing is provided at no additional charge.
2. **Additional Listings:** In connection with business service, additional listings are available only in the names of Authorized Users of the Customer's service, as defined herein. Rates for additional listings are specified in Section 3.4.6.
3. **Nonpublished Listings:** Listings that are not printed in directories nor available from Directory Assistance.

A Nonpublished Telephone Service will be furnished, at the Customer's request providing for the omission or deletion of the Customer's telephone listing from the telephone directory and, in addition, the Customer's telephone listing will be omitted or deleted from the directory assistance records, subject to the provisions set forth in Section 2.1.4. Rates for Nonpublished Listings are as specified in Section 3.4.6.

3.5 Emergency Services (Enhanced 911)

Allows Customers to reach appropriate emergency services including police, fire and medical services. Enhanced 911 has the ability to selectively route an emergency call to the primary E911 provider so that it reaches the correct emergency service located closest to the caller. In addition, the Customer's address and telephone information will be provided to the primary E911 provider for display at the Public Service Answering Point (PSAP).

3.6 Vanity Telephone Numbers

At the request of the Customer, the Company may assign a telephone number with the last four digits selected by the Customer. The assignment is subject to availability of a particular number and subject to the terms and conditions set forth in Section 2.1.3.

The following charges will apply for Vanity Telephone Numbers:

	Non-Recurring (per number)	Monthly Recurring (per number)
Residential	\$0.00	\$0.00

3.7 Special Taxes, Fees and Charges

1. When any local agency, municipality or other political subdivision assesses the Company for any surcharge, fee, license or other tax, such fees, taxes and surcharges will be passed through to the exchange Customer receiving service within the boundaries of such local agency, municipality or other political subdivision accountable for such charges.

2. Dual Party Relay Surcharge

Enables deaf, hard-of-hearing or speech-impaired persons who use a Text Telephone (TT) or similar devices to communicate freely with the hearing population not using TT and visa versa. A Customer will be able to access the state provider to complete such calls.

Nebraska State law requires that a surcharge be collected on each telephone access line in Nebraska. The surcharge will be remitted to the Nebraska Public Service Commission to establish and administer a fund for the statewide dual relay system to be used for eligible communication impaired persons. (T)

The assessment of this surcharge will be collected on the first one-hundred telephone access lines per Customer and will appear as a line item on the Customer's bill.

The surcharge, as set by the Nebraska Public Service Commission, will be assessed per access line in compliance with the Commission's rules. (T)

3.8 Share the Happiness Referral Offer

1. Description

A Residential Customer (the "Referring Party") may be eligible to receive a credit for the Monthly Recurring Charge (MRC) associated with their primary line and custom calling features when they refer a potential new customer (the "Referred Party") that subscribes to, and is installed with, Cox Digital Telephone as outlined in the terms and conditions below. All fees, taxes, charges, and surcharges apply.

2 Terms and Conditions

1. The MRC is defined as the monthly recurring charges associated with the primary access line (one access line only) and the monthly recurring charges associated with any custom-calling feature associated with the primary access line, except for Voice Mail and Remote Call Forwarding. The offer specifically excludes all usage charges, all charges associated with intrastate, interstate, and international long distance usage charges and any monthly recurring charges in connection with optional long distance calling plans.
2. The Referred Party must reside within the Cox Digital Telephone serviceable area. Referred Parties, who have received Cox Digital Telephone service within the past 45 days of the date of the referral, are ineligible. Only one referral per new customer. This offer may not be combined with any other promotional offer.
3. To qualify for the credit, a Share the Happiness Coupon must be submitted within thirty days of the Referred Party's Cox Digital Telephone installation date. The coupon must be submitted: (1) to the Cox installer at install, (2) submitted online via: www.cox.com. The Share the Happiness coupon must include (i) the Referring Party's first and last name, home address, city, state and zip code, contact phone and email address, and (ii) the Referred Party's first and last name, home address, city, state and zip code, contact phone and email address. This offer is not valid if a Share the Happiness coupon is not submitted, is incomplete, or is otherwise deemed invalid by Cox.

SECTION 7 - Miscellaneous Service Offerings

7.16 Emergency Locator Service

1. General

At the request of the Customer and upon the approval of the Company and at those prices set forth in the chart below, the Company will offer to the Customer certain Automatic Location Identification ("ALI") and/or Private Switch/Automatic Location Identification ("PS/ALI") services as an enhancement to its other 911 local service offerings. PS/ALI service provides E911 service features for stations that operate behind private switches, e.g., PBXs. Specifically, the PS/ALI service provides an automatic display at the Public Safety Answering Point (hereafter "PSAP") of the caller's telephone number and the address/location of the telephone. A Customer's PBX must be capable of providing the telephone number to the 911 system to identify the specific extension originating a 911 call. The Company's PS/ALI service provides a PBX 911 manager for "public safety/address location point" database management and the Customer is required to update databases using a web-based interface.

All telephone numbers that a customer desires to be included in the Company's PS/ALI service must be owned by the Company. Telephone numbers that are provided by a service provider other than the Company are not eligible for inclusion in this service.

2. Eligibility Requirements

A Customer who desires to receive service shall satisfy the following obligations to Company:

- 1) Customer will complete a customer profile ordering form (i) designating a single point of contact for all operational issues, (ii) supplying the necessary telephone number range(s) and PSAP, if multiple locations apply. Customer and Company shall validate telephone number ranges provided through any LEC dial tone provider(s) other than Company.
- 2) Company will have up to thirty (30) business days to attempt to load the initial customer data after the receipt of acceptable data files from the customer. Should the initial load attempt fail due to the losing company's business practices, it shall be the customer's responsibility to negotiate with the losing company to release the numbers that are being transferred to Cox.
- 3) Company will attempt to load additional numbers submitted on subsequent Load Forms within seven (7) business days following the receipt of a valid TNs but full assurance of meeting a seven (7) day timeline is **not** guaranteed.

2. Eligibility Requirements (cont'd)

- 4) Customer is responsible for working with Company and any other LEC dial tone provider(s) to set up any required National Emergency Numbering Association identification codes (hereafter referred to as "NENA ID") for Customer's PS/ALI records.
- 5) Customer is responsible for obtaining authorization from any LEC dial tone provider other than Company to insert and modify ALI records for the specified telephone number ranges in any regional E911 databases using the separate NENA ID assigned for PS/ALI records.
- 6) Customer shall provide Company with a signed and properly authorized copy of a Letter of Agency (LOA) in favor of Company in the form requested by Company.
- 7) In addition to any other fees charged by Company, Customer is responsible for any costs of any tasks related to setting up data exchange and obtaining user IDs and passwords for regional E911 databases. Customer must obtain any approval needed for Company to submit PBX records on its behalf to regional E911- database provider(s), including any approval that may be required by any government agency.
- 8) In the event some of the automatic location identification records needed by Company to provision PS/ALI services are not "owned" by the Company, Customer shall obtain and provide to Company prior written consent from the E911 service provider to allow Company to use same without charge.
- 9) If Customer is porting to Company a block of telephone numbers from another telephone company, Customer is responsible for working with the transferee LEC to port the main billing telephone number and all associated telephone numbers via the NENA standard unlock and migrate function codes through normal Service Order Input ("SOI") processing.
- 10) If Customer discontinues dial tone services with Company or another provider, the use of PS/ALI services by Customer will be discontinued for the corresponding block of telephone numbers.

