LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions

Certain terms used generally throughout this tariff are defined below.

Account Codes: Allows a User to allocate local calls to a 4-digit, non-verified account code.

Advance Payment: Payment of all or part of a construction charge required before the start of service.

Authorized User: A person, firm, corporation or other entity that either is authorized by the Customer to use local exchange telephone service or is placed in a position by the Customer, either through acts or omissions, to use local exchange telephone service.

Business Customer: A Customer receiving local exchange Business Service as defined herein.

Business Telephone Service: Telephone service provided to:

- A. a business location, or
- B. a residential location, which is listed in the business section of the local telephone book, or
- C. a residential location advertised or used as a place of business.

Cable Service: This service is defined, at a minimum, as the basic service tier (BST). BST includes the local broadcast stations and any public, educational, and government programming required by the franchise agreement.

Call Forward Busy: Automatically routes incoming calls to a designated answering point when the called line is busy.

Call Forward No Answer: Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forward Variable: Automatically routes incoming calls to a designated answering point, regardless of whether the user's Station is idle or busy.

Call Hold: Allows the User to hold one call for any length of time provided that neither party goes On Hook.

Call Park: Allows a User to "park a call against their directory number within the business group and "unpark" the call from any other directory number. A business group consists of a series of Customer-defined telephone numbers.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Call Pickup: Allows a User to answer incoming calls to another Station line within a defined call pickup group. Call Pickup is provided as either Group Call Pickup, where predesignated groups can pickup each other's calls by activating an access code or a feature key, or Directed Call Pickup, where any call can be retrieved by dialing a different access code followed by the extension number.

Call Transfer/Consultation/Conference: Provides the capability to transfer or add a third party, using the same line.

Call Waiting: Provides the User with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switchhook or hanging up the phone and being rung back by the caller.

Call Waiting Cancel: Allows a User to cancel the Call Waiting feature on a per call basis by dialing a specific two digit code.

Calling Number Delivery: Identifies the 10-digit number of the calling party.

Calling Number Delivery Blocking: Blocks the delivery of the number to the called party on a per call basis.

Class of Service (COS): Used to prevent a Station from dialing certain codes and numbers.

Company: Cox Oklahoma Telcom, L.L.C., which is the issuer of this tariff.

Combination Service (Combo Svc. Or Cox Preferred): shall mean a Residential Customer, who qualifies for discounts on the first and additional lines if the Customer also purchases Digital Cable Services and high speed internet access from the Cox-Affiliated Company. The eligibility will continue so long as the Customer continues to purchase both services from the Cox-Affiliated Company.

(CP)
(CP)
(CP)

Competitive Situation: shall exist where there are at least two bidders competing to provide Business Service.

Conference/Six-Way: The User can sequentially call up to five other people and add them together to makeup a six-way call.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Cox: Cox Oklahoma Telcom, L.L.C., which is the issuer of this tariff.

Cox-Affiliated Company: shall mean a wholly owned subsidiary of Cox Oklahoma Telcom, L.L.C.'s parent company, Cox Com, Inc., which provides cable and high speed internet access in the State of Oklahoma.

Customer: The person, firm, corporation or other entity which orders service and is responsible for the payment of charges and for compliance with the Company's tariff regulations.

Customer Group Dialing Plan: A dialing scheme shared by the members of a Customer group, such as 4 digit internal dialing.

Dial Pulse (DP): The pulse type employed by rotary dial Station sets.

Direct Inward Dialing (DID): A service attribute that routes incoming calls directly to Stations, bypassing a central answering point.

Do Not Disturb: Allows the User to prevent incoming calls from ringing its line by diverting them to a tone or a recorded announcement that informs the caller that the User is not accepting calls at this time.

Dual Tone Multi-Frequency ("DTMF"): The pulse type employed by tone dial station sets.

Embedded Multimedia Terminal Adapter ("eMTA"): Equipment provided to the Customer to enable Cox's provision of voice telephone service.

(AT)
(AT)

Exchange Carrier: Any individual, partnership, association, joint-stock company, trust, governmental entity or corporation engaged in the provision of local exchange telephone service.

Holidays: New Year's Day, Martin Luther King Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

Hunting: Routes a call to an idle station line. With Serial Hunting, Calls to a member of a hunt group will search from that point to the end of the group and stop.

Individual Case Basis: A service arrangement in which the regulations, rates and charges are developed based on the specific circumstances of the Customer's situation.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Joint User: A person, firm or corporation designated by the Customer as a user of local exchange service furnished to the Customer by the Company, and to whom a portion of the charges for such facilities are billed under a joint use arrangement.

LATA: A local access and transport area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192 for the provision and administration of communications services.

Least Idle Trunk Selection (LIDL): LIDL trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the shortest period of time.

Local Calling: A completed call or telephonic communication between a calling Station and any other Station within the local service area of the calling Station.

Local Calling Area: The local calling area for Customers served by the Company shall, depending upon the Customer's location within the State of Oklahoma, include the exchanges of the Oklahoma City Wide Area Calling Plan or the Tulsa Wide Area Calling Plan, as established by the Oklahoma Corporation Commission, as well as the additional exchanges set forth in Section 3.1.1 of this tariff.

Local Exchange Carrier: A company which furnishes exchange telephone service.

Mbps: Megabits, or millions of Bits, per second.

Message Waiting: This feature provides an indication to a Station User that a message is waiting. Indications may be visual (lamp) or audible (stuttered dialtone).

Most Idle Trunk Selection (MIDL): MIDL Trunk selection occurs when a switching unit selects from a Trunk group the Trunk that has been idle for the longest period of time.

Multiple Appearance Directory Numbers: A directory number that is assigned more than once to one or more Proprietary Business Sets.

Multi-Frequency ("MF"): An inter-machine pulse-type used for signaling between telephone switches, or between telephone switches and PBX/key systems.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Non-Recurring Charges: The one-time initial charges for services or facilities, including but not limited to charges for construction, installation, or special fees, for which the Customer becomes liable at the time the Service Order is executed.

Off-Hook: The term "off-hook" denotes the active condition of a telephone exchange service line.

On-Hook: The term "on-hook" denotes the idle condition of a telephone exchange service line.

Presubscription: A process whereby a Customer chooses a long distance carrier and is then able to access that carrier by dialing 1+.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Residential Customer: A Customer receiving Residential Service as defined herein.

Residential Service: Service to the following locations:

- Private residences which are not advertised or used as a place of business,
- Private apartments or hotels, rooming houses or boarding houses where service is confined to the Customer's use,
- Detached structures when strictly used as a part of the residence on the same premises and is not used as a place of business.
- University Dormitory Rooms

In the event, a Customer's service is discovered to be in violation of the provisions above, the telephone company shall backbill to recover the under charge. To determine the amount of under charge the telephone company shall first review its' service records to determine the period of under charge. Should the Customer dispute the period determined by the telephone company, the Customer has the burden of demonstrating a shorter period of under charge. In cases where the telephone company service records do not indicate a probable period of under charge, a period of 12 months shall be used and the burden of demonstrating a shorter period shall be upon the Customer. The under charge shall be assessed based upon Switched Access Service charges.

The Company, upon failure of the Customer to pay the amount back billed, shall suspend service to the Customer until such time as the backbilled amount plus late payment penalty, if any, are paid in full.

A residential Customer may not port a business telephone number to the Company as a residential telephone number.

Resold Services: Local exchange services provided by the Incumbent Local Exchange Carrier and resold by the Company.

LOCAL EXCHANGE SERVICE

SECTION 1 - Definitions, cont'd.

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance of service. The parties may mutually agree on a substitute Service Commencement Date.

Service Order: The written request for local exchange services executed by the Customer and the Company in a format specified by the Company. The signing of a Service Order by the Customer and acceptance thereof by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

Services: The Company's telecommunications services offered on the Company's network.

Shared Facilities: A facility or equipment system or subsystem which can be used simultaneously by several Customers.

Speed Call: Provides a User with the option to call selected directory numbers by dialing a one or two-digit code.

Station: Telephone equipment from or to which calls are placed.

Trunk: A communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.

User: A Customer or any other person authorized by the Customer to use service provided under this tariff.

SECTION 2 - Regulations

2.1 Undertaking of the Company

2.1.1 Scope

The Company undertakes to furnish communications service in connection with one-way and/or two-way information transmission between points within the State of Oklahoma under the terms of this tariff.

Customers may use services and facilities provided under this tariff to obtain access to services offered by other service providers. The Company is responsible under this tariff only for the services and facilities provided herein, and it assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own Customers.

2.1.2 Shortage of Equipment or Facilities

1. The Company reserves the right to limit or allocate the use of existing facilities when it deems necessary to manage the lack of facilities or to manage a facility shortage due to some other cause beyond the Company's control. The Company maintains the right to apply protective controls, such as call gapping, which selectively cancels the completion of traffic carried over its network, including the traffic associated with an End User's transmission to another carrier. In addition, the Company reserves the right to limit call duration when deemed necessary to prevent network degradation and to optimize network efficiency of its telephone service. The Company will incur no liability for call interruptions resulting from the Company's efforts to avoid such degradation.
2. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the availability and capacity of the Company's fiber optic cable and other facilities as well as facilities the Company may, from time to time, obtain from other carriers to furnish service as required at the sole discretion of the Company.
3. The furnishing of service under this tariff is subject to the availability to the Company of adequate numbering resources and may be subject to the Company's implementation of interconnection arrangements with incumbent local exchange carrier in Oklahoma.

4. The Company also reserves the right to manage and replace its facilities as necessary, taking into account technology advances, equipment lifecycle, availability of equipment and replacement parts, and impending failure of equipment. Replacement of facilities under such circumstances may result in customers being required, for example, to change from circuit-switched voice services to packet-switched voice services. Where necessary for Cox to manage or replace facilities or at the customer's premise, customer must provide access as specified in Section 2.3.1 (Obligations of the Customer – General) of this tariff or face disconnection, providing reasonable written notice has been sent.

(AT)

(AT)

2.1.3 Terms and Conditions

1. Except as otherwise provided herein, service is provided and billed on the basis of a minimum period of at least one month, and shall continue to be provided until canceled by the Customer. Unless otherwise specified herein, for the purpose of computing charges in this tariff, a month is considered to have 30 days. All calculations of dates set forth in this tariff shall be based on calendar days, unless otherwise specified herein.
2. Customers may be required to enter into written Service Orders which shall contain or reference the name of the Customer, a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff.
3. At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party upon 30 days written notice. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the Service Order shall survive such termination.

4. This tariff shall be interpreted and governed by the laws of the State of Oklahoma without regard for the State's choice of laws provisions.
5. Another telephone company must not interfere with the right of any person or entity to obtain service directly from the Company.
6. The Customer has no property right to the telephone number or any other call number designation associated with services furnished by the Company. The Company reserves the right to change such numbers, either reserved or assigned, to the Customer, whenever the Company deems it necessary to do so in the conduct of its business. Any telephone number reserved by the Company in advance of activation of Cox telephone service is subject to change by the Company. **Customers should not use, publish or advertise reserved numbers until service has been activated. Customer is solely responsible for any expense or loss resulting from Customer's use, publication or dissemination of these numbers. The Customer has no property right in the telephone number associated with Cox telephone service; however, if Customer ports telephone numbers from another carrier to Cox, subject to federal or state law, or telephony industry guidelines, Cox will use such numbers with Customer's telephone service. After activation, Cox reserves the right to change telephone numbers subject to federal or state law, or telephony industry guidelines. Business Customers, who have fulfilled contract obligations and wish to transfer service type from Business to Residential, will be allowed to keep existing telephone number(s) and receive residential rates. Business Customers, who have not fulfilled contract obligations and switch service types from Business to Residential, will be issued new telephone number(s) when the service is transferred to a Residential Service type. Additionally, call intercept will not be deployed to inform the caller of the new Residential Service number(s).**
7. The Customer agrees to operate any Company-provided equipment in accordance with instructions of the Company or the Company's agent. Failure to do so will void Company liability for interruption of service and may make the Customer responsible for damage to Company-provided equipment pursuant to section 2.1.3.9 following.

If service is provided via Equipment, the Customer will receive Equipment provided by Cox during installation. The Equipment works on household power and requires a battery to operate during a power outage. The battery will operate up to 24 hours in case of a power outage depending on usage. While the Customer's telephone service will be available without a battery or a fully charged battery, services, including access to 9-1-1 services will not be available during outages without a battery or if the battery has been drained. The Customer may order a battery from Cox by calling the Cox customer service number or visiting a Cox retail store after telephone service is installed.

(a)

- (b) Cox will provide a battery upon request at the then-prevailing retail price, plus shipping if applicable. The Customer may obtain batteries from sources other than Cox if available, but the Customer is responsible for ensuring that any battery obtained from another source is compatible with the Equipment. The Customer is responsible for installation of the battery and for monitoring the battery and determining when the battery no longer is able to function properly, including but not limited to the ability to maintain a charge, and must be replaced. 2.1.4 Liability of the Company

1. Delays or Interruption of Service - The Customer assumes all risk for damages arising out of delays in installation of service or facilities, mistakes, omissions, interruptions, delays, errors or defects in transmission, failures or defects in equipment or facilities furnished by the company or arising out of failure of the company to maintain proper standards of maintenance of operations or to exercise reasonable supervision, except as follows:

If service is interrupted by causes other than the negligence or unlawful act of the Customer an allowance at the rate for that portion of the Customer's service affected by the interruption shall be made upon request for the time such interruption continues after the fact is reported by the Customer or after detected by the company if the interruption is for more than 24 hours. The allowance shall be equal to 1/30th of the monthly service charges for the first 24-hour period and for each succeeding 24-hour period or fraction thereof. The maximum credit allowable with respect to local exchange service shall not exceed the amount of local exchange service and expanded calling scope charges during a single billing period. The liability of the company for damages shall in no event, by reason of any delays, interruptions, omissions, errors, failures or defects in installation or service, exceed an amount equal to the Customers local exchange service and expanded local calling scope charges for a regular billing period with respect to such delayed, defective or interrupted local exchange service. No other liability shall in any way attach to the company in consideration of such delays or interruptions. The company will not be liable for any loss or damage, nor for any impairment or failure of service arising from or in connection with the use of Customer-owned facilities or equipment.

2. Cox Oklahoma Telcom shall not be liable to the Customer, or any other person for interruptions of any service provided on the premises of a race track or other area subject to the control of the Oklahoma Horse Racing commission, when deactivated or made inoperative during certain periods of the time as mandated by the Oklahoma Horse Racing Commission.

SECTION 2 - Regulations, cont'd.

2.1 Undertaking of the Company, cont'd.

2.1.5 Notification of Service-Affecting Activities

The Company may provide the Customer reasonable notification of service activities that occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventive maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notification requirements. However, some emergency or unplanned service-affecting conditions, such as outage resulting from cable damage, notification to the Customer may not be possible.

2.1.6 Provision of Equipment and Facilities

1. The Company shall use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with, the regulations contained in this tariff. The Company does not guarantee availability by any such date and shall not be liable for any delays in commencing service to any Customer.
2. The Company shall use reasonable efforts to maintain facilities that it furnishes to the Customer. The Customer may not, nor may the Customer permit others to, rearrange, disconnect, remove, attempt to repair or otherwise interfere with any of the facilities installed by the Company, except upon the written consent of the Company.

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

Standard installation service charges reflect service provided between Monday through Saturday, 8:00 a.m. - 5:00 p.m., at current installation intervals and without work interruptions by the Customer. For Residential Customer requests for expedited services that require installations on a date that is less than the normal offered interval, a 100% increase in applicable service charge shall apply, or if during a promotional period, the full non-discounted service charge would apply. For Business Customer requests for expedited services that require installations on a date that is less than the normal offered interval, an increase in applicable service charge shall apply per line per section 3.1.2.2(a), or if during a promotional period, the full non-discounted service charge would apply.

8. complying with all laws and regulations applicable to, and obtaining all consents, approvals, licenses and permits as may be required with respect to, the location of Company facilities and equipment in any Customer premises or the right-of-way for which Customer is responsible under Section 2.3.1.4 above; and granting or obtaining permission for Company agents or employees to enter the premises of the Customer at any time for the purpose of installing, inspecting, maintaining, repairing, or upon termination of service as stated herein, removing the facilities or equipment of the Company; (CT)
9. not creating or allowing to be placed or maintained any liens or other encumbrances on the Company's equipment or facilities; and (CT)
10. making Company facilities and equipment available periodically for maintenance purposes at a time agreeable to both the Company and the Customer. No allowance for interruptions in service will be made for the period during which service is interrupted for such purposes. (CT)
11. allowing the Company, or its agent, access to the property, with no notice, to remove Company facilities and/or equipment when Customer has discontinued service. (CT)
12. providing the Company with written notification of any change in name, ownership or control. (CT)

2.3 Obligations of the Customer, cont'd.

2.3.2 Claims

With respect to any service, equipment or facility provided by the Company, Customer shall indemnify, defend and hold harmless the Company from all claims, actions, damages, liabilities, costs and expenses, including reasonable attorneys' fees for:

1. any loss, destruction or damage to property of the Company or any third party, or the death of or injury to persons, including, but not limited to, employees or invitees of either the Company or the Customer, to the extent caused by or resulting from the negligent or intentional act or omission of the Customer, its employees, agents, representatives or invitees; or
2. any claim, loss damage, expense or liability for infringement of any copyright, patent, trade secret, or any proprietary or intellectual property right of any third party, arising from any act or omission by the Customer, including, without limitation, use of the Company's services and facilities in a manner not contemplated by the agreement between the Customer and the Company.

2.3.3 Private Identification Number ("PIN") Access

The F.C.C. requires that Customers set up and use a Private Identification Number ("PIN") when communicating with the Company to obtain certain information about, or to make certain changes to, their telephone account. Use of this PIN may be waived when communicating with an account representative dedicated to a Business Customer's account. Cox **phone service** is subject to the Cox privacy **policies** posted on the Company's website at <https://www.cox.com/aboutus/policies/annual-privacy-notice.html> for **Residential Customers** and <https://www.cox.com/aboutus/policies/business-annual-privacy-notice.html> for **Business Customers**.

2.4 Customer Equipment and Channels

2.4.1 General

A Customer may transmit or receive information or signals via the facilities of the Company.

2.4.2 Station Equipment

1. The Customer is responsible for providing and maintaining any terminal equipment on the Customer's premises. The electric power consumed by such equipment shall be provided by, and maintained at the expense of, the Customer. All such terminal equipment must be registered with the FCC under 47 C.F.R., Part 68 and all wiring must be installed and maintained in compliance with those regulations. The Company will, where practicable, notify the Customer that temporary discontinuance of the use of a service may be required; however, where prior notice is not practicable, nothing contained herein shall be deemed to impair the Company's right to discontinue forthwith the use of a service temporarily if such action is reasonable under the circumstances. In case of such temporary discontinuance, the Customer will be promptly notified and afforded the opportunity to correct the condition which gave rise to the temporary discontinuance. During such period of temporary discontinuance, credit allowance for service interruptions as set forth in Section 2.6 following is not applicable.

2.4.2 Station Equipment, cont'd.

2. The Customer is responsible for ensuring that Customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities. The magnitude and character of the voltages and currents impressed on Company provided equipment and wiring by the connection, operation, or maintenance of such equipment and wiring shall be such as not to cause damage to the Company-provided equipment and wiring or injury to the Company's employees or other persons. Any additional protective equipment required to prevent such damage or injury shall be provided by the Company at the Customer's expense.

2.4.3 Interconnection of Facilities

1. Any special interface equipment necessary to achieve compatibility between the facilities and equipment of the Company used for furnishing local exchange service and the channels, facilities, or equipment of others may be provided at the Customer's expense.
2. Local Services may be connected to the services or facilities of other communications carriers only when authorized by, and in accordance with, the terms and conditions of the tariffs of the other communications carriers which are applicable to such connections.
3. Facilities furnished under this tariff may be connected to Customer provided terminal equipment in accordance with the provisions of this tariff.

2.4.4 Inspections

1. Upon reasonable notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth in Section 2.4.2.2 for the installation, operation, and maintenance of Customer-provided facilities and equipment to Company-owned facilities and equipment. No credit will be allowed for any interruptions occurring during such inspections.
2. If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within 10 days of receiving this notice the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to take such actions and provide such notice, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment and personnel from harm. The Company will, upon request 24 hours in advance, provide the Customer with a statement of technical parameters that the Customer's equipment must meet.

2.5 Payment Arrangements

2.5.1 Payment for Service

The Customer is responsible for payment of all charges for service and facilities furnished by the Company to the Customer or its Joint or Authorized Users. Objections must be received by the Company within 30 days after statement of account is rendered, or the charges shall be deemed correct and binding upon the Customer. If an entity other than the Company imposes charges on the Company, in addition to its own internal costs, in connection with a service for which a Company Non-Recurring Charge is specified, those charges may be passed on to the Customer.

1. Taxes: The Customer is responsible for the payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges or surcharges (however designated) excluding taxes on the Company's net income imposed on or based upon the provision of Local Exchange Service, all of which shall be separately designated on the Company's invoices. Any taxes imposed by a local jurisdiction (e.g., County and municipal taxes) will only be recovered from those Customers residing in the affected jurisdictions. It shall be the responsibility of the Customer to pay any such taxes that subsequently become applicable retroactively.

2. A surcharge is imposed on all charges for service originating at addresses in states which levy, or assert a claim of right to levy, a gross receipts tax on the Company's operations in any such state, or a tax on interstate access charges incurred by the Company for originating access to telephone exchanges in that state.¹ This surcharge is based on the particular state's receipts tax and other state taxes imposed directly or indirectly upon the Company by virtue of, and measured by, the gross receipts or revenues of the Company in that state and/or payment of interstate access charges in that state. The surcharge will be shown as a separate line item on the Customer's monthly invoice.

¹ Pending the conclusion of any challenge to a jurisdiction's right to impose a gross receipts tax, the Company may elect to impose and collect a surcharge covering such taxes, unless otherwise constrained by court order or direction, or it may elect not to impose and collect the surcharge. If it has collected a surcharge and the challenged tax is found to have been invalid and unenforceable, the Company will credit or refund such amounts to affected Customers (less its reasonable administrative costs), if the funds collected were retained by the Company or if they were delivered over to the taxing jurisdiction and returned to the Company.

2.5.2 Billing and Collection of Charges

Bills will be rendered monthly to Customer.

1. All service, installation, monthly Recurring Charges and Non Recurring Charges are due and payable upon receipt.
2. The Company shall present bills for Recurring Charges monthly to the Customer, in advance of the month which service is provided. When technically and administratively feasible, the Company and the Customer may agree to billing alternatives, allowing the Customer to receive billing information in alternative formats and/or frequencies.
3. For new Customers or existing Customers whose service is disconnected, the charge for the fraction of the month in which service was furnished will be calculated on a pro rata basis. For this purpose, every month is considered to have 30 days.
4. Amounts not paid within 15 days after the date of invoice are considered past due. If the Company does not receive the entire amount billed by the due date, a late payment charge of 1.5% may be assessed on the unpaid balance.
5. When a Customer makes a payment to the Company in the form of a check, bank draft, credit card, debit card or other non-cash payment method, and the payment is returned to Cox unpaid, a \$25.00 returned item fee may be applied to the Customer's account.

2.5.3 Disputed Bills

The Customer shall notify the Company of any disputed items on a bill within 30 days of receipt of the bill. If the Customer and the Company are unable to resolve the dispute to their mutual satisfaction, the Customer may file a complaint with the OKLAHOMA CORPORATION Commission in accordance with the Commission's rules of procedure.

1. The date of the dispute shall be the date the Company receives sufficient documentation to enable it to investigate the dispute.
2. The date of the resolution is the date the Company completes its investigation and notifies the Customer of the disposition of the dispute.

2.5.4 Advance Payments

To safeguard its interests, the Company may require a Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount equal to the Non-Recurring Charge(s) and one month's charges for the service or facility. In addition, where special construction is involved, the Advance Payment may also include an amount equal to the estimated Non-Recurring Charges for the special construction and Recurring Charges (if any) for a period to be set between the Company and the Customer. The Advance Payment will be credited to the Customer's initial bill. An Advance Payment may be required in addition to a deposit.

2.5.5 Deposits

1. Applicants for service or existing Customers who cannot establish a satisfactory credit standing with the Company may be required at any time to provide the Company a security deposit. The deposit requested will be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:
 - (a) one month's recurring charges for a service or facility which has a minimum payment period of one month and the estimate of two month's charges for usage-sensitive priced services; or
 - (b) the charges that would apply for the minimum payment period for a service or facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in event that a termination charge is applicable. In addition, the Company shall be entitled to require such an applicant or Customer to pay all its bills within a specified period of time, and to make such payments in cash or the equivalent of cash. At the Company's option, such deposit may be refunded to the Customer's account at any time. Also, the Company reserves the right to cease accepting and processing Service Orders after it has requested a security deposit and prior to the Customer's compliance with this request.
2. A residential applicant shall not be required to pay a deposit:
 - (a) When the Company, at its discretion, verifies that an applicant had previous service with Cox or a Cox Affiliated Company and the applicant has maintained satisfactory credit, the applicant would obtain service without a deposit, or

5. The deposit shall cease to draw interest on the date it is returned or credited to the end-user's account.
6. In determining the amount of any deposit, no charges for estimated telephone directory advertising will be used.
7. The amount of the deposit, with accrued interest, shall be applied to any unpaid charges at the time of a discontinuance of services. The balance, if any, shall be returned to the Customer within thirty (30) days after settlement of the consumer's account, either in person or by mailing it to the end-user's last known address.
8. If service is not connected, or after disconnection of service, Cox shall promptly and automatically refund the Customer's deposit plus accrued interest on the balance, if any, in excess of the unpaid bills for service furnished. A transfer of service from one (1) premise to another within the area of Cox shall not be deemed a disconnection within the meaning of this rule, and no additional deposit may be required unless otherwise permitted by these rules.
9. Cox shall automatically refund the deposit for residential service, with accrued interest, after twelve (12) months' satisfactory payment of undisputed charges and where payment was not late more than twice; provided, however, that service has not been disconnected within the twelve (12) month period. Payment of a charge shall be deemed satisfactory if received on or prior to the date the bill is due. Payment of a charge shall be deemed not satisfactory if made by a check that is subsequently dishonored. If the Customer does not meet these refund criteria, the deposit and interest may be retained in accordance with subsection (d) of this Section.

2. Cox may refuse service, suspend or terminate existing service to a Customer pursuant to the disconnect procedure defined below for any of the following reasons:
 - (a) Nonpayment of a bill within the period prescribed by these tariffs and/or nonpayment of a single bill within a multiple bill account.
 - (b) Failure to make a security deposit as set forth in these tariffs.
 - (c) Violation of or noncompliance with any provision of law, or of OAC 165:55, or these tariffs.
 - (d) Refusal to permit Cox reasonable access to its telecommunications facilities for recovery, maintenance, and inspection thereof.
 - (e) Interconnection of a device, line, or channel to Cox's facilities or equipment contrary to Cox's terms and conditions of service on file with and approved by the Commission.
 - (f) Excessive or improper use of telephone service, or use in such manner as to interfere with reasonable service to other Customers.
 - (g) Use of service or facilities for a call or calls, in a manner reasonably expected to frighten, abuse, torment, or harass another user of the Public Switch Telephone Network.
 - (h) Any other violation of the Company's regulations.
3. Cox will provide documentation to the Customer upon request, indicating the reason(s) that service is being withheld.
4. Upon a Customer's request to terminate local exchange service, Cox will inform such Customer of the Customer's responsibility to contact the Customer's IXC regarding continuance or termination of such service from the IXC.

6. Cox shall not be required to furnish or continue furnishing service when applied for in the name of another person or legal entity, or a fictitious name or other member of the same household, for the purpose of avoiding payment of an unpaid obligation for telephone service previously furnished.
7. Customers will not be held responsible for the nonpayment of another Customer's bill unless the Customer superseded the service or was a co-applicant or guarantor for the service or shared the service of the nonpaid account.
8. Cox will extend a payment arrangement to an applicant for a prior bill, unless the applicant has not fulfilled prior payment arrangements within the past twelve (12) months.
9. Cox will not refuse service or suspend existing service or disconnect existing service by reason of nonpayment for telephone service by a previous occupant at the premises for which service is sought, or by reason of nonpayment of any amount back-billed due to misapplication of rates provided the applicant enters into a deferred payment plan. Cox will not disconnect or suspend service without mailing or delivering a bill to the Customer for the amount due to Cox in accordance with OAC 165:55-9-4.