2. Eligibility Requirements (cont'd)

11) Customer must have a personal computer workstation with the following requirements in order to interface with Company and receive PS/ALI service from the Company and Customer shall meet these requirements at every point in time:

- Microsoft Windows 95, Windows 98, or Windows NT 4.0 Windows XP, Windows 7 and Vista (or most current version)
- Internet access
- Microsoft Internet Explorer, Version 5.01, Service pack 1 or higher
- Currently Apple/MAC browsers are not supported

12) Company shall bill Customer for PS/ALI services in its normal billing interval and Customer shall pay same as indicated on the invoice.

13) By means of a direct telephone conversation (no email or voice mail messages will be provided), a representative of Company will provide the Customer with a user ID, as password, and a secure key code token for Customer's use in meeting its responsibilities hereunder. Customer will provide Company with a spreadsheet containing the telephone numbers, names, and site-specific PBX information for initially loading the records into the PS/ALI database. A PS/ALI Initial Load File ("ILF") form will be provided to the Customer to provide Company with the required ILF fields and format information for the initial build of telephone number records into Company's system. Company will validate that the numbers submitted by the customer are owned by the Company but is not otherwise required to manipulate and/or change any of the data provided in the ILF on behalf of Customer and may rely upon the accuracy of same; instead, Customer is responsible for submitting the correct field and formatting information via the ILF form. The Customer may submit the first ILF data form to the Company without additional charge. Customer will incur additional charges for any subsequent ILFs required.

14) Company will attempt to correct only MSAG errors, that is, "701" errors (house number out of range in MSAG) and "709" errors (street not found in MSAG). MSAG related errors that Company is unable to correct will be forwarded to Customer for correction. All other error types detected either by validation against Company databases or against other host ALI databases, will also be returned to Customer for correction. This includes errors that occur during the Initial Load File build and errors occurring after the initial load. Error records will be returned 'as is' to Customer.

2. Eligibility Requirements (cont'd)

- 15)** Customer will migrate and update DID numbers and all other telephone numbers associated with this service through the PS/ALI Manager after the ILF. The web-based system permits Customer to maintain station level ALI identification records in the form of "move", "add," "change" or "delete" to pre-authorized Customer records identified by telephone number range on the PS/ALI Customer Profile Order Form.
- 16)** After validation and processing through the PS/ALI database system, Company will route updated telephone number records to the appropriate "E911 database" provider based upon the NPA/NXX on each record. Records processed by the Company will be transmitted to the appropriate E911 database provider(s) throughout the country.
- 17)** Telephone numbers that are transported outside of Company's defined operational jurisdictions, either on a temporary or permanent basis, may not be routed to the proper PSAP and customer will assume any and all risk associated with this condition.
- 18)** The PS/ALI Manager's web-based interface offers a range of online reports to facilitate PBX management, allowing data to be sorted by address and telephone number range, and Customer is expected to use same and to be totally responsible for the accuracy of any information provided.
- 19)** For day-to-day management processing matters, Customer should contact its designated Company data analyst. Company analysts provide routine support services Monday through Friday during normal business hours (8:00 a.m. – 5:00 p.m. Mountain Time), excluding Company-observed holidays.
- 20)** Company will provide training to Customer at a mutually agreed-upon date and time. This training will include training on the use of the web-based services. Company will provide one training class, for a maximum of two (2) hours, via a telephone conference call to a maximum of two (2) attendees. Company will provide a maximum of two (2) copies of training course materials to attendees of the training conference call described herein.

2. Eligibility Requirements (cont'd)

- 21)** If Customer decides to discontinue dial tone service with Company or any other LEC providing services to the Customer, then Customer shall immediately notify the assigned Company data analyst in writing that a designated telephone number range will discontinue dial tone services stating the identification of the LECs including Company associated with those numbers. Such notification must be received by Company forty five (45) days in advance. It is the Customer's responsibility to communicate with Company and any other affected LECs regarding the discontinuation and within twenty (20) days of providing the notice set forth above, Customer must either delete all records through the normal SOI update process or instruct Company to unlock all such records. After all records are deleted or unlocked, Company may deny Customer account access. After thirty (30) days, the account access will be denied regardless of option chosen.
- 22)** For Customer requests that are beyond the scope of the deliverables outlined in this tariff, Customer may submit a change request ("Change Request") form to Company and Company at its option may accept the requested change and/or propose additional charges to Customer for same.
- 23)** Any and all PS/ALI system problems that Customer experiences shall be immediately reported to Company without delay. Notwithstanding the foregoing, any Internet Explorer problems experienced by Customer while using PS/ALI should be reported to the browser manufacturer.
- 24)** As a condition to Company's obligation to initiate and continue PS/ALI services to Customer, Customer is obligated to deliver to Company and to continue in full force and effect the following:
- a. a completed order form as required by the Company,
 - b. its authorization for NENA IDs and permission for insertion into ALI databases,
 - c. identification of Customer's PS/ALI program manager,
 - d. a completed and accurate ILF form,
 - e. a signed authorized executed letter of agency as described above,
 - f. a designated point of contact,
 - g. evidence sufficient to Company that the Customer has obtained authorization from any and all LEC dial tone providers to insert and modify ALI records for the specified telephone number ranges,
 - h. and complete and accurate information about its PBX equipment sufficient to establish that the equipment has the capability to forward ANI information to the selective router in accordance with LEC and local requirements.

SECTION 7 - Miscellaneous Service Offerings

7.17 Telecommunications Service Priority (TSP) System

(N)

1. General TSP Description

Cox TSP provides priority Cox services to Federal Government Agencies and authorized users for provisioning and restoration of services within defined critical and emergency situations. The Cox TSP System is designed to meet the requirements of the Federal Communications Commission (FCC) to expedite provisioning and restoration of mission-critical telecommunications services outlined under the Federal TSP Program and National Communications System (NCSD 3-1). Additional sources of reference for include:

1. National Communications System (NCS) Manual 3-1-1
2. Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NS/EP) Service user Manual"
3. National Communications System (NCS) handbook 3-1-2
4. Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NS/EP) Service Vendor Handbook

Priority Installation and/or Restoration of NS/EP telecommunications services shall be provided in accordance with part 64.401, appendix A, of the Federal Communications Commission's (FCC's) Rules and Regulations.

2. Qualifying TSP Service Categories

Cox Customers must meet specific categories regarding essential or emergency services in order to apply for NS/EP services. NS/EP qualified categories include the following four "Essential" categories outlined in NCSC 3-1, Section 15 plus an "Emergency" category:

- Category A - National Security Leadership
- Category B - National Security Posture and U.S. Population Warning
- Category C - Public Health, Safety and Maintenance of Law and Order
- Category D - Public Welfare and Maintenance of National Economic Posture
- Category E - Emergency (applicable for provisioning requirements only)

3. Service Level Priorities

Cox Services may be assigned priority levels of "1" (Highest) through "5" (lowest) with additional emergency (E) assignment of priority level as outlined in NCSC 3-1, Section 15. The OPT is responsible for ensuring that TSP assignments are not concentrated at one priority level. For additional information refer to NCSC 3-1-1, Section 2.5, figure 2-3.