If there is an unresolved dispute pending with the Commission concerning a bill and the Customer pays the undisputed portion of that bill, disconnection procedures shall be held in abeyance until the dispute is resolved.
18. If service is denied, suspended or terminated pursuant to these tariffs, Cox will advise the Customer of the Customer's right to contact the Commission's Consumer Services Division and shall provide the Customer with the Consumer Service Division's address and the telephone number.
19. Cox or the Customer may seek assistance from the Commission to review records of Cox and the Customer concerning the Customer's complaint.
20. After the Commission has notified Cox of a complaint or inquiry from the Customer regarding the Customer's account, Cox will coordinate communication with the Commission Staff regarding the complaint. The Commission Staff shall be the intermediary between Cox and the Customer until the resolution of the problem has been completed.
21. Any written correspondence or notices to the end-user by the telecommunications service provider relating to billing disputes or complaints, which are not otherwise provided for in this Chapter, shall meet the following criteria:

This is in addition to all other remedies that may be available to the Company at law or in equity or under any other provision of this tariff.
30. Telephone Calls with Intent to Annoy:
 - A. The Company may discontinue service to any Customer, who with intent to annoy, telephones another and addresses to or about such other person any obscene language or addresses to such person any threat to inflict injury to the person or property of the person addressed or any family member.
 - B. The Company may discontinue service of any Customer, who with intent to annoy, repeatedly telephones another without disclosing his/her true identity to the person answering the telephone, whether or not conversation ensues during the telephone call.
 - C. The Company may, at its discretion, terminate service to any Customer who establishes a pattern of behavior with respect to the services provided by the Company that is intended to vex, harass or annoy the Company, its employees, agents or other Users of the Publicly Switched Telephone Network. A pattern of behavior is intended to vex, harass or annoy if it disturbs, irritates or interrupts the Company's operations through continued and repeated acts, or disturbs, irritates, or interrupts Users of the Public Switched Telephone Network through continued and repeated acts.
 - D. Prior to disconnection of service for calls described in parts A. and B. above, the Company will make reasonable effort to persuade the Customer placing such calls to cease all such activity. If such activity persists, the Company may, at its option, disconnect service. Prior to disconnection of service for calls described in part C. above, the Company may, at its option, refuse to transact business with the Customer except by written communication. If the Customer continues to engage in conduct set forth in section C above, the Company may, at its option, immediately discontinue service.

- F. Company may disconnect service to any Customer who violates 47 U.S.C. §227, Restrictions on the Use of Telephone Equipment.

2.6 Allowances for Interruptions of Service

- 2.6.1 Credit for interruptions: When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company, except as otherwise specified in the Company's tariffs. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the monthly Recurring Charges specified herein for Local Line or Cox Connect Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours.

2.6.2 Limitations on Allowances

No credit allowance will be made for:

1. interruptions due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer, Authorized User, Joint-User, or other common carrier providing service connected to the service of Company;
2. interruptions due to the negligence of any person other than the Company including but not limited to the Customer or other common carriers connected to the Company's facilities;
3. interruptions due to the failure or malfunction of non-Company equipment;
4. interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions,
5. interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
6. interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;
7. interruption of service due to circumstances or causes beyond the control of the Company.

2.6.3 Use of Alternative Service Provided by the Company

Should the Customer elect to use an alternative service provided by the Company during the period that a service is interrupted, the Customer must pay the tariffed rates and charges for the alternative service used.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations, cont'd.

2.7 Cancellation of Service

2.7.1 Cancellation of Application for Service

1. Applications for service are noncancellable unless the Company otherwise agrees. Where the Company permits the Customer to cancel an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.
2. Where, prior to cancellation by the Customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of service ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the Customer had service begun.
3. The special charges described in 2.7.1.1 and 2.7.1.2 will be calculated and applied on a case-by-case basis.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations, cont'd.

2.7 Cancellation of Service, cont'd.

2.7.2 Cancellation Service by the Customer

If a Customer cancels a Service Order or terminates services before the completion of the term for any reason whatsoever other than a service interruption (as defined in 2.6.1 above), Customer agrees to pay to Company the following sums which shall become due and owing as of the effective date of the cancellation or termination and payable within the period set forth in 2.5.2, all costs, fees and expenses incurred in connection with:

1. all Non-Recurring Charges reasonably expended by Company to establish service to Customer, plus
2. any disconnection, early cancellation or termination charges reasonably incurred and paid to third parties by Company on behalf of Customer, plus
3. all Recurring Charges specified in the applicable Service Order tariff for the balance of the then current term.

2.8 Transfer and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company; (b) pursuant to any sale or transfer of substantially all the assets of the Company; or (c) pursuant to any financing, merger or reorganization of the Company.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations, cont'd.

2.9 Notices and Communications

- 2.9.1 The Customer shall designate on the Service Order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.
- 2.9.2 The Company shall designate on the Service Order an address to which the Customer shall mail or deliver all notices and other communications, except that Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.
- 2.9.3 All notices or other communications required to be given pursuant to this tariff will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following deposit of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first
- 2.9.4 The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein.

LOCAL EXCHANGE SERVICE

SECTION 2 - Regulations, cont'd.

2.10 Toll Service

2.10.I If a Residential Customer in any single month, accrues toll charges in excess of twice the average monthly toll charges of the Company's Customers in the same class of service (residential or business) or twice the actual monthly average of the individual Customer's charges, whichever is greater, the Company will review the Customer's previous billing and payment history. If the Customer's account is deemed to be a credit risk, as described in Section 2.5.5.2, the Company will attempt to contact the Customer to make inquiries concerning the abnormal usage and may require a security and/or payment of charges on the account to continue toll service. If the Customer does not respond after at least two attempts by the Company to contact the Customer, the Company may suspend toll service. A Customer who has had toll restriction placed on their account will not be able to dial or complete inter/intraLATA toll calls. The actions taken by the Company under this subsection will be implemented as authorized by O.A.C. 165:55-9-14(c).

2.11 Transfer of Credit Balances

For disconnected bundled service accounts consisting of regulated and non-regulated services, Cox may apply any/all remaining credit balances on any regulated services against any remaining outstanding debit balances on any non-regulated services on the same account.

3.1.2 Local Line

Local Line provides the Customer with a single, voice-grade communications channel. Each Local Line will include a telephone number.

1. Custom Calling Features

Custom Calling Features are optional central office services furnished to individual line business and/or residence Customers. Custom Calling Features are available where facilities exist and operating conditions permit.

(CT)

(a) FEATURE DESCRIPTIONS

Anonymous Call Rejection: Allows the Customer to reject incoming calls from callers that intentionally block their caller identification information.

Auto Ring Down Service: Allows a Business Customer to automatically connect a station to a pre-programmed telephone number.

Busy Line Redial: Allows a Customer to program his or her telephone to automatically redial a number which is busy.

Call Forwarding: Allows the Customer to program his or her telephone so that incoming calls are forwarded to another number.

Call Forwarding - Busy: Automatically forwards all incoming calls to a Customer-defined alternate number when the Customer's line is off hook.

Call Forwarding - No Answer: Automatically routes incoming calls to a designated answering point when the called line does not answer within a pre-specified number of rings.

Call Forwarding - Remote Access: Allows the Customer to change the forwarding of a call (edit, activate, or deactivate) from a remote location by dialing in and pressing a series of codes.

LOCAL EXCHANGE SERVICE

SECTION 3 - Service Descriptions, cont'd.

3.1 Local Exchange Service, cont'd.

3.1.2.1.(a) FEATURE DESCRIPTIONS, cont'd.

Call Forwarding of Call Waiting Calls: Provides the Customer the capability to forward unanswered waiting calls to a Customer-designated number by using the combined functions of Call Waiting and Call Forward - No Answer. An incoming call to a busy line first receives standard waiting treatment in which an audible tone is heard by the called party and audible ringing is heard by the calling party. If the call is not answered after a period of time equal to the time-out value of Call Forward - No Answer, the incoming call is given Call Forward - No Answer treatment and is forwarded to a subscriber designated number.

Call Number Block (per call block): Allows the party placing an outgoing call to block the delivery, on a per call basis, of the caller's identifying information, his or her name and telephone number (TN) from caller ID display devices. (Exceptions to call number block are E911 and Toll Free Service.)

Call Number Block (per line block): Allows the party placing an outgoing call to always block their name and telephone number (TN) from the party receiving the call. (Exceptions to call number block are E911 and Toll Free Service.)

Call Return: Provides the Customer an announcement of the last phone number that called them. This feature is available on a per line (monthly) basis or on a per use basis.

Call Trace: Allows a Customer who has been receiving harassing or annoying phone calls to have the number of the caller recorded and kept by the Company. Customer must then file a complaint with appropriate law enforcement agencies. This feature is only available on a per use basis.

Call Transfer: Provides the capability to transfer or add a third party, using the same line.

(AT)

(AT)

Call Waiting: The subscriber, already involved in a call, receives a tone that another incoming call is waiting to be answered. The called party, hearing the call-waiting tone during the existing conversation, can choose to flash the hookswitch and connect to the incoming call. This feature includes Cancel Call Waiting which allows the subscriber to enter a code that disables the Call Waiting feature so that he or she will not hear a tone during a conversation with another party.

LOCAL EXCHANGE SERVICE

SECTION 3 - Service Descriptions, cont'd.

3.1 Local Exchange Service, cont'd.

3.1.2.1(a) FEATURE DESCRIPTIONS, cont'd.

Call Waiting ID: Allows the subscriber to receive calling party information during call waiting. Call Waiting ID presents the subscriber with a set of options to treat the incoming call. These options include forwarding the call, placing the call on hold, sending the call to treatment, placing the existing call on hold and answering the incoming call, or answering the call and dropping the existing call. This feature requires specialized Customer Premises Equipment.

Caller ID (Caller Name & Number Delivery): Allows the called party to see the name and where available the telephone number of the calling party. This feature requires specialized Customer Premises Equipment.

Distinctive Ring: Where facilities and operating conditions permit, this feature allows up to four directory numbers to terminate on a telephone line and telephone set. Each directory number has a distinctive ringing sequence and is priced separately.

Hunting: Routes a call to an idle station line. Calls to a member of a serial hunt group will search from that point to the end of the group and stop. Calls to a member of a circular hunt group will make a complete search of all the numbers within the hunt group.

Long Distance Alert: This feature helps increase the completion of toll calls by providing a distinctive call waiting tone (if the line is off-hook) or a distinctive ringing cadence (if the line is on-hook) that alerts the Customer to an incoming long distance call. (RT)

Priority Ringing: Allows up to 31 directory numbers to be automatically identified by distinctive ringing. If a subscriber is engaged in conversation and a call from one of the designated directory numbers arrives, a distinctive call waiting tone accompanies the incoming call. All other calls ring normally.

HD (High Definition) Voice: Provides Residential Customers crystal clear conversations with reduced background noise. Requires CPE/Handset support for both calling and called parties. A standard call will be established if HD Voice is not supported. (AT)
(AT)
(AT)
(AT)

Remote Call Forwarding: Uses a telephone number and a central office switch to automatically forward all incoming calls dialed to the Remote Call Forwarding telephone number to the terminating telephone number. All toll calls will be carried over the Cox network. Charges for additional talk paths will apply per path for non-Cox telephone numbers.

Selective Call Acceptance: Allows the Customer to create a list of telephone numbers. Incoming calls from these numbers are accepted. All other calls are forwarded to an announcement.

Selective Call Forwarding: Allows the Customer to create a list of telephone numbers. Incoming calls from these numbers are forwarded to another number instead of being completed at the Customer's telephone number. All other calls are completed as usual.

Selective Call Rejection: Allows the Customer to create a list of telephone numbers. Incoming calls from these numbers are forwarded to an announcement. All other calls are accepted. This feature is available on a per line (monthly) basis or on a per use basis.

Speed Calling - 8, 30 & 50: Allows a Customer to preprogram up to 8, 30, or 50 telephone numbers, and then access these numbers with the simple touch of one digit or two digits on the telephone set.

Three Way Calling: Allows the Customer to conference in a third person to an existing call so all three people can speak together in the same conversation. This feature is available on a per-line (monthly basis) or on a per-use basis.

Simultaneous Ring: The simultaneous ring feature can ring several different phones at one time when an incoming call is received. All designated (programmed) numbers will ring at the same time and the call can be answered from any of the programmed devices. (AT)

3.2 Directory Assistance

A Customer may obtain Directory Assistance in determining telephone numbers within its local calling area by calling the Directory Assistance operator.

- 3.2.1 The Customer will be allowed to make up to 3 calls per month to Directory Assistance at no charge. On May 1, 2003, the free call allowance will be eliminated. Each call to Directory Assistance after the free call allowance will be charged as follows:

Residence Per Call	\$2.49
Business Per Call	\$2.49

(CR)

The Customer may request a maximum of two telephone numbers per call to Directory Assistance service.

- 3.2.2 A credit will be given for calls to Directory Assistance as follows:

- The Customer experiences poor transmission or is cut-off during the call; or
- The Customer is given an incorrect telephone number.

To obtain such a credit, the Customer must notify its Customer Service representative.

- 3.2.3 Charges for Directory Assistance (DA) are not applicable to calls placed from Customers whose physical, visual, mental or reading disabilities prevent them from using the telephone directory. The method of exempting those disabled Customers shall be via the completion of an exemption form supplied by the Company and the Company's acceptance of that form. The exemption for disabled Customers includes sent-paid calls from the Customers' local exchange service and calls billed to the Customers' Company calling card. Third number billing of DA calls to the disabled Customers' local exchange service are not exempt.
- 3.2.4 Charges for DA are not applicable to calls placed from a hospital which has as its principal undertaking the in-patient medical care or surgical of the sick or disabled persons.

LOCAL EXCHANGE SERVICE

SECTION 3 - Service Descriptions, cont'd.

3.3 Operator Assistance

A Customer may obtain the assistance of a local operator to complete local exchange telephone calls in the following manner. In addition to the rates specified in Section 3.1, surcharges as specified in Section 3.3.1 will apply:

Third Number Billing: Provides the Customer with the capability to charge a local call to a third number which is different from the called or calling party. The party answering at the third number has the option to refuse acceptance of the charges in advance or when queried by the operator.

Collect Calls: Provides the Customer with the capability to charge a call to the called party. On the operator announcement of a collect call, the called party has the option to refuse acceptance of charges in advance or when queried by the operator.

Credit Cards: Provides the Customer with the capability to place a call using a credit card with the assistance of an operator.

(C)
(C)

Person to Person: Calls completed with the assistance of an operator to a particular Station and person specified by the carrier. The call may be billed to the called party.

Station to Station: Calls complete with the assistance of an operator to a particular Station. The call may be billed to the called party.

General Assistance: The Customer has the option to request general information from the operator, such as dialing instructions, country or city codes, area code information and Customer Service 800/888 telephone numbers, but does not request the operator to complete the call.

LOCAL EXCHANGE SERVICE

LOCAL EXCHANGE SERVICE

SECTION 3 - Service Descriptions, cont'd.

3.4 Directory Listings

The Company shall provide for a single directory listing, termed the primary listing, in the telephone directory published by on or behalf of the incumbent local exchange carrier in the Customer's exchange area of the Station number which is designated as the Customer's main billing number. Directory listings of additional Customer Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for a monthly recurring charge per listing.

- 3.4.1 The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the Customer is not impaired thereby. Where more than one line is required to properly list the Customer, no additional charge is made.
- 3.4.2 Directory listings must be in the name of a person who lives at a residence and must be a legally authorized or adopted name. Listings may reflect full first/given name or initials of that name. For example, John Smith may be listed as John or J. Smith. (AT)
(AT)
(AT)
(AT)
- 3.4.3 The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, obscenities in the name, or any listing which in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto. (CT)
- 3.4.4 Each listing must be designated Government or Business to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto. (CT)

3.4 Directory Listings, cont'd.

3.4.5 In order for listings to appear in an upcoming directory, the Customer must (CT) furnish the listing to the Company in time to meet the directory publishing schedule.

3.4.6 Directory listings are provided in connection with each Customer service as (CT) specified herein.

- 1. Primary Listing:** A primary listing contains the name of the Customer, or the name under which a business is regularly conducted, as well as the address and telephone number of the Customer. This listing is provided at no additional charge.
- 2. Additional Listings:** In connection with business service, additional listings are available only in the names of Authorized Users of the Customer's service, as defined herein. Rates for additional listings are specified in Section 3.4.6. Additionally, if the Customer's listing is longer than one line, the Customer will be assessed the rate specified in Section 3.4.6 on a per-line basis.
- 3. Foreign Listing:** A foreign listing is a listing entered in the alphabetical list of an exchange other than that which the listed service is furnished. Except where the foreign listing is to appear in the form of an alternative listing, a foreign listing is furnished only when a listing of the same name and telephone *number is to appear in the normal directory.*
- 4. Nonpublished Listings:** Listings that are not printed in directories nor available from Directory Assistance.

A Nonpublished Telephone Service will be furnished at the Customer's request providing for the omission or deletion of the Customer's telephone listing from the telephone directory and, in addition, the Customers telephone listing will be omitted or deleted from the directory assistance records, subject to the provisions set forth in Section 2.1.4. Rates for Nonpublished Listings are as specified in Section 3.4.6. Additional residential lines used for facsimile machines and computer modems will not be assessed this fee.

3.5 Emergency Services (Enhanced 911)

Allows Customers to reach appropriate emergency services including police, fire and medical services. Enhanced 911 has the ability to selectively route an emergency call to the primary E911 provider so that it reaches the correct emergency service located closest to the caller. In addition, the Customer's address and telephone information will be provided to the primary E911 provider for display at the Public Service Answering Point (PSAP).

3.6 Vanity Telephone Numbers

At the request of the Customer, the Company may assign a telephone number with the last four digits selected by the Customer. The assignment is subject to availability of a particular number and subject to the terms and conditions set forth in Section 2.1.3.

The following charges will apply for Vanity Telephone Numbers:

Non-Recurring (per number)	Monthly Recurring (per number)
\$0.00	\$0.00

3.7 Telecommunications Relay Service (TRS)

Enables deaf, hard-of-hearing or speech-impaired persons who use a Text Telephone (TT) or similar devices to communicate freely with the hearing population not using TT and visa versa. A Customer will be able to access the state provider to complete such calls.

The Oklahoma Telephone Association (OTA) administers the Oklahoma Telecommunications Relay Service (TRS) on behalf of the state of Oklahoma.

A TRS Fees List is available on the OTA website:

4.2 Service Guarantees

Satisfaction Guarantee

If a residential Customer is not completely satisfied with Cox Digital Telephone Service within the first thirty (30) days, the Company will refund the first month's charges on the Primary Line, excluding local toll and long distance charges, features, taxes and fees.

Or,

If a residential Customer after a service period of at least 60 days but not more than 90 days, is not completely satisfied with Cox Digital Telephone Service, the Company will reimburse the Customer's incurred charges for reconnection up to \$40 to switchback to the ILEC's local exchange service. It is the Customer obligation to provide proof of the charges incurred for reconnection by producing the ILEC's monthly bill for said reconnection.

On-Time Guarantee

The Company offers an On-Time Guarantee to its Customers. If a Customer notifies Cox that a Cox technician, or agent, did not arrive at the Customer's premises within the prearrange service window, Cox will offer the Customer a coupon redeemable for up to \$20 off of the Customer's next payment transaction.

4.3 Winback Offer

If a Residential Customer switched their Cox Digital Telephone (CDT) service to another telephone provider, the former CDT Customer may be eligible for the winback offer. If the Customer switches service back to Cox and subscribes to CDT, the non-recurring charge (NRC) for activation will be waived and the Customer will receive a 50% discount on any monthly recurring charge (MRC) for up to 12 months of service.

SECTION 5 - Special Service Arrangements

5.1 Special Service Arrangements

Arrangements may be developed on a case-by-case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service not generally offered under this tariff. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis. The requested service or arrangements are not offered under other sections of this tariff. The facilities utilized to provide the requested service or arrangements are of a type normally used by the Company in furnished its other services. The requested service or arrangements are compatible with other Company services, facilities, and its engineering and maintenance practices. These offerings are subject to the availability of necessary Company personnel and capital resources.

5.2 Homeland Security Arrangement (HSA)

(AT)

1. General

The Company's Homeland Security Arrangement (HSA) is available to any city, county or state agency, or federal campus, (e.g.: an incorporated borough, town, city or village, or a military base). Services included in a HSA may be any service offered by the Company through any of the Company's state tariffs and are configured unique to each municipality's individual requirements. The Company will assist the Customer with their telecommunications services design while addressing Customer needs relating to redundancy, disaster recovery and preparedness, emergency management and/or any other arrangements needs. Products and services under HSA are provided at the discretion of the Company, where facilities exist and where technically available.

2. Rates

Rates for services provided under HSA (except Business Access Lines) will be provided on an Individual Case Basis (ICB) according to each Customer's specific configuration and the associated cost analysis. ICB Rates for the HSA will be based on the incremental costs, contribution level, and contract term option selected. These factors will vary with each HSA and will, therefore, reflect varying ICB rates for each municipality's HAS. Rates for Business Access Lines may be included in the HSA, but will be priced using existing tariff rates. All ICB pricing will comply with OAC 165:55-5-10.3.

3. Payment Options

Payment options specified by the Customer will be offered when possible. The Customer will be required to sign a term agreement for the services provided.

6.3 Recovery of Oklahoma Universal Service Fund Contributions from Customers

A. General Regulations

1. Contributions to the Oklahoma Universal Service Fund (OUSF) are assessed as a uniform percentage of the telecommunications carrier's total retail-billed intrastate telecommunications revenue for a 12-month period identified by the OUSF Administrator. This percentage is established annually pursuant to an Order issued by the OKLAHOMA CORPORATION Commission.
2. Pursuant to 170.S.§139 106 and OAC 165 59-3-46, a telecommunications carrier may, at its option, recover the amount of its contributions to the OUSF from its Customers. Such recovery shall be made in a fair, equitable and nondiscriminatory manner.
3. Either a flat fee or a percentage recovery charge as described below shall be assessed for the fee recovery.
4. Recovery shall be assessed on the same retail revenues as those used for contribution purposes.

B. OUSF Recovery Charge (Percentage or Flat Fee)

1. Recovery of the OUSF contribution shall be made by a uniform monthly flat fee or percentage, which shall be applied to each Customer's bill in addition to any other applicable rates and charges as provided for in this tariff. The OUSF Recovery Charge is intended to recover the total dollar amount paid into the OUSF, and shall be adjusted to offset for any over-recovery or under-recovery from the Customers, pursuant to OAC 165:59-3-46
2. The results of such calculation(s) shall be rounded to the penny for the purpose of applying this amount to the Customer's bills.

The Company shall not include the OUSF Recovery Charge in the calculation of such taxes, fees, or assessment in the Customer's bill.
4. If recovery is made pursuant to this tariff from the Customers, the amount resulting from the OUSF Recovery Charge will be stated separately in the Customer's monthly bill.
5. Records shall be kept by the Company which reflect the OUSF contributions paid by the Company for each period along with all amounts recovered by the Company through the Recovery of OUSF Contributions Tariff. This information shall be provided to the Commission along with any changes in the OUSF Recovery Charge.

C. Changes in the OUSF Recovery Charge

1. Any change to the OUSF Recovery Charge shall be made by written notification to the Director of the Public Utility Division. A replacement tariff page reflecting the revised OUSF Recovery Charge shall be included with the notification letter.
2. Notification of changes to the OUSF Recovery Charge shall be made at least 30 days before effective date of change.

7.6 COX DIGITAL TRANSPORT

Cox Digital Transport Service is a business product that provides intrastate dedicated high-capacity channels for transport of data signals between Customer sites. Cox Digital Transport's main function is to operate as a Local Area Network (LAN) to LAN interconnection.

Cox Digital Transport service provides for the transmission of data at a standard bit rate of up to 1Gbps. Cox Digital Transport service is available in point-to-point and multipoint configurations and may include other information services. (CT)

Regulations

In addition to the regulations, restriction and conditions contained in this tariff, the following regulations apply to Cox Digital Transport. The services provided for Cox Digital Transport are primarily designed to meet the point-to-point data communications requirements of Business Customers, i.e., non-interexchange carriers. These services may not be resold or provided to any other company without prior written consent of the Company.

Provisioning

Customer interface and equipment specifications must meet the Company's requirements to provide the service. This service may require specific Customer provided equipment, facilities and space. Additional services may be provisioned from Cox over the basic Cox Digital Transport Service. Cox Digital Transport provides the physical layer and basic transport only.

The Company assumes no responsibility for the thorough transmission of signals by CPE (Customer premise equipment), for the quality of or defects in such transmission, for the reception of signals by CPE, or address signaling to the extent addressing is performed by CPE. Error detection and correction of data generated by CPE is the Customer's responsibility. QOS (quality of service) may be provided by Cox as a separate non-tariffed rate information service.

SECTION 7 - Miscellaneous Service Offerings

7.6 COX DIGITAL TRANSPORT, Cont'd

Cox Digital Transport Service is provisioned for ATM (Asynchronous transfer mode) or Ethernet as default handoff protocol. Ethernet and other protocols may be provisioned at Cox's discretion as separate non-tariffed information services.
Cox Digital Transport Service is provisioned at standard bandwidths listed in this tariff but may also be available in other speeds. Greater and lesser bit rate channel bandwidths may be available to Customers on a case-by-case basis at the sole discretion of Cox. Such bit rates are at the sole discretion of the Company and are priced and delivered on an ICB basis. Charges will be determined based the length of term, capacity chosen, and profitability for the Company to deliver such capacity.
Bit rate speeds are provided as best effort UBR (uncommitted band rates). CBR (committed band rates) may be available from Cox priced and delivered on an ICB basis.

Other Services

Additional Cox informational services the Cox Digital Transport may include but are not limited to: MPLS (Multi-protocol Label Switching) Labeling, BGP (Border Gateway Protocol), VLAN (Virtual Local Area Networks), PVP (Private Virtual Paths), QoS (Quality of Service), MRTG (Multi-Router Traffic Graph) reporting, Ethernet protocol and other special packet prioritization, bridges, protocols, network design or service reports. The ability to provide any additional service is at the discretion of Cox and will be provided at published, tariffed or ICB pricing as appropriate. When Cox Digital Transport is bundled with other Cox services, Cox may offer pricing on an Individual Case Basis. For customers who subscribe to 3 or more Cox Digital Transport services Cox may provision one of the circuits at a higher bandwidth, up to and including 1Gb, at no additional charge with availability dependent upon network resources and specific conditions solely at the discretion of Cox.

7.7 Telecommunications Service Priority (TSP) System

1. General TSP Description-

Cox TSP provides priority Cox services to Federal Government Agencies and authorized users for provisioning and restoration of services within defined critical and emergency situations. The Cox TSP System is designed to meet the requirements of the Federal Communications Commission (FCC) to expedite provisioning and restoration of mission-critical telecommunications services outlined under the Federal TSP Program and National Communications System (NCS 3-1). Additional sources of reference for include:

1. National Communications System (NCS) Manual 3-1-1
2. Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NS/EP) Service user Manual"
3. National Communications System (NCS) handbook 3-1-2
4. Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NS/EP) Service Vendor Handbook

Priority Installation and/or Restoration of NS/EP telecommunications services shall be provided in accordance with part 64.401, appendix A, of the Federal Communications Commission's (FCC's) Rules and Regulations.

2. Qualifying TSP Service Categories-

Cox Customers must meet specific categories regarding essential or emergency services in order to apply for NS/EP services. NS/EP qualified categories include the following four "Essential" categories outlined in NCSC 3-1, Section 15 plus an "Emergency" category:

- Category A- National Security Leadership
- Category B- National Security Posture and U.S. Population Warning
- Category C- Public Health, Safety and Maintenance of Law and Order
- Category D- Public Welfare and Maintenance of National Economic Posture
- Category E- Emergency (applicable for provisioning requirements only)

3. Service Level Priorities-

Cox Services may be assigned priority levels of "1" (Highest) through "5" (lowest) with additional emergency (E) assignment of priority level as outlined in NCSC 3-1, Section 15. The OPT is responsible for ensuring that TSP assignments are not concentrated at one priority level. For additional information refer to NCSC 3-1-1, Section 2.5, figure 2-3.

Cox may provide sub-priority level assignments for own internal use as provided under NCSC 3-1, Section 15. Conditions may arise that deem it necessary to preempt one or more Customer services with a lower or no restoration priority in order to install or restore NS/EP telecommunications service of a higher priority. The Company will make reasonable effort to notify the Customer of the action being taken if such preemptive action is necessary. Customers who have their service levels impacted from this situation may qualify for credit for such services in accordance with the provisions for credits as specified in the Cox Local Exchange Service tariff section 2.

4. Qualifying TSP Services-

The scope of work for identifying specific TSP services is described as follows:

- A) Priority Provisioning (Installation):
The initial set-up and construction process for provisioning and supplying telecommunications services to a Customer, including all associated transmission, wiring and equipment, if provided by the Cox, at a time earlier than Cox standard order intervals. Cox standard order intervals are quoted on a case-by-case basis and are time/date sensitive.
- B) Priority Restoration:
The restoration of Cox services currently being contracted by a Cox Customer at a time earlier than Cox standard order intervals. Cox standard order intervals are quoted on a case-by-case basis and are time/date sensitive.
- C) Priority Restoration Level Implementation (Assignment):
Designated priority levels (1,2,3,4,5 and E) of service associated with the restoration of a particular NS/EP telecommunications service.