Cox may provide sub-priority level assignments for own internal use as provided under NCSC 3-1, Section 15. Conditions may arise that deem it necessary to preempt one or more Customer services with a lower or no restoration priority in order to install or restore NS/EP telecommunications service of a higher priority. The Company will make reasonable effort to notify the Customer of the action being taken if such preemptive action is necessary. Customers who have their service levels impacted from this situation may qualify for credit for such services in accordance with the provisions for credits as specified in the Cox Local Exchange Service tariff section 2.

SECTION 7 - Miscellaneous Service Offerings

7.17 Telecommunications Service Priority (TSP) System

(N)

4. Qualifying TSP Services

The scope of work for identifying specific TSP services is described as follows:

- A) **Priority Provisioning (Installation):**
The initial set-up and construction process for provisioning and supplying telecommunications services to a Customer, including all associated transmission, wiring and equipment, if provided by the Cox, at a time earlier than Cox standard order intervals. Cox standard order intervals are quoted on a case-by-case basis and are time/date sensitive.
- B) **Priority Restoration:**
The restoration of Cox services currently being contracted by a Cox Customer at a time earlier than Cox standard order intervals. Cox standard order intervals are quoted on a case-by-case basis and are time/date sensitive.
- C) **Priority Restoration Level Implementation (Assignment):**
Designated priority levels (1, 2, 3, 4, 5 and E) of service associated with the restoration of a particular NS/EP telecommunications service.
- D) **Priority Restoration Level Change:**
Changes in priority level to any pre-assigned priority service levels for a NS/EP telecommunications service. This includes any extension of an existing priority level assignment to an expanded NS/EP service.
- E) **Priority Restoration Administration and Maintenance:**
Administrative and maintenance necessary to correspond to NS/EP provided services.

5. Applicable Cox Service Profiles

Telecommunications services identified under this program support National Security or Emergency Preparedness (NS/EP) missions. The TSP System provides a guideline for Cox to provide priority restoration of services in case of an isolated incident or the result of large-scale or national disasters, emergencies, civil, or military crisis.

The Cox TSP System applies to Cox "on-net" Cox-owned switched or special access services. For facilities, where Cox does not provide the entire facility, Cox will issue the TSP Authorization code with the order to the carrier providing the non-Cox portion of the facility and Cox will pass these charges through to the Customer. The Cox TSP System does not include any resale or UNE/EEL type of facilities in which Cox may not control or provision all or part of the services provided. The Cox TSP System also applies only to Customers directly contracted with Cox. The TSP System applies only to NS/EP telecommunications services as outlined in NCSD 3-1, Section 7 "Scope of the NS/EP TSP System".

Cox will, within the limits of good management and availability, make available the necessary facilities to restore service in the event of conditions supporting TSP. Restoration of services may require the use of temporary facilities such as wireless or ground level cable or fiber runs and drops. Restoration may also require the temporary use of government-owned facilities.

5. Applicable Cox Service Profiles, cont'd.

All TSP services are identified by specific "service profiles". The service profile defines the level of support to the portion of the telecommunications service that Cox owns and/or operates. The service profile is composed of the following element groups:

- Element Group A - Customer premises equipment. This may include Cox owned and/or managed routers, network interface devices and network termination equipment.
- Element Group B - Customer premises wiring. This may be included under the Cox Commercial Service Assurance Plan and/or separately contracted Customer premise construction.
- Element Group C - Operations. This is the actual service such as local dial tone service, Internet access, data transport, etc. provided by Cox.
- Element Group D - Technical Control Facility/Fault Detection/Isolation. This may be included under specific services contracted through Cox. Many Cox services are monitored for fault or failure by either our NOC (Network Operations Center) or SOC (Systems Operations Center). This may also include additional local service and troubleshooting.
- Element Group E - Service Testing. This may include Cox troubleshooting, initial provisioning circuit testing and/or maintenance testing during restoration.
- Element Group F - First service/Route Diversity. This may include first, or primary, services as well as diversity of Cox services provided through multiple routes, either virtual or real, provided by dual-route-builds into physical locations, BGP virtual routes over routers, SONET dual routing, etc.
- Element Group G - Facility/Site Access. This may include Cox co-located sites where Customer owned and/or maintained equipment or facilities reside, emergency access points for mobile communications vehicles, etc.

6. Specific Customer Information and Records

For Customers who obtain TSP System service, they acknowledge and consent to the provision of certain Customer service record information and/or Customer Proprietary Network Information (CPNI) by the Company to the National Communications System (NCS) in order for the NCS to maintain and administer the overall TSP System. This Customer service record information will include all relevant TSP System Service information and the TSP Authorization.

SECTION 7 - Miscellaneous Service Offerings

7.17 Telecommunications Service Priority (TSP) System

(N)

7. Qualification Process

A potential TSP user must request a TSP assignment from the OPT (Office of Priority Telecommunications) located at the NCS (National Communications System). If the OPT approves a Cox Customer request, a TSP assignment will be forwarded back to the Customer in the form of a 12 digit TSP Authorization Code (NCSC 3-1-1, Section 2.4 for additional details). To obtain priority provision and/or restoration of a qualifying Cox service this code must be provided to Cox with customer request for TSP.

8. Rate Applications

The rates contained herein apply only to direct charges associated with the Cox TSP System. Rates for specific telecommunications services and products are covered under the current Cox Local Exchange tariff and may include recurring monthly charges, non-recurring charges, construction charges and mileage sensitive charges are outlined in the Cox tariff specific to services.

Rates for Priority Provisioning, Priority Restoration, are applied on a "per circuit" basis for special access services and on a "per line or trunk" basis for Switched Access Service. Priority Provisioning and Priority Restoration rates are applied as a one-time activation charge for each Cox TSP circuit, line and/or trunk service request. When an Access Service is ordered with both Priority Provisioning and Priority Restoration, the non-recurring charge for Priority Restoration applies for both the provisioning and the restoration.

The Administration and Maintenance charges are applied per line or trunk and per circuit for Special Access Service. Each loop or loop segment of a Special Access multi-point service will be treated as a separate circuit with charge applied on a per loop basis.

The Priority Level Change charge is applicable when the TSP System order activity is changing priority levels. It applies each time the level is changed to a higher or lower level or when moving to an "E" category.

For subsequent orders for additional lines and circuits, TSP System assignment may apply upon Customer request and review by Cox. When the TSP System is revoked, or discontinued, and the associated Service is continued in service, no charge applies for such discontinuance of Cox TSP.

When performing services under TSP where additional labor charges may apply, Cox will attempt to notify Customer of charges before the required additional labor is undertaken. The Customer, in obtaining a Priority Restoration, recognizes that quoting charges and obtaining permission to proceed with the restoration of certain Services may cause certain delays and, as a result, could jeopardize the intent of early restoration of services provided under this program.

9.1 Cox LD Solutions

Cox LD Solutions, the one-, two- or three-year term long distance call plan, provides an eligible Business Customer with a competitively priced long distance product. The call plan is available to new and existing customers that choose Cox Local and Long Distance, both PIC and LPIC. The plan covers the 48 contiguous states. Calls to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. All minutes-of-use charges will be assessed based on the cumulative minutes of interstate and intrastate usage, except for toll minutes to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands. Domestic calls terminating in the 50 states and the District of Columbia will be billed in 6-second increments and rounded up to the next highest increment. All calls terminating in Canada, Puerto Rico and US Virgin Islands will be billed in 6-second increments with a 30-second minimum.