7.7 Telecommunications Service Priority (TSP) System, Cont'd.

4. Qualifying TSP Services, cont'd.

- D) Priority Restoration Level Change:
Changes in priority level to any pre-assigned priority service levels for a NS/EP telecommunications service. This includes any extension of an existing priority level assignment to an expanded NS/EP service.
- E) Priority Restoration Administration and Maintenance:
Administrative and maintenance necessary to correspond to NS/EP provided services.

5. Applicable Cox Service Profiles-

Telecommunications services identified under this program support National Security or Emergency Preparedness (NS/EP) missions. The TSP System provides a guideline for Cox to provide priority restoration of services in case of an isolated incident or the result of large-scale or national disasters, emergencies, civil, or military crisis.

The Cox TSP System applies to Cox "on-net" Cox-owned switched or special access services. For facilities, where Cox does not provide the entire facility, Cox will issue the TSP Authorization code with the order to the carrier providing the non-Cox portion of the facility and Cox will pass these charges through to the Customer. The Cox TSP System does not include any resale or UNE/EEL type of facilities in which Cox may not control or provision all or part of the services provided. The Cox TSP System also applies only to Customers directly contracted with Cox. The TSP System applies only to NS/EP telecommunications services as outlined in NCSD 3-1, Section 7 "Scope of the NS/EP TSP System".

Cox will, within the limits of good management and availability, make available the necessary facilities to restore service in the event of conditions supporting TSP. Restoration of services may require the use of temporary facilities such as wireless or ground level cable or fiber runs and drops. Restoration may also require the temporary use of government-owned facilities.

5. Applicable Cox Service Profiles, cont'd.

All TSP services are identified by specific "service profiles". The service profile defines the level of support to the portion of the telecommunications service that Cox owns and/or operates. The service profile is composed of the following element groups:

- Element Group A- Customer premises equipment. This may include Cox owned and/or managed routers, network interface devices and network termination equipment.
- Element Group B- Customer premises wiring. This may be included under the Cox Commercial Service Assurance Plan and/or separately contracted Customer premise construction.
- Element Group C- Operations. This is the actual service such as local dial tone service, Internet access, data transport, etc. provided by Cox.
- Element Group D- Technical Control Facility/Fault Detection/Isolation. This may be included under specific services contracted through Cox. Many Cox services are monitored for fault or failure by either our NOC (Network Operations Center) or SOC (Systems Operations Center). This may also include additional local service and troubleshooting.
- Element Group E- Service Testing. This may include Cox troubleshooting, initial provisioning circuit testing and/or maintenance testing during restoration.
- Element Group F- First service/Route Diversity. This may include first, or primary, services as well as diversity of Cox services provided through multiple routes, either virtual or real, provided by dual-route-builds into physical locations, BGP virtual routes over routers, SONET dual routing, etc.
- Element Group G- Facility/Site Access. This may include Cox co-located sites where Customer owned and/or maintained equipment or facilities reside, emergency access points for mobile communications vehicles, etc.

5. Specific Customer Information and Records-

For Customers who obtain TSP System service, they acknowledge and consent to the provision of certain Customer service record information and/or Customer Proprietary Network Information (CPNI) by the Company to the National Communications System (NCS) in order for the NCS to maintain and administer the overall TSP System. This Customer service record information will include all relevant TSP System Service information and the TSP Authorization.

6. Qualification Process-

A potential TSP user must request a TSP assignment from the OPT (Office of Priority Telecommunications) located at the NCS (National Communications System). If the OPT approves a Cox Customer request, a TSP assignment will be forwarded back to the Customer in the form of a 12 digit TSP Authorization Code (NCSC 3-1-1, Section 2.4 for additional details). To obtain priority provision and/or restoration of a qualifying Cox service, a Cox Customer must forward a service order containing the TSP Authorization Code to Cox at the following location:

Cox Communications
Cox Service Assurance Department
2310 N.W. 10th Street
Oklahoma City, OK 73107
Phone 405-600-6000
Fax 405-600-6565

(CT)

8. Rate Applications-

The rates contained herein apply only to direct charges associated with the Cox TSP System. Rates for specific telecommunications services and products are covered under the current Cox Local Exchange tariff and may include recurring monthly charges, non-recurring charges, construction charges and mileage sensitive charges are outlined in the Cox tariff specific to services.

Rates for Priority Provisioning, Priority Restoration, are applied on a "per circuit" basis for special access services and on a "per line or trunk" basis for Switched Access Service. Priority Provisioning and Priority Restoration rates are applied as a one-time activation charge for each Cox TSP circuit, line and/or trunk service request. When an Access Service is ordered with both Priority Provisioning and Priority Restoration, the non-recurring charge for Priority Restoration applies for both the provisioning and the restoration.

The Administration and Maintenance charges are applied per line or trunk and per circuit for Special Access Service. Each loop or loop segment of a Special Access multi-point service will be treated as a separate circuit with charge applied on a per loop basis.

The Priority Level Change charge is applicable when the TSP System order activity is changing priority levels. It applies each time the level is changed to a higher or lower level or when moving to an "E" category.

8. Rate Applications-

For subsequent orders for additional lines and circuits, TSP System assignment may apply upon Customer request and review by Cox. When the TSP System is revoked, or discontinued, and the associated Service is continued in service, no charge applies for such discontinuance of Cox TSP.

When performing services under TSP where additional labor charges may apply, Cox will attempt to notify Customer of charges before the required additional labor is undertaken. The Customer, in obtaining a Priority Restoration, recognizes that quoting charges and obtaining permission to proceed with the restoration of certain Services may cause certain delays and, as a result, could jeopardize the intent of early restoration of services provided under this program.

In subscribing to the TSP System service, the Customer recognizes this condition, grants the Company the right to quote charges after the restoration or installation is completed and agrees to pay the charges.

SECTION 7 - Miscellaneous Service Offerings

7.18 24 Month Service Agreement****

(RT)

A. Description

Under this promotion, new and existing Residential Customers in Cox's Oklahoma Service Area, who agree to a 24 Month Service Agreement and meet the eligibility criteria set forth below, will receive a price lock guarantee for the twenty-four month term of the agreement.

B. Eligibility

To be eligible, Customer must be a new or existing Residential Customer of Cox or its affiliate in good standing (no outstanding balance over 30 days) and subscribe to a 24-month term commitment ("Subscription Term") for at least one line of Residential flat rate service and select Cox as the provider for local toll and long distance telephone service for this line.

C. Terms and Conditions

1. If during the Subscription Term (i) Customer disconnects any of the services described in B above, or (ii) Customer's Service is disconnected for non-payment, fraud or violation of applicable tariffs or terms and conditions, Customer will be billed, and Customer shall pay, an early termination fee ("ETF") of \$240.00. The ETF will be reduced by \$10.00 for each full month of the Subscription Term that the Customer completes. For example, if Customer terminates CDT Service during month 18 of the Subscription Term, Customer shall pay Cox a \$70 ETF [\$240.00 minus \$170 (\$10.00 x 17 full months)]. If Services are suspended, restricted, or cancelled, charges will accrue through the date that Cox fully processes the suspension, restriction or cancellation. (CT) (CT)
2. Customer may cancel their Subscription Term and service under this promotion within 30 days of the installation date of all eligible services ("Cancel Date") without incurring an ETF. To do so, Customer must notify Cox by calling Cox's Customer Care Center no later than the Cancel Date. (CT)
3. Except as noted in 2 above, Customer must pay to Cox all outstanding charges for Services, including payment of any bills that remain due after the date of cancellation (including, any ETF). (CT)
4. Customer's 24-month term commitment will begin on the date all eligible services, as defined in B above, are installed. (CT)
5. At the end of Customer's Subscription Term, pricing for CDT Services will revert to the tariff pricing in effect at that time.
6. Except as otherwise prohibited by law, the Customer agrees to arbitrate any dispute. Notwithstanding the arbitration agreement, the Customer may bring appropriate claims to the small claims court, if the claims fall within the small claims court's jurisdiction, or before the Federal Communications Commission or a state public utilities commission.
7. This offer may not be combined with any other discount offer under this tariff.

7.20 Emergency Locator Service

(C)

1. General

At the request of the Customer and upon the approval of the Company and at those prices set forth in the chart below, the Company will offer to the Customer certain Automatic Location Identification ("ALI") and/or Private Switch/Automatic Location Identification ("PS/ALI") services as an enhancement to its other 911 local service offerings. PS/ALI service provides E911 service features for stations that operate behind private switches, e.g., PBXs. Specifically, the PS/ALI service provides an automatic display at the Public Safety Answering Point (hereafter "PSAP") of the caller's telephone number and the address/location of the telephone. A Customer's PBX must be capable of providing the telephone number to the 911 system to identify the specific extension originating a 911 call. The Company's PS/ALI service provides a PBX 911 manager for "public safety/address location point" database management and the Customer is required to update databases using a web-based interface.

All telephone numbers that a customer desires to be included in the Company's PS/ALI service must be owned by the Company. Telephone numbers that are provided by a service provider other than the Company are not eligible for inclusion in this service.

2. Eligibility Requirements

A Customer who desires to receive service shall satisfy the following obligations to Company:

1. Customer will complete a customer profile ordering form (i) designating a single point of contact for all operational issues, (ii) supplying the necessary telephone number range(s) and PSAP, if multiple locations apply. Customer and Company shall validate telephone number ranges provided through any LEC dial tone provider(s) other than Company.
2. Company will have up to thirty (30) business days to attempt to load the initial customer data after the receipt of acceptable data files from the customer. Should the initial load attempt fail due to the losing company's business practices, it shall be the customer's responsibility to negotiate with the losing company to release the numbers that are being transferred to Cox.
3. Company will attempt to load additional numbers submitted on subsequent Load Forms within seven (7) business days following the receipt of a valid TNs but full assurance of meeting a seven (7) day timeline is guaranteed.

SECTION 7 - Miscellaneous Service Offerings

7.20 Emergency Locator Service (Cont'd)

2. Eligibility Requirements (cont'd)

4. Customer is responsible for working with Company and any other LEC dial tone provider(s) to set up any required National Emergency Numbering Association identification codes (hereafter referred to as "NENA ID") for Customer's PS/ALI records.
5. Customer is responsible for obtaining authorization from any LEC dial tone provider other than Company to insert and modify ALI records for the specified telephone number ranges in any regional E911 databases using the separate NENA ID assigned for PS/ALI records.
6. Customer shall provide Company with a signed and properly authorized copy of a Letter of Agency (LOA) in favor of Company in the form requested by Company.
7. In addition to any other fees charged by Company, Customer is responsible for any costs of any tasks related to setting up data exchange and obtaining user IDs and passwords for regional E911 databases. Customer must obtain any approval needed for Company to submit PBX records on its behalf to regional E911- database provider(s), including any approval that may be required by any government agency.
8. In the event some of the automatic location identification records needed by Company to provision PS/ALI services are not "owned" by the Company, Customer shall obtain and provide to Company prior written consent from the E911 service provider to allow Company to use same without charge.
9. If Customer is porting to Company a block of telephone numbers from another telephone company, Customer is responsible for working with the transferee LEC to port the main billing telephone number and all associated telephone numbers via the NENA standard unlock and migrate function codes through normal Service Order Input ("SOI") processing.
10. If Customer discontinues dial tone services with Company or another provider, the use of PS/ALI services by Customer will be discontinued for the corresponding block of telephone numbers.

(C)

2. Eligibility Requirements (cont'd)

11. Customer must have a personal computer workstation with the following requirements in order to interface with Company and receive PS/ALI service from the Company and Customer shall meet these requirements at every point in time:
 - Microsoft Windows 95, Windows 98, or Windows NT 4.0 Windows XP, Windows 7 and Vista (or most current version)
 - Internet access
 - Microsoft Internet Explorer, Version 5.01, Service pack 1 or higher
 - Currently Apple/MAC browsers are not supported
12. Company shall bill Customer for PS/ALI services in its normal billing interval and Customer shall pay same as indicated on the invoice.
13. By means of a direct telephone conversation (no email or voice mail messages will be provided), a representative of Company will provide the Customer with a user ID, as password, and a secure key code token for Customer's use in meeting its responsibilities hereunder. Customer will provide Company with a spreadsheet containing the telephone numbers, names, and site-specific PBX information for initially loading the records into the PS/ALI database. A PS/ALI Initial Load File ("ILF") form will be provided to the Customer to provide Company with the required ILF fields and format information for the initial build of telephone number records into Company's system. Company will validate that the numbers submitted by the customer are owned by the Company but is not otherwise required to manipulate and/or change any of the data provided in the ILF on behalf of Customer and may rely upon the accuracy of same; instead, Customer is responsible for submitting the correct field and formatting information via the ILF form. The Customer may submit the first ILF data form to the Company without additional charge. Customer will incur additional charges for any subsequent ILFs required.
14. Company will attempt to correct only MSAG errors, that is, "701" errors (house number out of range in MSAG) and "709" errors (street not found in MSAG). MSAG related errors that Company is unable to correct will be forwarded to Customer for correction. All other error types detected either by validation against Company databases or against other host ALI databases, will also be returned to Customer for correction. This includes errors that occur during the Initial Load File build and errors occurring after the initial load. Error records will be returned 'as is' to Customer.

2. Eligibility Requirements (cont'd)

15. Customer will migrate and update DID numbers and all other telephone numbers associated with this service through the PS/ALI Manager after the ILF. The web-based system permits Customer to maintain station level ALI identification records in the form of "move", "add," "change" or "delete" to pre-authorized Customer records identified by telephone number range on the PS/ALI Customer Profile Order Form.
16. After validation and processing through the PS/ALI database system, Company will route updated telephone number records to the appropriate "E911 database" provider based upon the NPA/NXX on each record. Records processed by the Company will be transmitted to the appropriate E911 database provider(s) throughout the country.
17. Telephone numbers that are transported outside of Company's defined operational jurisdictions, either on a temporary or permanent basis, may not be routed to the proper PSAP and customer will assume any and all risk associated with this condition.
18. The PS/ALI Manager's web-based interface offers a range of online reports to facilitate PBX management, allowing data to be sorted by address and telephone number range, and Customer is expected to use same and to be totally responsible for the accuracy of any information provided.
19. For day-to-day management processing matters, Customer should contact its designated Company data analyst. Company analysts provide routine support services Monday through Friday during normal business hours (8:00 a.m. – 5:00 p.m. Mountain Time), excluding Company-observed holidays.
20. Company will provide training to Customer at a mutually agreed-upon date and time. This training will include training on the use of the web-based services. Company will provide one training class, for a maximum of two (2) hours, via a telephone conference call to a maximum of two (2) attendees. Company will provide a maximum of two (2) copies of training course materials to attendees of the training conference call described herein.