If this plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth above, Cox may re-rate Customer's usage during the term of the plan to the commitment rate properly chargeable based on the term length actually achieved by Customer up to the termination date. If service is terminated within the first year of the plan, the default rate of \$.10/minute will be used to re-rate all usage charges up to the termination date.

Calls that originate and terminate in the State of Nebraska will be assessed the following per-minute rate based on cumulative MOU's and term selected:

Minutes-Of-Use	1 Year	2 Year	3 Year
0-10,000	\$0.075	\$0.0675	\$0.0638

Calls to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. The call plan is available to new and existing Customers that choose Cox for their Local, Long Distance (both PIC and LPIC) and high-speed internet service. All minutes-of-use (MOU) charges will be assessed based on the cumulative dedicated long distance minutes of interstate and intrastate usage, except for toll minutes to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

If the plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth in this tariff, Cox may re-rate Customer's usage during the term of the plan to the commitment rate properly chargeable based on the term length actually achieved by Customer up to the termination date. If service is terminated within the first year of the plan, the month-to-month rate of \$.10/minute will apply to re-rate all usage charges up to the termination date.

Calls that originate and terminate in Nebraska will be assessed the per-minute rates as detailed below. All minutes-of-use charges will be assessed based on the cumulative minutes of interstate (continental United States) and intrastate usage. Calls terminating in Nebraska are billed in 6-second increments with a 6-second minimum.

Cox LD Solutions III

Cox LD Solutions III is a one-, two- or three-year term long distance direct dialed call plan. The call plan is available to new and existing customers that choose Cox Local and Long Distance, both PIC and LPIC. The plan covers the 48 contiguous states. Calls to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands will be assessed at the standard rate of \$0.10 per-minute. All minutes-of-use charges will be assessed based on the cumulative minutes of interstate and intrastate usage, except for toll minutes to Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands. Domestic calls terminating in the 50 states and the District of Columbia will be billed in 6-second increments and rounded up to the next highest increment. All calls terminating in Canada, Puerto Rico and US Virgin Islands will be billed in 6-second increments with a 30-second minimum.

If the plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth above, Cox may re-rate Customer's usage during the term of the plan to the commitment rate properly chargeable based on the term length actually achieved by Customer up to the termination date. If service is terminated within the first year of the plan, the default rate of \$.10/minute will be used to re-rate all usage charges up to the termination date.

9.16 Lifeline Assistance

(M)

Lifeline Assistance Plan (Lifeline) assists low-income households/applicants by reducing their monthly costs for one telephone line per household at the principle place of residence. The applicant must satisfy certain income tests established by the appropriate state agency.

6.2.1 Eligibility Requirements

1. Applicant must participate in one of the following programs:
 - Medicaid;
 - Supplemental Nutrition Assistance Program (Food Stamps or SNAP);
 - Supplemental Security Income (SSI);
 - Federal Public Housing Assistance (Section 8), **or**
 -
 -
 -
 - **Veterans Pension & Survivors Pension benefit.**
2. In addition, applicants not participating in the programs listed above may still be eligible for Lifeline services if they are able to certify and furnish proof that their total gross annual income does not exceed 135% of the Federal Poverty Guidelines (FPG).
3. Applicant must request assistance by completing a Company provided form.
4. Proof of income, or proof of eligibility in any of the qualifying low income assistance programs listed above, should be provided to Cox at the time of application for service. The Lifeline discount will not be established until proof of eligibility has been received by Cox. If the Customer requests installation prior to Cox's receipt of such proof, the service requested will be provided, but without the Lifeline discount. Whenever eligibility documentation is provided subsequent to installation, the Lifeline discount will be provided on a going-forward basis.
5. The use or disclosure of information concerning Cox's Lifeline applicants and Customers is limited solely to purposes directly connected with the administration of the Lifeline Program and will be treated as highly confidential.
6. It is the Lifeline Customer's responsibility to notify Cox if the Customer ceases to be eligible for Lifeline service.

9.17.5. COX CONNECT CENTREX

1. GENERAL

Cox, d.b.a. Cox Business Services, offers centrex service to its commercial End Users. The offering provides Customers a choice among three feature packages; Basic Centrex, Attendant Centrex, and Call Center Centrex. Additionally, the offering allows Customers the flexibility to augment their feature packages through the use of A-la-Carte feature additions.

Cox Connect Centrex is an integrated business network consisting of station equipment (CPE) located at the Customer's premises and the Company's Nortel DMS-500 digital switch located in the central office. It is the DMS-500 that provides the enhanced capabilities that affords the Customer both flexibility and economy.

2. APPLICATION

Cox Centrex's flexible design offers services to all sizes of organizations from small businesses using only a few lines to the most complex system with up to 100,000 lines. Cox Centrex's flexibility also provides convenient installation; as new features are developed, they can be added to the existing switch without it being taken out of service.

This service can be used for all sizes of business:

- Multiple offices that want abbreviated dialing
- Customer Service Groups
- Call Center Operations
- Technical Support or Help Desks
- Offices that want direct dialing without going through an attendant
- Business that want PBX functionality without the capital outlay.

4.2 COX CONNECT CENTREX (cont'd)

Meridian Business Sets and single line sets are connected directly to the DMS-500. There are no connecting points at the Customer premises, every Centrex terminal is directly connected to the DMS-500.

3. CUSTOMER PROFILE

Cox Connect Centrex Service is well suited for virtually any commercial Customer, as product applications in the marketplace are very diverse.

- Current Cox Business Services Customer
- U.S. based operations
- Product applications such as those listed in the previous section
- Tailored call coverage area
- Have existing local service and want to port the number to Cox Business Services Customers who want PBX functionality without managing it.

9.17.5. COX CONNECT CENTREX (cont'd)

A. BASIC CENTREX PACKAGE

The Basic Centrex package is the core feature package in Cox's Centrex service offering. The basic feature package contains the most requested centrex features and allows full functionality of the telephone network.

Basic Centrex Features

Abbreviated Dialing	Caller ID
Audio Interlude	Direct Inward Dialing
Auto Dial	Direct Outward Dialing
Call Forwarding All Calls	Distinctive Ring
Call Forwarding Busy	Group Intercom
Call Forwarding Don't Answer	Last Number Redial
Call Hold	Make Set Busy
Call Transfer	Message Waiting
Call Park	Speed Calling
Call Waiting	Three-Way Calling

Abbreviated Dialing

Abbreviated dialing is a feature of Cox Centrex that allows each member in a customer group to dial another member in the same customer group without having to dial the 7 or 10 digit telephone number. For customers under 25 lines, this feature can be delivered with Group Intercom at no charge, or through NCOS setup at \$2 a month extra. For customers over 25 lines, this feature can be delivered through NCOS setup.

Audio Interlude (AUDIO)

Where facilities exist and operating conditions permit, this system feature provides the ability for a customer group to have music, announcement, ringing, or silence applied to a calling line while on hold or in a queue for certain Cox Centrex features. This applies to calls coming in on a trunk or from a line.

Auto Dial (AUD) =

Business Set Automatic Dial is a station feature that allows a Business Set station user to call a frequently dialed number by pressing the assigned AUD key. The user is permitted to program and change the number in automatic dial.

Call Forwarding All Calls (CFU)

This station feature allows a station user to re-route incoming calls to another telephone number. This number can be within the customer group, the local calling area, a foreign exchange, or the call can be forwarded to an attendant.

Call Forwarding Busy (CFB)

This station feature allows all incoming calls directed to a busy station to be forwarded to a designated station within a customer group or to an attendant.

Call Forwarding Don't Answer (CFD)

This station feature automatically routes an incoming call to another designated station or to the attendant (within the customer group), if a called station does not answer within a specified time.

Call Hold (CHD)

This station feature is an optional feature that is available to single line sets only. Business Set users use the built-in Hold key.

Call Park (PRK)

The Call Park station feature allows a station to park one call against its own DN. The parked call can be retrieved from any station within the customer group. Once a call is parked against a DN, the user is free to make or receive calls on that DN.

Call Pickup (CPU)

Call Pickup allows a station to answer incoming calls to another station within a pre-set pickup group by dialing a feature activation code or pressing a CPU key.

Call Transfer and Three Way Calling (CXR & 3WC)

The station features Call Transfer and Three Way Calling both allow a station to include a third party in a call and then optionally transfer the call to the third party; the party also has the ability to talk privately with the destination before transferring the call, this capability is called Consultation Hold.

Call Waiting (CWT)

Call Waiting allows a station user, already talking on the phone, to be informed by a tone when another call is waiting to reach the station. Normally, the incoming caller hears audible ringing while the called station user hears the call waiting tone. A second burst of call waiting tone is applied after 10 seconds.

Caller ID⁼

Caller ID is really the Calling Name Display feature associated with a Business Set. This station feature allows name to be displayed for incoming or outgoing calls on a Business Set with display. Parties originating calls are able to see the name of the party they have dialed. Parties receiving calls are able to see the name of the party who is calling.

A. BASIC CENTREX PACKAGE (cont'd)

Direct Inward Dialing (DID)

This allows for each user of Cox Centrex to have their own individual phone number so that each user can accept calls directly from outside the customer group without having to go through an attendant.

Direct Outward Dialing (DOD)

This allows for each user of Cox Centrex to access the PSTN network without an attendant. The user usually dials 9 then the phone number as usual. The actual number that the user dials is programmable and can be any number between 1-9.

Distinctive Ringing (DRING)

Distinctive Ringing is a *system feature* that gives a Cox Centrex subscriber the ability to determine the origination of a call by the cadence or variation of the ringing on the terminating end.

Group Intercom (GIC)

This feature allows a station abbreviated dialing to other station members within the same GIC group. The number of members in the GIC group will determine the dialing scheme. For example, a group of 10 members will use #0 - #9 and a group of 100 members will use #00 - #99.

Last Number Redial (LNR) (LNRA)⁼

Last Number Redial (LNR) allows a station user to redial the last called number by pressing one or two keys rather than dialing the entire number again. Once LNR is assigned to a set, activation is achieved by pressing the pound key (#). On a Business Set, LNR is assigned to each DN key that wants to activate the feature. The feature Last Number Redial from Set (LNRA)⁼ allows Last Number Redial to be assigned to a set. It allows a user to access any free DN on the set and, by activating the feature, have the last number dialed from the set automatically redialed. LNRA must be assigned to Key 1 of the Business Set.

Make Set Busy (MSB)

This station feature allows the user to make their station lines busy to incoming calls. When the Make Set Busy option is in effect, the station continues to have the option of making outgoing calls and activating other features.

Message Waiting (MWT)

The Business Set indicator can be a solid LCD indicator beside the MWT keys or the red lamp on the M5208, M5216, or M5316 Meridian Business Sets.

Speed Calling (SCS) (SCL)

Speed Call Short List allows a user to store up to 10 numbers so that they can be dialed automatically by using single digit codes (0 to 9). Speed Call Long List allows a user to store up to 30, 50, or 70 numbers so that they can be dialed automatically by using single and double digit codes (0 to 9 and 10 to 70).

B. ATTENDANT CENTREX PACKAGE

The Attendant Centrex package provides the tools necessary for receptionists, secretaries, executive assistants, or small call center attendants to effectively manage multiple incoming lines to a single attendant station. The Attendant Centrex package includes all the features of the Basic Centrex Package plus the additional features listed below.

Busy Lamp Field/Direct Station Selection	Key Short Hunt
Directed Call Park	Multiple Appearance DN
Executive Busy Override	Series Completion
Intercom	Station Camp-On

The additional features that are included in Attendant Centrex are described in Section B, following.

Busy Lamp Field/Direct Station Selection (BLF) =

The station feature provides two capabilities for Meridian Business Sets (MBS). Busy Lamp Field allows MBS users to monitor station status of a Directory Number (DN) or set through the use of MBS lamp states.

Direct Station Selection provides direct dialing to a monitored DN or set by means of the BLF key.

Directed Call Park (DCPK)

The Directed Call Park station feature has the same basic concept of the Call Park feature except that it allows the station to park a call against any valid centrex station directory appearance in the system, from where it may later be retrieved from any station.

Executive Busy Override (EBO)

The Executive Busy Override station feature allows a station to gain access to a busy station by flashing the switchhook during busy tone and dialing a feature activation code on a Single Line Set, or pressing a key on the Business Set.

B. ATTENDANT CENTREX PACKAGE (cont'd)

Intercom (ICM) =

The Intercom station feature allows a Business Set user to directly call a pre-designated Business Set by pressing the ICM feature key.

Key Short Hunt (KSH) †

The station feature Business Set Key Short Hunt allows incoming calls to hunt up through a set of DN appearances on a Business Set in search of an idle DN upon which to terminate.

Multiple Appearance Directory Numbers (MADN)

A directory number (DN) that is assigned to more than one Business Set or Single Line Set is called a Multiple Appearance Directory Number or MADN. The telephones that are assigned this DN are a MADN group.

Series Completion (SCMP)

Series Completion is a line option station feature that redirects calls from a busy DN to another designated DN in the same office.

Single Line Queuing (SLQ)

This station feature provides a Centrex set the ability to have calls wait in queue.

Station Camp-On (MBSCAMP) †

This station feature enhances the call transfer capability of the Meridian Business Set (MBS) by allowing an MBS to transfer the call to a busy station. If the busy station does not answer the call within a certain time period, the call is recalled to the originating station. This capability is known as "camp-on".

C. CALL CENTER CENTREX PACKAGE

Call Center Centrex package provides business call center features or operator banks. ***Along with the features of Basic Centrex and most of the features of Attendant Centrex*** (excludes Executive Busy Override (EBO) and Intercom (ICM)), this package has additional features that make call center employee's jobs easier.

The additional features in Call Center Centrex are described below.

Malicious Call Hold (MCH)=

The Malicious Call Hold station feature allows a Business Set subscriber to hold a malicious call connection within the switching unit, enabling the call to be traced back to the originating party.

Multiline Hunting (MLH)

With this enhancement, when a DN in the multi-line hunt group is dialed, hunting starts at that DN and continues according to the hunt characteristics of that particular group.