2. Eligibility Requirements (cont'd)

21. If Customer decides to discontinue dial tone service with Company or any other LEC providing services to the Customer, then Customer shall immediately notify the assigned Company data analyst in writing that a designated telephone number range will discontinue dial tone services stating the identification of the LECs including Company associated with those numbers. Such notification must be received by Company forty five (45) days in advance. It is the Customer's responsibility to communicate with Company and any other affected LECs regarding the discontinuation and within twenty (20) days of providing the notice set forth above, Customer must either delete all records through the normal SOI update process or instruct Company to unlock all such records. After all records are deleted or unlocked, Company may deny Customer account access. After thirty (30) days, the account access will be denied regardless of option chosen.
22. For Customer requests that are beyond the scope of the deliverables outlined in this tariff, Customer may submit a change request ("Change Request") form to Company and Company at its option may accept the requested change and/or propose additional charges to Customer for same.
23. Any and all PS/ALI system problems that Customer experiences shall be immediately reported to Company without delay. Notwithstanding the foregoing, any Internet Explorer problems experienced by Customer while using PS/ALI should be reported to the browser manufacturer.
24. As a condition to Company's obligation to initiate and continue PS/ALI services to Customer, Customer is obligated to deliver to Company and to continue in full force and effect the following:
 - a. a completed order form as required by the Company,
 - b. its authorization for NENA IDs and permission for insertion into ALI databases,
 - c. identification of Customer's PS/ALI program manager,
 - d. a completed and accurate ILF form,
 - e. a signed authorized executed letter of agency as described above,
 - f. a designated point of contact,
 - g. evidence sufficient to Company that the Customer has obtained authorization from any and all LEC dial tone providers to insert and modify ALI records for the specified telephone number ranges,
 - h. and complete and accurate information about its PBX equipment sufficient to establish that the equipment has the capability to forward ANI information to the selective router in accordance with LEC and local requirements.

8.1 Residential Bundled Services Package

1. General

The Bundled Services Package offers certain discounted or free services for eligible Residential Customers who subscribe to following services provided by Cox or a Cox-Affiliated Company: local and long distance telephone service, cable TV, and high speed internet access.

2. Regulations⁼

Customers that subscribe to the specific services detailed below will be eligible to receive certain discounted or free services as defined in Section 3, following. The Customer must subscribe to the following services:

- a residential telephone access line with any Custom Calling Feature Package, (i.e., Active Lifestyle, Control Plus, and/or Solutions Package)
- intrastate and interstate long distance service,
- Cox-Affiliated Company's cable television service, and
- Cox-Affiliated Company's high-speed internet access service.

Eligibility requires no term commitments to receive the discounts and/or free services offered under the Bundled Services Package, however, the Customer must continue the subscription to the services listed above and maintain the account in good standing.

3. Rates, Charges and Discounts

All telephony services offered under this package will be billed at the standard tariffed rate, except for the discounts detailed below. Once eligibility is established, the Customer will be entitled to service discounts every month the Customer maintains the level of service defined above. The telephone discount offer is one-hundred (100) free minutes of intrastate and/or interstate long distance service or the Customer may elect discounts related to the other services provided by the Cox-Affiliated Company. Additionally, the Line Connection Charge associated with the first line will be waived for the initial establishment of service for Customers that subscribe to the Bundled Services Package.

Additionally, Customers, who select the 100 Free Minute option, will be automatically enrolled in Cox's U.S. Savings Plan. The \$3.95 monthly recurring charge will be waived and the Customer will be assessed the reduced rate of 7 cents per minute for intrastate and interstate long distance after the initial 100-minute period.

⁼ Failure to pay for the Bundled Package will result in cancellation of the Package and will cause regulated services to be billed at regular tariffed rates. Regulated services will not be disconnected for the non-payment of non-regulated services.

1. GENERAL

Cox, d.b.a. Cox Business Services, offers centrex service to its commercial End Users. The offering provides Customers a choice among three feature packages; Basic Centrex, Attendant Centrex, and Call Center Centrex. Additionally, the offering allows Customers the flexibility to augment their feature packages through the use of A-la-Carte feature additions.

Cox Connect Centrex is an integrated business network consisting of station equipment (CPE) located at the Customer's premises and the Company's Nortel DMS-500 digital switch located in the central office. It is the DMS-500 that provides the enhanced capabilities that affords the Customer both flexibility and economy.

2. APPLICATION

Cox Centrex's flexible design offers services to all sizes of organizations from small businesses using only a few lines to the most complex system with up to 100,000 lines. Cox Centrex's flexibility also provides convenient installation; as new features are developed, they can be added to the existing switch without it being taken out of service.

This service can be used for all sizes of business:

- Multiple offices that want abbreviated dialing
- Customer Service Groups
- Call Center Operations
- Technical Support or Help Desks
- Offices that want direct dialing without going through an attendant
- Businesses that want PBX functionality and wish to conserve capital.

2. APPLICATION (cont'd)

Meridian Business Sets and single line sets are connected directly to the DMS-500. There is no connecting point on the Customer premises with a limited number of trunks running back to the DMS-500 as with a PBX environment; therefore, every Centrex terminal must be connected to a line card in the DMS-500.

3. CUSTOMER PROFILE

Cox Connect Centrex Service is well suited for virtually any commercial Customer, as product applications in the marketplace are very diverse.

- Current Cox Business Services Customer
- U.S. based operations
- Product applications such as those listed in the previous section
- Tailored call coverage area
- Have existing local service and want to port the number to Cox Business Services
- Customers who want PBX functionality without managing it.

4. CENTREX PACKAGES

A. BASIC CENTREX PACKAGE

The Basic Centrex package is the core feature package in Cox's Centrex service offering. The basic feature package contains the most requested centrex features and allows full functionality of the telephone network.

Basic Centrex Features

Abbreviated Dialing	Caller ID
Audio Interlude	Direct Inward Dialing
Auto Dial	Direct Outward Dialing
Call Forwarding All Calls	Distinctive Ring
Call Forwarding Busy	Group Intercom
Call Forwarding Don't Answer	Last Number Redial
Call Hold	Make Set Busy
Call Transfer	Message Waiting
Call Park	Speed Calling
Call Waiting	Three Way Calling

Abbreviated Dialing

Abbreviated dialing is a feature of Cox Centrex that allows each member in a Customer group to dial another member in the same Customer group without having to dial the 7 or 10 digit telephone number. For Customers under 25 lines, this feature can be delivered with Group Intercom at no charge, or through NCOS setup at \$2 a month extra. For Customers over 25 lines, this feature can be delivered through NCOS setup.

Audio Interlude (AUDIO)

Where facilities exist and operating conditions permit, this system feature provides the ability for a Customer group to have music, announcement, ringing, or silence applied to a calling line while on hold or in a queue for certain Cox Centrex features.

This applies to calls coming in on a trunk or from a line.

Auto Dial (AUD) ⁼

Business Set Automatic Dial is a station feature that allows a Business Set station user to call a frequently dialed number by pressing the assigned AUD key. The user is permitted to program and change the number in automatic dial.

Call Forwarding All Calls (CFU)

This station feature allows a station user to re-route incoming calls to another telephone number. This number can be within the Customer group, the local calling area, a foreign exchange, or the call can be forwarded to an attendant.

Call Forwarding Busy (CFB)

This station feature allows all incoming calls directed to a busy station to be forwarded to a designated station within a Customer group or to an attendant.

Call Forwarding Don't Answer (CFD)

This station feature automatically routes an incoming call to another designated station or to the attendant (within the Customer group), if a called station does not answer within a specified time.

Call Hold (CHD)

This station feature is an optional feature that is available to single line sets only. Business Set users use the built-in Hold key.

Call Park (PRK)

The Call Park station feature allows a station to park one call against its own DN. The parked call can be retrieved from any station within the Customer group. Once a call is parked against a DN, the user is free to make or receive calls on that DN.

Call Pickup (CPU)

Call Pickup allows a station to answer incoming calls to another station within a pre-set pickup group by dialing a feature activation code or pressing a CPU key.

Call Transfer and Three Way Calling (CXR & 3WC)

The station features Call Transfer and Three Way Calling both allow a station to include a third party in a call and then optionally transfer the call to the third party; the party also has the ability to talk privately with the destination before transferring the call, this capability is called Consultation Hold.

Call Waiting (CWT)

Call Waiting allows a station user, already talking on the phone, to be informed by a tone when another call is waiting to reach the station. Normally, the incoming caller hears audible ringing while the called station user hears the call waiting tone. A second burst of call waiting tone is applied after 10 seconds.

Caller ID⁼

Caller ID is really the Calling Name Display feature associated with a Business Set. This station feature allows name to be displayed for incoming or outgoing calls on a Business Set with display. Parties originating calls are able to see the name of the party they have dialed. Parties receiving calls are able to see the name of the party who is calling.

Direct Inward Dialing (DID)

This allows for each user of Cox Centrex to have their own individual phone number so that each user can accept calls directly from outside the Customer group without having to go through an attendant.

Direct Outward Dialing (DOD)

This allows for each user of Cox Centrex to access the PSTN network without an attendant. The user usually dials 9 then the phone number as usual. The actual number that the user dials is programmable and can be any number between 1-9.

Distinctive Ringing (DRING)

Distinctive Ringing is a *system feature* that gives a Cox Centrex subscriber the ability to determine the origination of a call by the cadence or variation of the ringing on the terminating end.

Group Intercom (GIC)

This feature allows station-abbreviated dialing to other station members within the same GIC group. The number of members in the GIC group will determine the dialing scheme. For example, a group of 10 members will use #0 - #9 and a group of 100 members will use #00 - #99.

Last Number Redial (LNR) (LNRA)⁼

Last Number Redial (LNR) allows a station user to redial the last called number by pressing one or two keys rather than dialing the entire number again. Once LNR is assigned to a set, activation is achieved by pressing the pound key (#). On a Business Set, LNR is assigned to each DN key that wants to activate the feature. The feature Last Number Redial from Set (LNRA)⁼ allows Last Number Redial to be assigned to a set. It allows a user to access any free DN on the set and, by activating the feature, have the last number dialed from the set automatically redialed. LNRA must be assigned to Key 1 of the Business Set.

Message Waiting (MWT)

The Business Set indicator can be a solid LCD indicator beside the MWT keys or the red lamp on the M5208, M5216, or M5316 Meridian Business Sets.

Speed Calling (SCS) (SCL)

Speed Call Short List allows a user to store up to 10 numbers so that they can be dialed automatically by using single digit codes (0 to 9). Speed Call Long List allows a user to store up to 30, 50, or 70 numbers so that they can be dialed automatically by using single and double digit codes (0 to 9 and 10 to 70).

B. ATTENDANT CENTREX PACKAGE

The Attendant Centrex package provides the tools necessary for receptionists, secretaries, executive assistants, or small call center attendants to effectively manage multiple incoming lines to a single attendant station. The Attendant Centrex package includes all the features of the Basic Centrex Package plus the additional features listed below.

Busy Lamp Field/Direct Station Selection	Key Short Hunt
Directed Call Park	Multiple Appearance DN
Executive Busy Override	Series Completion
Intercom	Station Camp-On

The additional features that are included in Attendant Centrex are described in Section B, following.

Busy Lamp Field/Direct Station Selection (BLF) =

The station feature provides two capabilities for Meridian Business Sets (MBS). Busy Lamp Field allows MBS users to monitor station status of a Directory Number (DN) or set through the use of MBS lamp states.

Direct Station Selection provides direct dialing to a monitored DN or set by means of the BLF key.

Directed Call Park (DCPK)

The Directed Call Park station feature has the same basic concept of the Call Park feature except that it allows the station to park a call against any valid centrex station directory appearance in the system, from where it may later be retrieved from any station.

Executive Busy Override (EBO)

The Executive Busy Override station feature allows a station to gain access to a busy station by flashing the switchhook during busy tone and dialing a feature activation code on a Single Line Set, or pressing a key on the Business Set.

Intercom (ICM) =

The Intercom station feature allows a Business Set user to directly call a pre-designated Business Set by pressing the ICM feature key.

Key Short Hunt (KSH) †

The station feature Business Set Key Short Hunt allows incoming calls to hunt up through a set of DN appearances on a Business Set in search of an idle DN upon which to terminate.

Multiple Appearance Directory Numbers (MADN)

A directory number (DN) that is assigned to more than one Business Set or Single Line Set is called a Multiple Appearance Directory Number or MADN. The telephones that are assigned this DN are a MADN group.

Series Completion (SCMP)

Series Completion is a line option station feature that redirects calls from a busy DN to another designated DN in the same office.

Single Line Queuing (SLQ)

This station feature provides a Centrex set the ability to have calls wait in queue.

Station Camp-On (MBSCAMP) †

This station feature enhances the call transfer capability of the Meridian Business Set (MBS) by allowing an MBS to transfer the call to a busy station. If the busy station does not answer the call within a certain time period, the call is recalled to the originating station. This capability is known as "camp-on".

C. CALL CENTER CENTREX PACKAGE

Call Center Centrex package provides business call center features or operator banks. ***Along with all of the features of Basic Centrex and most of the features of Attendant Centrex****, this package has additional features that make call center employee's jobs easier.

* excludes Executive Busy Override (EBO) and Intercom (ICM)

The additional features that are included in Call Center Centrex are described below.

Malicious Call Hold (MCH)=

The Malicious Call Hold station feature allows a Business Set subscriber to hold a malicious call connection within the switching unit, enabling the call to be traced back to the originating party.

Multiline Hunting (MLH)

With this enhancement, when a DN in the multi-line hunt group is dialed, hunting starts at that DN and continues according to the hunt characteristics of that particular group.

Uniform Call Distribution (UCD)

The Uniform Call Distribution (UCD) feature allows for an even distribution of incoming calls to a DN answered by a group of Cox Centrex stations. This group of stations is called a UCD group.

Account Codes

This feature allows a user to enter a billing number into an SMDR for charge-back purposes. This Account Code (ACCT) may be from 2 to 14 digits in length. The length is the same for all stations in a Customer group.

The account code feature permits:

- A station user to enter a cost accounting or client billing number into an SMDR record.
- A station user to be prompted for an Account Code because of the called number and the station's attributes
- A station user to be prompted by the DMS-500 for an Account Code because of the Authorization Code of the called number
- A station user to enter a cost accounting or client billing number when an incoming call is answered.