Uniform Call Distribution (UCD)

The Uniform Call Distribution (UCD) feature allows for an even distribution of incoming calls to a DN answered by a group of Cox Centrex stations. This group of stations is called a UCD group.

Account Codes

This feature allows a user to enter a billing number into an SMDR for charge-back purposes. This Account Code (ACCT) may be from 2 to 14 digits in length. The length is the same for all stations in a customer group.

The account code feature permits:

- A station user to enter a cost accounting or client billing number into an SMDR record.
- A station user to be prompted for an Account Code because of the called number and the station's attributes
- A station user to be prompted by the DMS-500 for an Account Code because of the Authorization Code of the called number
- A station user to enter a cost accounting or client billing number when an incoming call is answered.

Authorization Codes

An authorization code (AUTH) is a specific set of digits assigned to and used by a station user. By assigning each employee an authorization code, the business can track who makes each call, particularly toll calls. The authorization code can be either voluntary or required to complete the call. An authorization code can range in length from 2 to 12 digits, with the length fixed for the customer group. These codes are recorded on the customer's SMDR report so they can be tracked.

Entering an Authorization Code:

- Identifies an authorized user in the Centrex network
- Records an Authorization Code in the MSDR for billing and analysis purposes
- Assigns a Network Class of Service (NCOS) designation to a person rather than to a station or incoming trunk group.

Automatic Call Distribution (ACD)

DMS Meridian Automatic Call Distribution is a system feature that enables operating companies to offer customers complete ACD service. ACD efficiently handles large volumes of incoming calls by distributing them equally among a group of answering positions. This feature will be priced on an individual case basis and therefore is not included in the a la carte pricing.

Automatic Line (AUL)

Automatic Line (AUL) provides an automatic connection between a calling station that goes off-hook and a predetermined location. The calling station does not receive dial tone. The automatic connection is made to a stored number consisting of 1 to 15 digits.

Call Center Management Information System (CCMIS)

CCMIS is designed for customers whose call-center operations are served by a single DMS-500 or Meridian ACD server. CCMIS software provides agent and group performance-monitor screens, historical archiving and reports, load-management capabilities, and profile maintenance. This feature will be priced on an individual case basis and therefore is not included in the a la carte pricing.

Call Forward Remote Access (CFRA)

This allows a station to activate or deactivate CFU, CFI, or CFF from a line other than its own. The feature CFU, CFI, or CFF must already exist on the line being activated or deactivated; CFRA alone does not provide these features.

Direct Inward System Access (DISA)

Direct System Inward Access (DISA) is a *system feature* that enables selected outside callers the capability to dial from the switched network directly into the DMS-500, and gain access to the Centrex facilities without attendant assistance.

Callers dial a 7 or 10 digit software directory number or an inwats DISA number to access their Centrex. Automatic answer is provided to callers prompting either for an authorization code or presenting dial tone. Callers can then access Centrex facilities depending upon NCOS restrictions set against users' authorization codes or against their DISA numbers.

With the DISA feature, the customer should also use the SMDR and Authorization Codes features. The DISA feature is accessible from Digitone (DTMF) sets only.

Directory Number Hunt (DNH)

There are two hunting options:

- **Sequential** – Each line in the Directory number Hunt (DNH) group has its own unique DN. The hunt group can be accessed by dialing the main number, Pilot DN, or by dialing the DN of one of the hunt group members. Hunting is sequential starting as the number dialed and ending at the last number in the hunt group.
- **Circular** – If option CIR (circular hunting) is assigned to the DNH group, all lines in the hunt group will be hunted regardless of the start point of hunting.

Executive Message Waiting (EMW) =

The Executive Message Waiting (EMW) feature allows users to receive message-waiting indication and see display information showing whom has left the Call Request message.

Message List Editing (MLE) is not a line option, but is provided as part of EMW. It allows users with display MBS sets to review and edit any or all of the queued messages.

Station Message Detail Recording (SMDR)

A major part of battling long-distance abuse is being aware of the volume and types of calls being placed from Centrex stations. Employees who know that records of toll calls will be made available to management are likely to be more careful in using long-distance facilities. SMDR is the call detail recording system within the DMS-500 intended to record call information for the Centrex end-user.

Station Message Detail Recording (SMDR) (CONT'D)

SMDR is provided directly to the end user, with no processing or sorting function performed by Cox Business Services. Our Centrex management software, C3C from Strata Group, records and sends the SMDR records to each our customers automatically based on their preferred schedule. Making the process simply and easy so that our customers do not have to put with the hassle of keeping up with it.

A variety of call details are recorded in SMDR, such as calling party, called digits, originating, and terminating types. The SMDR formats are unique to Meridian Digital Centrex and are not the same or in any way related to the call record formats used for creating AMA records or CDR records.

Data recorded on a per-call basis includes:

- Customer group identification
- Originating Party identification
- Terminating Party identification
- Date and start time of the call
- Call duration
- Digits dialed
- Expensive route warning tone identification
- Authorization code
- Account code
- Feature code identification, when applicable

The ultimate objective for the end user SMDR is to gain information about the use of the end customer's telecommunications facilities. This information may be used to allocate costs within the end user organization, to monitor usage (and possible abuse) of the system by the station users, or to plan ongoing telecommunications requirements.

Ring Again (RAG)

This feature allows a station user encountering a busy DN to be notified when the busy station becomes idle, and the system automatically re-dials that same number.

5. REGULATIONS

- A.** Cox Centrex is furnished subject to the availability of network facilities and features from central office switching equipment located in the Company's central office. The service allows for normal station activity including incidental additions and deletions.
- B.** Each system established must consist of a minimum of five (5) main station lines. Main station lines connect the Customer's Premises Equipment (CPE) and the Company's central office switching equipment.
- C.** Directory listings will be provided in accordance with the regulations set forth in the Directory Listing section of this tariff.
- D.** Cox Centrex lines will be equipped with the standard features as specified in the Basic Centrex Package, Section 4.A., above. Current Customers of FITS I & II Centrex packages will become obsolete effective January 10, 2001. Obsolete systems may add stations and new locations with FITS feature packages until the term of the Customer's contract has expired. At such time, the Customer must convert the FITS Centrex package to the minimum centrex service offering, the Basic Centrex Package or discontinue the Company's service.
- E.** Temporary suspension of service is not applicable with this service.
- F.** When multiple features are activated on the same line, certain features may take precedence over others. System limitations will be disclosed to the customer.
- G.** Rerouting of calls that cannot be completed to the number originally dialed will be offered a standard intercept message (Number Referral Service). The standard central office recorded announcement equipment will intercept incoming calls to unassigned station numbers. The announcement provided states that the number called is not a working number and advises the caller of the main directory number for the centrex group.

5. REGULATIONS (cont'd)

- I.** Centrex rates and charges apply for a fixed period of time from 12 months to 60 months (service period plan) and are guaranteed against Company initiated change for the duration of the plan. ICB pricing arrangements may apply for centrex service periods greater than 60 months or for centrex stations in quantities greater than 24.

Upon the expiration of the original service period plan a Customer must select a new service period plan or the rates applicable will be those offered under the 12 month service period plan.

- J.** Provisioning of the Customer Premises Equipment (CPE) and software for use with Automatic Call Distribution (ACD) is the responsibility of the Customer. The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of ACD service render any facilities provided by the Customer obsolete, or requires modification of such equipment.

- K.** Calling Name and/or Number Service Interaction.
The calling name and/or number will not be displayed if the called party is off-hook. The called party must be on-hook to receive the caller data. If a Customer with Call Waiting and Caller ID, and is on an existing call, the second incoming call will not be displayed. The second incoming call will receive a call waiting tone.

- L.** Termination charges will apply for centrex service if discontinued or transferred to another address before the expiration of the initial contract period. Additionally, termination charges will apply when a centrex system is reduced to the extent that the station capacity (lines) falls into the next lower range of the contract schedule.

9.17.6. ISDN-PRI SERVICE

GENERAL

ISDN-PRI Service is an optional form of local exchange access based on the Primary Rate Interface (PRI) arrangement of the Integrated Services Digital Network (ISDN). ISDN-PRI Service is a high-capacity access path for communications providing voice or data transmission over the public network.

1. Explanation of Terms

Circuit Switching

Circuit Switching is a switching technique in which an entire circuit or, in a digital switch equipped for ISDN, a specific selection of time slots, is dedicated to a given call.

ISDN Primary Rate Interface (PRI)

ISDN PRI is an alternative for individual local exchange access loop services such as Direct Inward Dialing (DID) and business trunks. It can also be used as loop transport for circuit-switched data applications. ISDN PRI is provisioned on the 1.544 megabit per second (mbps) bandwidth and uses the Integrated Services Digital Network (SDN) architecture to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport. In addition, ISDN-PRI provides the customer with the service capabilities and features described in the following.

9.17.6. ISDN-PRI SERVICE

1. Explanation of Terms, cont,d

Integrated Services Digital Network

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data and image services. These functions are provided via channelized transport facilities over a limited number of standard user-network interfaces. The ISDN architecture consists of digital switching systems which connect Primary Rate Interface lines to their servicing central office.

Network Interfaces

ISDN Primary Rate Interface is comprised of a limited set of standard user-network interfaces. The PRI customer premises equipment (CPE) located at the customer premises must be compatible with the network interface.

Optional Service Features Package

The Optional Service Features Package incorporates the optional features Calling Line Identification and Call-by-Call Service Selection.

Primary Rate Access Facility

The Primary Rate Access Facility provides a high-capacity access path at a transmission speed of 1.544 megabits per second (mbps) for communications between the customer's premises and the central office. Each Primary rate Access Facility supports one ISDN-PRI Interface Arrangement.

9.17.6. ISDN-PRI SERVICE

1. Explanation of Terms, cont,d

Primary Rate Interface (PRI) Arrangement

ISDN PRI Arrangement is a customer premises to central office service providing ISDN capabilities. The PRI arrangement consists of 23 "B" channels and one "D" channel or 24 "B" channels, which are defined as follows:

B Channel

The B channel is a 64 kilobit per second (kbps) channel used for information transfer between users. The B channel may be used in conjunction with circuit-switched service.

D Channel

The D channel is a 64 kilobit per second (kbps) channel that carries signaling and control for the B channels.

PRI Trunk Group

A PRI Trunk Group is a group of channels which are designated as one of the following:

Incoming Exchange Trunk Group
Outgoing Exchange Trunk Group
Two-Way Exchange Trunk Group

9.17.6. ISDN-PRI SERVICE

1. Explanation of Terms, cont,d

Simulated Facility Group

A Simulated Facility Group is a software defined register used to limit the number of simultaneous calls with specific attributes.

2. Customers subscribing to ISDN-PRI must comply with ISDN Primary Rate Interface specifications as designated by the Company.

2. Service Capabilities

ISDN-PRI provides the capability to:

- a. Transport customer information in the form of circuit-switched voice or data up to 64 kbps over any B channel.
- b. Where available, one D channel can control up to 20 PRI Interface Arrangements depending on facility capabilities. In such cases, a single D channel in one PRI Interface Arrangement handles all the signaling and control requirements of multiple PRI Interface Arrangements in a specific grouping allowing supplemental PRI Interface Arrangements to consist of 24 B channels.
- c. Allow B channels to be designated for specific services, such as Incoming Exchange Trunks, Outgoing Exchange Trunks and Two-Way Exchange Trunks, or optionally configure channels to access Incoming and Outgoing Exchange Trunks on a per call basis. Two-way Exchange Trunks may not be accessed on a Call-by-Call basis.
- d. Allow the user to have access to the directory number of the calling party.

9.17.6. ISDN-PRI SERVICE

3. Conditions

Customers subscribing to ISDN-PRI must comply with ISDN Primary Rate Interface specifications as designed by the Company.

- a. Feature availability and service capabilities are dependent on the facilities and digital technology providing the service.
- b. ISDN compatible terminal equipment is a requirement for operation. It is the customer's responsibility to power and obtain such equipment.
- c. ISDN-PRI service does not preclude the customer from originating or receiving circuit-switched voice calls from inside or outside either his/her serving central office or his/her Local Exchange Area. Where facilities are available, the customer will be able to originate and receive circuit-switched data calls outside of his/her serving central office.
- c. All PRI Interface Arrangement configurations must have at least one 23B+D Interface Arrangement for signaling and control functions. A 23B + Back-up D Interface Arrangement is required whenever the ISDN-PRI Interface Arrangements ordered and in-service would otherwise cause more than 47 B-channels to be controlled by a single D channel.

b. Call-by-Call Service Selection

As an option to the Dedicated B Channel Configuration, B channels may be configured to access multiple services on a per call basis. The customer premises equipment signals the local central office as to what type of service to access for each call.

c. Calling Line Identification

Allows the user to have access to the directory number of the calling party.

- a. The PBX Trunk dial tone is included in the ISDN-PRI Service rates and charges.
- b. The PBX Trunk Flat rate Monthly Usage Option, measured rate charges and message rate charges specified in the Local Exchange Services tariff apply, as appropriate, to each PBX trunk provisioned on the ISDN-PRI Service using the circuit-switched voice arrangement.
- c. Existing tariff rates, charges and regulations for DID service apply, where required. This includes DID numbers and trunk connection charges. Tariffed DID trunk connection charges apply for each DID trunk provisioned on the ISDN-PRI Interface Arrangement.
- d. Individual Additional Telephone Numbers may be ordered from this tariff without incurring DID trunk connection charges.
- e. Trunk hunting is included in the ISDN-PRI Service rates and charges.

Cox Business Solutions Calling Plan

The Cox Business Solutions Calling Plan (the "Plan") enables Business Customers who subscribe to Cox Local Service to receive reduced rates on their domestic long distance and toll free service based on the monthly call volume and the term commitment of the plan selected. No minimum usage obligations are associated with the Plan. The Customer must select Cox as their PIC and LPIC.

The Plan is available in one-, two-, three-, four-, or five-year term commitments. The term of the selected commitment will commence on the first day of the next complete billing month following the execution of the Customer Service Agreement that references this Plan.

The Plan is shared among a Business Customer's access lines that are presubscribed to Cox LD. The Plan is billed in 6-second increments and rounds up to the next highest 6-second increment for partial increments.

If the Customer terminates their Plan prior to the expiration of the selected term, or the Customer fails to meet all of the conditions under this Plan, Cox may, at its option, (i) re-rate the Customer's usage to the nearest qualifying term plan; or (ii) if terminated in the first year, re-rate the Customer's usage at the Standard Service Plan rate of \$0.10 per minute.