Authorization Codes

An authorization code (AUTH) is a specific set of digits assigned to and used by a station user. By assigning each employee an authorization code, the business can track who makes each call, particularly toll calls. The authorization code can be either voluntary or required to complete the call. An authorization code can range in length from 2 to 12 digits, with the length fixed for the Customer group. These codes are recorded on the Customer's SMDR report so they can be tracked.

Entering an Authorization Code:

- Identifies an authorized user in the Centrex network
- Records an Authorization Code in the MSDR for billing and analysis purposes
- Assigns a Network Class of Service (NCOS) designation to a person rather than to a station or incoming trunk group.

Automatic Call Distribution (ACD)

DMS Meridian Automatic Call Distribution is a system feature that enables operating companies to offer Customers complete ACD service. ACD efficiently handles large volumes of incoming calls by distributing them equally among a group of answering positions. This feature will be priced on an individual case basis and therefore is not included in the a la carte pricing.

Automatic Line (AUL)

Automatic Line (AUL) provides an automatic connection between a calling station that goes off-hook and a predetermined location. The calling station does not receive dial tone. The automatic connection is made to a stored

Call Center Management Information System (CCMIS)

CCMIS is designed for Customers whose call-center operations are served by a single DMS-500 or Meridian ACD server. CCMIS software provides agent and group performance-monitor screens, historical archiving and reports, load-management capabilities, and profile maintenance. This feature will be priced on an individual case basis and therefore is not included in the a la carte pricing.

Call Forward Remote Access (CFRA)

This allows a station to activate or deactivate CFU, CFI, or CFF from a line other than its own. The feature CFU, CFI, or CFF must already exist on the line being activated or deactivated; CFRA alone does not provide these features.

Direct Inward System Access (DISA)

Direct System Inward Access (DISA) is a *system feature* that enables selected outside callers the capability to dial from the switched network directly into the DMS-500, and gain access to the Centrex facilities without attendant assistance.

Callers dial a 7 or 10 digit software directory number or an inwats DISA number to access their Centrex. Automatic answer is provided to callers prompting either for an authorization code or presenting dial tone. Callers can then access Centrex facilities depending upon NCOS restrictions set against users' authorization codes or against their DISA numbers.

With the DISA feature, the Customer should also use the SMDR and Authorization Codes features. The DISA feature is accessible from Digitone (DTMF) sets only.

Directory Number Hunt (DNH)

There are two hunting options:

- **Sequential** – Each line in the Directory number Hunt (DNH) group has its own unique DN. The hunt group can be accessed by dialing the main number, Pilot DN, or by dialing the DN of one of the hunt group members. Hunting is sequential starting as the number dialed and ending at the last number in the hunt group.
- **Circular** – If option CIR (circular hunting) is assigned to the DNH group, all lines in the hunt group will be hunted regardless of the start point of hunting.

Executive Message Waiting (EMW) =

The Executive Message Waiting (EMW) feature allows users to receive message-waiting indication and see display information showing whom has left the Call Request message.

Message List Editing (MLE) is not a line option, but is provided as part of EMW. It allows users with display MBS sets to review and edit any or all of the queued messages.

Station Message Detail Recording (SMDR)

A major part of battling long-distance abuse is being aware of the volume and types of calls being placed from Centrex stations. Employees who know that records of toll calls will be made available to management are likely to be more careful in using long-distance facilities. SMDR is the call detail recording system within the DMS-500 intended to record call information for the Centrex end-user.

Station Message Detail Recording (SMDR) (CONT'D)

SMDR is provided directly to the end user, with no processing or sorting function performed by Cox Business Services. Our Centrex management software, C3C from Strata Group, records and sends the SMDR records to each our Customers automatically based on their preferred schedule. Making the process simply and easy so that our Customers do not have to put with the hassle of keeping up with it.

A variety of call details are recorded in SMDR, such as calling party, called digits, originating, and terminating types. The SMDR formats are unique to Meridian Digital Centrex and are not the same or in any way related to the call record formats used for creating AMA records or CDR records.

Data recorded on a per-call basis includes:

- Customer group identification
- Originating Party identification
- Terminating Party identification
- Date and start time of the call
- Call duration
- Digits dialed
- Expensive route warning tone identification
- Authorization code
- Account code
- Feature code identification, when applicable

The ultimate objective for the end user SMDR is to gain information about the use of the end Customer's telecommunications facilities. This information may be used to allocate costs within the end user organization, to monitor usage (and possible abuse) of the system by the station users, or to plan ongoing telecommunications requirements.

Ring Again (RAG)

This feature allows a station user encountering a busy DN to be notified when the busy station becomes idle, and the system automatically re-dials that same number.

5. REGULATIONS

- A.** Cox Centrex is furnished subject to the availability of network facilities and features from central office switching equipment located in the Company's central office. The service allows for normal station activity including incidental additions and deletions.
- B.** Each system established must consist of a minimum of five (5) main station lines. Main station lines connect the Customer's Premises Equipment (CPE) and the Company's central office switching equipment.
- C.** Directory listings will be provided in accordance with the regulations set forth in the Directory Listing section of this tariff.
- D.** Cox Centrex lines will be equipped with the standard features as specified in the Basic Centrex Package, Section 4.A., above. Current Customers of FITS I & II Centrex packages will become obsolete effective January 10, 2001. Obsolete systems may add stations and new locations with FITS feature packages until the term of the Customer's contract has expired. At such time, the Customer must convert the FITS Centrex package to the minimum centrex service offering, the Basic Centrex Package or discontinue the Company's service.
- E.** Temporary suspension of service is not applicable with this service.
- F.** When multiple features are activated on the same line, certain features may take precedence over others. System limitations will be disclosed to the Customer.
- G.** Rerouting of calls that cannot be completed to the number originally dialed will be offered a standard intercept message (Number Referral Service). The standard central office recorded announcement equipment will intercept incoming calls to unassigned station numbers. The announcement provided states that the number called is not a working number and advises the caller of the main directory number for the centrex group.

1. GENERAL

The Cox Office Solutions Flex, COSF, offers business Customers a bundled package term plan of one, two, three and five year commitment. The package combines telephony services and the Cox-Affiliated Company's service for high-speed internet access. The services provided with this package are:

- a range of flat-rate business or Centrex access lines,
- a block of minutes (pooled among all the business access lines in the bundle) of interstate and intrastate long distance calls, and
- the Cox-Affiliated Company's high-speed internet access service.

2. Regulations⁼

2. Business Access Lines

Business Customers that subscribe to COSF will receive a range of flat-rate business or Centrex access lines. Additional lines requested by the Customer will be billed at the regular subscription rates.

4. Shared Minutes of Long Distance

The Cox Office Solutions Flex (COSF) includes a block of shared minutes of interstate and intrastate long distance. The block of minutes is pooled among all lines. Any unused minutes remaining at the end of the billing period will not carry over to the next billing period. Interstate calls in excess of the pooled block will be billed at six (6) cents per minute per the Company's FFC Domestic tariff. Intrastate calls will be billed at six (6) cents per minute per the Company's Local and Intrastate tariffs.

Business Access Lines	Standard Block of LD Minutes	Rate per Block of Minutes
5-8 Lines	600 Minutes [#]	\$30.00
9-12 Lines	800 Minutes [#]	\$40.00
13-22 Lines	1000 Minutes	\$50.00

[#] Customer may upgrade Long Distance minutes to next block of minutes for an additional \$10.00 per month.

8.19 Price Lock Guarantee (PLG) and \$100 Cash Back with a 24 Month Service Agreement

(MT)

A. Description

Under this promotion, new and existing Residential Customers in Cox's Oklahoma ___ Service Area, who agree to a 24 Month Service Agreement and meet the eligibility criteria set-forth below, will receive a price lock guarantee for the twenty-four month term of the agreement and \$100 Cash Back in the form of a check.

B. Eligibility

To be eligible, Customer must be a new or existing Residential Customer of Cox or its affiliate in good standing (no outstanding balance over 30 days) and receive a verbal or written offer from Cox to subscribe to a 24-month term commitment ("Subscription Term") for at least one line of Residential flat rate service and select Cox as the provider for local toll and long distance telephone service for this line and subscribe to the Cox Affiliated Company's video and high-speed Internet services.

C. Terms and Conditions

- 1) If during the Subscription Term (i) Customer disconnects any of the services described in B above, or (ii) Customer's Service is disconnected for non-payment, fraud or violation of applicable tariffs or terms and conditions, Customer will be billed, and Customer shall pay, an early termination fee ("ETF") of \$120.00. The ETF will be reduced by \$5.00 for each full month of the Subscription Term that the Customer completes. For example, if Customer terminates CDT Service during month 18 of the Subscription Term, Customer shall pay Cox a \$35 ETF [\$120.00 minus \$85 (\$5.00 x 17 full months)]. If Services are suspended, restricted, or cancelled, charges will accrue through the date that Cox fully processes the suspension, restriction or cancellation.
 - 2) Customer may cancel their Subscription Term and service under this promotion within 30 days of the installation date of all eligible services ("Cancel Date") without incurring an ETF. To do so, Customer must notify Cox by calling Cox's Customer Care Center no later than the Cancel Date.
 - 3) Except as noted in 2 above, Customer must pay to Cox all outstanding charges for Services, including payment of any bills that remain due after the date of cancellation (including, any ETF).
 - 4) Customer's 24-month term commitment will begin on the date all eligible services, as defined in B above, are installed.
 - 5) At the end of Customer's Subscription Term, pricing for CDT Services will revert to the tariff pricing in effect at that time.
 - 6) Except as otherwise prohibited by law, the Customer agrees to arbitrate any dispute. Notwithstanding the arbitration agreement, the Customer may bring appropriate claims to the small claims court, if the claims fall within the small claims court's jurisdiction, or before the Federal Communications Commission or a state public utilities commission.
 - 7) This offer may not be combined with any other discount offer under this tariff.

4. Cox Connect Centrex

3. GENERAL

The Company offers Centrex service to its commercial End Users. The offering provides Customers a choice among three feature packages: Basic Centrex, Expanded Centrex, and Digital Centrex. Additionally, the offering allows Customers the flexibility to augment their feature packages through the use of a-la-carte feature additions.

Cox Connect Centrex is an integrated business network consisting of station equipment (CPE) located at the Customer's premises and the Company's Nortel DMS-500 digital switch located in the central office. It is the DMS-500 that provides the enhanced capabilities that affords the Customer both flexibility and economy.

4. APPLICATION

Cox Centrex's flexible design offers services to all organizations from small business using only a few lines to the most complex system. Cox Centrex flexibility also provides convenient installation and system management.

This service can be used for any business size:

- Multiple offices that want abbreviated dialing
- Customer Service Groups
- Call Center Operations
- Technical Support or Help Desks
- Offices that want direct dialing without going through an attendant
- Businesses that want PBX functionality and wish to conserve capital.

4. APPLICATION (cont'd)

Meridian Business Sets and single line sets are connected directly to the DMS-500. There is no connecting point on the Customer premises with a limited number of trunks running back to the DMS-500 as with a PBX environment; therefore, every Centrex terminal must be connected to a line card in the DMS-500.

5. CUSTOMER PROFILE

Cox Connect Centrex Service is well suited for virtually any commercial Customer, as product applications in the marketplace are very diverse.

- Current Cox Business Services Customer
- U.S. based operations
- Product applications such as those listed in the previous section
- Tailored call coverage area
- Have existing local service and want to port the number to Cox Business Services
- Customers who want PBX functionality without managing it.

4. Centrex Packages

A. BASIC CENTREX PACKAGE

The Basic Centrex Package is made up of the core features in the Company's Centrex service offering. The entire Basic Centrex Package is required on all Centrex accounts.

Basic Centrex Features

Abbreviated Dialing	Directory Number Hunt
Call Forwarding All Calls	Direct Inward Dialing
Call Forwarding Busy	Direct Outward Dialing
Call Forwarding Don't Answer	Last Number Redial
Call Hold	Message Waiting
Call Pick Up	Speed Calling
Call Transfer	Three Way Calling
Call Waiting	

Abbreviated Dialing

Abbreviated dialing is a feature of Cox Centrex that allows each member in a Customer group to dial another member in the same Customer group without having to dial the 7 or 10-digit telephone number. For Customers under 25 lines, this feature can be delivered with Group Intercom at no charge, or through NCOS setup at \$2 a month extra. For Customers over 25 lines, this feature can be delivered through NCOS setup.

Call Forwarding All Calls (CFU)

This station feature allows a station user to re-route incoming calls to another telephone number. This number can be within the Customer group, the local calling area, a foreign exchange, or the call can be forwarded to an attendant.

A. BASIC CENTREX PACKAGE (cont'd)

Call Forwarding Busy (CFB)

This station feature allows all incoming calls directed to a busy station to be forwarded to a designated station within a Customer group or to an attendant.

Call Forwarding Don't Answer (CFD)

This station feature automatically routes an incoming call to another designated station or to the attendant (within the Customer group), if a called station does not answer within a specified time.

Call Hold (CHD)

This station feature is an optional feature that is available to single line sets only. Business Set users use the built-in Hold key.

Call Pickup (CPU)

Call Pickup allows a station to answer incoming calls to another station within a pre-set pickup group by dialing a feature activation code or pressing a CPU key.

Call Transfer and Three Way Calling (CXR & 3WC)

The station features Call Transfer and Three Way Calling both allow a station to include a third party in a call and then optionally transfer the call to the third party; the party also has the ability to talk privately with the destination before transferring the call, this capability is called Consultation Hold.

Call Waiting (CWT)

Call Waiting allows a station user, already talking on the phone, to be informed by a tone when another call is waiting to reach the station. Normally, the incoming caller hears audible ringing while the called station user hears the call waiting tone. A second burst of call waiting tone is applied after 10 seconds.

Directory Number Hunt (DNH)

There are two hunting options:

- **Sequential** – Each line in the Directory number Hunt (DNH) group has own unique DN. The hunt group can be accessed by dialing the m number, Pilot DN, or by dialing the DN of one of the hunt group membe Hunting is sequential starting as the number dialed and ending at the l number in the hunt group.
- **Circular** – If option CIR (circular hunting) is assigned to the DNH group, lines in the hunt group will be hunted regardless of the start point of huntin

Direct Inward Dialing (DID)

This allows for each user of Cox Centrex to have their own individual phone numl so that each user can accept calls directly from outside the Customer group with having to go through an attendant.