The Plan is an intrastate service and does not apply to the following calls, services or applications and cannot be used in conjunction with: Collect Calls; Calling Card; Calls to 555, 700, 900, 976 Services; Third Number Billed; Directory Assistance and Directory Assistance Call Completion; Repeat Call; Return Calls (per activation); Person-to-Person Calls; Intercept Call Completion; Operator Handled Calls; Three-Way Calling (per activation); Call Centers; Automatic Dialing Equipment.

Cox Business Enterprise Calling Plan

The Cox Business Enterprise Calling Plan (the "Plan") enables Business Customers to receive reduced rates on their domestic long distance and toll free service based on monthly call volume and the term commitment of the plan selected. No minimum usage obligations are associated with the Plan. The Plan is available to Cox Business Customers who (1) subscribe to Cox Local Service; (2) select Cox as their PIC and LPIC; and (3) subscribe to one of the following additional Cox Business Services:

Cox Business Internet Service	Cox Private Line Service
Cox Metro Ethernet Service	Cox Business Video Service

The Plan is available in one-, two-, three-, four-, or five-year term commitments. The term of the selected commitment will commence on the first day of the next complete billing month following the execution of the Customer Service Agreement that references this Plan.

The Minutes-of-Use ("MOUs") are cumulative across a Business Customer's access lines that are subscribed to the Plan. The Plan is billed in 6-second increments and rounds up to the next highest 6-second increment for partial increments.

If the Customer terminates their Plan prior to the expiration of the selected term, or the Customer fails to meet all of the conditions under this Plan, Cox may, at its option, (i) re-rate the Customer's usage to the nearest qualifying term plan; or (ii) if terminated in the first year, re-rate the Customer's usage at the Standard Service Plan rate of \$0.10 per minute.

The Plan is an intrastate service and does not apply to the following calls, services or applications and cannot be used in conjunction with: Collect Calls; Calling Card; Calls to 555, 700, 900, 976 Services; Third Number Billed; Directory Assistance and Directory Assistance Call Completion; Repeat Call; Return Calls (per activation); Person-to-Person Calls; Intercept Call Completion; Operator Handled Calls; Three-Way Calling (per activation); Call Centers; Automatic Dialing Equipment.

6. Dedicated Long Distance Service

1. General

Dedicated outbound long distance service permits Business Customers, with substantial outbound call volumes, to complete calls to diverse service areas. Dedicated outbound service is distinguished from other services by the existence of a dedicated, special access connection from the Customer's premises to the Company's Point of Presence (POP). The dedicated facility would at a minimum be an Integrated DS-1 that provides a digital connection to the Customer. The Rates and Charges as detailed in Section 3, herein, are provided for On-Net facilities only. Off-Net facility pricing will be provided on a case-by-case basis.

2. Terms and Conditions

Minimum Service Period:

The minimum service period for Dedicated LD service is one year except where special construction is requested and in which case the minimum period may be longer. Special construction agreements require minimum commitment periods and are defined via contractual agreements.

Minimum Facility Requirements:

The Dedicated LD minutes will be carried on an Integrated DS-1 facility. Integrated DS-1 facility allows a Customer to access multiple Company Services on the same facility. These facility arrangements are normally at minimum one-year commitments and are billed in advance of Service and reflect the rates in effect as of the date of the invoice. The non-recurring and monthly recurring charges for the dedicated access facility are in addition to the usage rates detailed below for the dedicated LD product.

Facility Ordering:

In order to prevent interference or impairment of this service and any other service provided on the facility, the Customer must order an adequate number of access paths to handle the expected demand. The Customer should consider the following items when ordering the facility: (1) total call volume, (2) average call duration, (3) time-of-day sensitivity, and (4) busy hour.

Early Termination Charges:

If service is disconnected prior to the expiration of the term, early termination charges will apply for both the dedicated facility and dedicated LD usage.

a. Early Termination of the dedicated facility:

Customers who terminate service prior to the end of the service term as selected will be liable for the cancellation charge associated with all costs, fees and expenses incurred in connection with the dedicated facility and shall be calculated as follows:

1. all charges waived by the Company to establish the dedicated facility to Customer, plus
2. any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by Company on behalf of Customer, plus
3. all Monthly Recurring Charges associated with the dedicated facility for the unexpired balance of the current term.

b. Early Termination of usage charges:

Customers who terminate service prior to the end of the service term as selected by Customer will be liable for a cancellation charge which shall be calculated as follows: Cox shall re-rate Customer's usage for services provided up to the date of termination by charging Customer the difference between the monthly rate for the service term selected by Customer and the rate for service applicable to the longest term plan for service the Customer could have satisfied prior to discontinuance and multiplying this difference by the number of minutes of service actually provided to Customer. All per-minute charges for each month shall be at the per-minute charge based on rate associated with Customer's highest MOU for the month. Cox bills in six-second increments and rounds up to the nearest six-second increment. If this Call Plan is terminated prior to the expiration of the selected term, or Customer fails to meet all of the conditions set forth in this tariff, Cox will re-rate Customer's usage as provided in this Section.

Charges for Dialed Number Identification Service (DNIS)

DNIS permits dedicated Customers with multiple toll-free numbers that terminate on the same facilities the ability to determine which toll-free number the caller dialed when receiving toll-free calls. Identification is achieved through out-pulsed digits from the Company network to the Customer's facilities. Customers will furnish the Company with the digits desired for each toll-free number. The Change Charge will apply to any reconfiguration of out-pulsed digits, to the cancellation of this feature, or to the cancellation of the toll-free service number with which the feature has been associated.

Non-Recurring Charge:	\$35.00 per toll free number
Monthly Recurring Charge:	\$ 0.00 per toll free number
Change Charge:	\$15.00 per change

Charge for Real Time ANI Delivery

This feature enables the Customer to have calls to a Company toll-free service number forwarded to their location with the callers ANI (ten digit billing telephone number) as part of the call setup. Customers must have their own equipment for reading ANI digits passed on from the Company network. Full 10-digit ANI is provided whenever passed on from the originating Local Exchange Carrier. ANI is sent via in-band signaling.

Non-Recurring Charge:	\$35.00 per toll free number
Monthly Recurring Charge:	\$ 0.00 per toll free number
Change Charge:	\$15.00 per change

9.18. Cox OneDialsm Service^A

(M)

9.18.1 General

Where operating conditions permit, Cox OneDialsm Service can be provided to Cox Telephone Customers and non-telephone customers. It is a switch feature, which allows for an assigned telephone number to ring up to four other telephone numbers simultaneously.

The service is designed for Cox Local Exchange Customers (Line-Based) or customers who are not subscribers of Cox's local exchange service but the billing address is in a Cox telephony serviceable area (Virtual Customers). The Virtual Customers will be assigned a number that resides in the Cox switch. The main number is referred to as the Pilot Number (PN). When the PN number is dialed, the switch feature simultaneously rings the other associated numbers, or Member Numbers (MN), with the PN, which allows the answering number to receive the call. The service is inbound only.

Cox OneDialsm Service does not require any special Customer Premises Equipment (CPE). The service is provided where facilities exist and operating conditions permit. Not all calling features are compatible with this service.