Direct Outward Dialing (DOD)

This allows for each user of Cox Centrex to access the PSTN network without attendant. The user usually dials 9 then the phone number as usual. The act number that the user dials is programmable and can be any number between 1-9.(MT)

Last Number Redial (LNR) (LNRA)

Last Number Redial (LNR) allows a station user to redial the last called number by pressing one or two keys rather than dialing the entire number again. Once LNR is assigned to a set, activation is achieved by pressing the pound key (#). On a Business Set, LNR is assigned to each DN key that wants to activate the feature. The feature Last Number Redial from Set (LNRA) allows Last Number Redial to be assigned to a set. It allows a user to access any free DN on the set and, by activating the feature, have the last number dialed from the set automatically redialed. LNRA must be assigned to Key 1 of the Business Set.

Message Waiting (MWT)

The Business Set indicator can be a solid LCD indicator beside the MWT keys or the red lamp on the M5208, M5216, or M5316 Meridian Business Sets.

Speed Calling (SCS)

Speed Call Short List allows a user to store up to 10 numbers so that they can be dialed automatically by using single digit codes (0 to 9).

B. EXPANDED FEATURE PACKAGE

The Expanded Feature Package provides the tools to more effectively utilize the Centrex telephone network. The Expanded Feature Package includes all the features of the Basic Centrex Package plus the additional features listed below. Subscribers may purchase up to 8 of the features below as a package or individually on an a la carte basis. See Section 3.1.4.6, following, for information on rates and charges.

Call Forward Remote Access	Series Completion
Call Park	Single Line Queuing
Caller ID	Speed Call (Long)
Directed Call Park	Automatic Line*
Distinctive Ring	Executive Busy Override*
Ring Again	

(*) requires a digital phone.

Call Forward Remote Access (CFRA)

This allows a station to activate or deactivate CFU, CFI, or CFF from a line other than its own. The feature CFU, CFI, or CFF must already exist on the line being activated or deactivated; CFRA alone does not provide these features.

Call Park (PRK)

The Call Park station feature allows a station to park one call against its own DN. The parked call can be retrieved from any station within the Customer group. Once a call is parked against a DN, the user is free to make or receive calls on that DN.

Caller ID

Caller ID is really the Calling Name Display feature associated with a Business Set. This station feature allows name to be displayed for incoming or outgoing calls on a Business Set with display. Parties originating calls are able to see the name of the party they have dialed. Parties receiving calls are able to see the name of the party who is calling.

Directed Call Park (DCPK)

The Directed Call Park station feature has the same basic concept of the Call Park feature except that it allows the station to park a call against any valid Centrex station directory appearance in the system, from where it may later be retrieved from any station.

Distinctive Ringing (DRING)

Distinctive Ringing is a *system feature* that gives a Cox Centrex subscriber the ability to determine the origination of a call by the cadence or variation of the ringing on the terminating end.

Ring Again (RAG)

This feature allows a station user encountering a busy DN to be notified when the busy station becomes idle, and the system automatically re-dials that same number.

Series Completion (SCMP)

Series Completion is a line option station feature that redirects calls from a busy DN to another designated DN in the same office.

Single Line Queuing (SLQ)

This station feature provides a Centrex set the ability to have calls wait in queue.

Speed Call Long (SCL)

Speed Call Long List allows a user to store up to 30 numbers so that they can be dialed automatically by using double-digit codes (10 to 30).

Automatic Line (AUL)

Automatic Line (AUL) provides an automatic connection between a calling station that goes off-hook and a predetermined location. The calling station does not receive dial tone. The automatic connection is made to a stored number consisting of 1 to 15 digits.

Executive Busy Override (EBO)

The Executive Busy Override station feature allows a station to gain access to a busy station by flashing the switchhook during busy tone and dialing a feature activation code on a Single Line Set, or pressing a key on the Business Set.

C. DIGITAL CENTREX PACKAGE

Digital Centrex package provides business digital features. As a complement to the features of the Basic Centrex Package, this package has the added functionality that is required for digital Centrex station equipment, or CPE.

Auto Dial	MADN
Busy Lamp Field	Make Set Busy
Executive Message Waiting	Station Camp-On
Key Short Hunt	

Auto Dial (AUD)

Business Set Automatic Dial is a station feature that allows a Business Set station user to call a frequently dialed number by pressing the assigned AUD key. The user is permitted to program and change the number in automatic dial.

Busy Lamp Field/Direct Station Selection (BLF)

The station feature provides two capabilities for Meridian Business Sets (MBS). Busy Lamp Field allows MBS users to monitor station status of a Directory Number (DN) or set through the use of MBS lamp states.

Direct Station Selection provides direct dialing to a monitored DN or set by means of the BLF key.

Executive Message Waiting (EMW)

The Executive Message Waiting (EMW) feature allows users to receive message-waiting indication and see display information showing the party that left the Call Request message.

Message List Editing (MLE) is not a line option, but is provided as part of EMW. It allows users with display MBS sets to review and edit any or all of the queued messages.

Key Short Hunt (KSH) †

The station feature Business Set Key Short Hunt allows incoming calls to hunt up through a set of DN appearances on a Business Set in search of an idle DN upon which to terminate.

Multiple Appearance Directory Numbers (MADN)

A directory number (DN) that is assigned to more than one Business Set or Single Line Set is called a Multiple Appearance Directory Number or MADN. The telephones that are assigned this DN are a MADN group.

Make Set Busy (MSB)

This station feature allows the user to make their station lines busy to incoming calls. When the Make Set Busy option is in effect, the station continues to have the option of making outgoing calls and activating other features.

Station Camp-On (MBSCAMP) †

This station feature enhances the call transfer capability of the Meridian Business Set (MBS) by allowing an MBS to transfer the call to a busy station. If the busy station does not answer the call within a certain time period, the call is recalled to the originating station. This capability is known as "camp-on".

D. A-LA-CARTE FEATURES

The Company makes available the features listed below on an individual case basis. As an ICB example, a Customer purchases the Basic Centrex package, but wants to add the Intercom feature to all, or a portion, of the Centrex stations. The Customer may purchase the Intercom feature as an ICB enhancement of the Basic Centrex package. Additional features not listed below may be available on a case-by-case basis and offered at the Company's sole discretion. See Section 3.1.4.6, following, for information on rates and charges.

Audio Interlude	Malicious Call Hold
Intercom	Uniform Call Distribution (UCD)

Audio Interlude (AUDIO)

Where facilities exist and operating conditions permit, this system feature provides the ability for a Customer group to have music, announcement, ringing, or silence applied to a calling line while on hold or in a queue for certain Cox Centrex features. This applies to calls coming in on a trunk or from a line.

Intercom (ICM)

The Intercom station feature allows a Business Set user to directly call a pre-designated Business Set by pressing the ICM feature key.

Malicious Call Hold (MCH)

The Malicious Call Hold station feature allows a Business Set subscriber to hold a malicious call connection within the switching unit, enabling the call to be traced back to the originating party.

Uniform Call Distribution (UCD)

The Uniform Call Distribution (UCD) feature allows for an even distribution of incoming calls to a DN answered by a group of Cox Centrex stations. This group of stations is called a UCD group.

5. REGULATIONS

- A.** Cox Centrex is furnished subject to the availability of network facilities and features from central office switching equipment located in the Company's central office. The service allows for normal station activity including incidental additions and deletions.
- B.** Each system established must consist of a minimum of ten (10) main station lines. Main station lines connect the Customer's Premises Equipment (CPE) and the Company's central office switching equipment.
- C.** Directory listings will be provided in accordance with the regulations set forth in the Directory Listing section of this tariff.
- D.** Cox Centrex lines will be equipped with the standard features as specified in the Basic Centrex Package, Section 4.A., above. Current Customers of FITS I & II Centrex packages will become obsolete effective January 10, 2001. Obsolete systems may add stations and new locations with FITS feature packages until the term of the Customer's contract has expired. At such time, the Customer must convert the FITS Centrex package to the minimum centrex service offering, the Basic Centrex Package or discontinue the Company's service.
- E.** Temporary suspension of service is not applicable with this service.
- F.** When multiple features are activated on the same line, certain features may take precedence over others. System limitations will be disclosed to the Customer.
- G.** Rerouting of calls that cannot be completed to the number originally dialed will be offered a standard intercept message (Number Referral Service). The standard central office recorded announcement equipment will intercept incoming calls to unassigned station numbers. The announcement provided states that the number called is not a working number and advises the caller of the main directory number for the Centrex group.

3.1.5 Cox Connect PRI Service

GENERAL

Cox Connect PRI Service is an optional form of local exchange access based on the Primary Rate Interface (PRI) arrangement of the Integrated Services Digital Network (ISDN). Cox Connect PRI Service is a high-capacity access path for communications providing voice or data transmission over the public network.

1. Explanation of Terms

Circuit Switching

Circuit Switching is a switching technique in which an entire circuit or, in a digital switch equipped for ISDN, a specific selection of time slots, is dedicated to a given call.

ISDN Primary Rate Interface (PRI)

Cox Connect PRI is an alternative for individual local exchange access loop services such as Direct Inward Dialing (DID) and business trunks. It can also be used as loop transport for circuit-switched data applications. Cox Connect PRI is provisioned on the 1.544 megabit per second (mbps) bandwidth and uses the Integrated Services Digital Network (SDN) architecture to provide the Customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport. In addition, Cox Connect PRI provides the Customer with the service capabilities and features described in the following.

3.1.5 Cox Connect PRI SERVICE

1. Explanation of Terms, cont,d

Integrated Services Digital Network

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data and image services. These functions are provided via channelized transport facilities over a limited number of standard user-network interfaces. The

ISDN architecture consists of digital switching systems which connect Primary Rate Interface lines to their servicing central office.

Network Interfaces

ISDN Primary Rate Interface is comprised of a limited set of standard user-network interfaces. The PRI Customer premises equipment (CPE) located at the Customer premises must be compatible with the network interface.

Optional Service Features Package

The Optional Service Features Package incorporates the optional features Calling Line Identification and Call-by-Call Service Selection.

Primary Rate Access Facility

The Primary Rate Access Facility provides a high-capacity access path at a transmission speed of 1.544 megabits per second (mbps) for communications between the Customer's premises and the central office. Each Primary rate Access Facility supports one Cox Connect PRI Interface Arrangement.

3.1.5 Cox Connect PRI SERVICE

1. Explanation of Terms, cont,d

Primary Rate Interface (PRI) Arrangement

Cox Connect PRI Arrangement is a Customer premises to central office service providing ISDN capabilities. The PRI arrangement consists of 23 "B" channels and one "D" channel or 24 "B" channels, which are defined as follows:

B Channel

The B channel is a 64 kilobit per second (kbps) channel used for information transfer between users. The B channel may be used in conjunction with circuit-switched service.

D Channel

The D channel is a 64 kilobit per second (kbps) channel that carries signaling and control for the B channels.

PRI Trunk Group

A PRI Trunk Group is a group of channels which are designated as one of the following:

Incoming Exchange Trunk Group
Outgoing Exchange Trunk Group
Two-Way Exchange Trunk Group

3.1.5 Cox Connect PRI SERVICE

1. Explanation of Terms, cont,d

Simulated Facility Group

A Simulated Facility Group is a software-defined register used to limit the number of simultaneous calls with specific attributes.

Customers subscribing to Cox Connect PRI must comply with ISDN Primary Rate Interface specifications as designated by the Company.

2. Service Capabilities

Cox Connect PRI provides the capability to:

- a. Transport Customer information in the form of circuit-switched voice or data up to 64 kbps over any B channel.
- b. Where available, one D channel can control up to 20 PRI Interface Arrangements depending on facility capabilities. In such cases, a single D channel in one PRI Interface Arrangement handles all the signaling and control requirements of multiple PRI Interface Arrangements in a specific grouping allowing supplemental PRI Interface Arrangements to consist of 24 B channels.
- c. Allow B channels to be designated for specific services, such as Incoming Exchange Trunks, Outgoing Exchange Trunks and Two-Way Exchange Trunks, or optionally configure channels to access Incoming and Outgoing Exchange Trunks on a per call basis. Two-way Exchange Trunks may not be accessed on a Call-by-Call basis.

3.1.5 Cox Connect PRI SERVICE

3. Conditions

Customers subscribing to Cox Connect PRI must comply with ISDN Primary Rate Interface specifications as designed by the Company.

- a. Feature availability and service capabilities are dependent on the facilities and digital technology providing the service.
- b. ISDN compatible terminal equipment is a requirement for operation. It is the Customer's responsibility to power and obtain such equipment.
- c. Cox Connect PRI service does not preclude the Customer from originating or receiving circuit-switched voice calls from inside or outside either his/her serving central office or his/her Local Exchange Area. Where facilities are available, the Customer will be able to originate and receive circuit-switched data calls outside of his/her serving central office.
- d. All PRI Interface Arrangement configurations must have at least one 23B+D Interface Arrangement for signaling and control functions. A 23B + Back-up D Interface Arrangement is required whenever the Cox Connect PRI Interface Arrangements ordered and in-service would otherwise cause more than 47 B-channels to be controlled by a single D channel.

3.1.6 Cox Connect I-net.

1. General

Cox Connect I-net Service is available to qualified business for deployment of internet access services. I-net is a service which provides digital network access for inward internet access applications only. I-net service is offered via a DS1 and/or DS3 communications link.

2. Service

I-net Service provides internet based access capabilities, provisioned and delivered on a single digital access link to a Customer's location. I-net provides the Customer with inward terminating digital service through the use of an Integrated Service Digital Network - Primary Rate Interface (ISDN-PRI). I-net Service is provisioned and delivered over a DS1 (1.544 Mbps) communications link. Cox Connect I-net is provisioned in the same manner as Cox Connect PRI, where a standard DS1 is divided into twenty-three (23) sixty-four (64) Kbps B (Bearer) channels and one sixty-four (64) Kbps D (Data) channel, or as it is commonly known in the industry, 23B+D. The Bearer channels are provisioned to carry internet based traffic, data traffic, or video traffic and will not support voice carriage. The Data channel will carry out of band signaling for one or more of the DS1 links.

3. Rates and Charges (per PRI):

Rates and charges for I-net PRI's in quantities of three (3) or more may be provided on an individual case basis.

8.24 Secure Private Network (SPN) Service

(MT)

1. General

Where facilities exist and operating conditions permit, SPN will be offered to Cox Business Services Customers within the state of Oklahoma. SPN is a Layer 2, dedicated service that uses Data Over Cable Service Interface Specifications (DOCSIS) to transport data traffic between business locations. One cable modem may support up to 32 Ethernet-compatible devices. SPN is available in point-to-point and multi-point configurations. SPN may be integrated with Cox Digital Transport services.

Company offers SPN in several symmetrical and asymmetrical speeds. Symmetrical services are provisioned for same speeds upstream and downstream. Asymmetrical services are provisioned for higher speeds downstream than upstream. Speeds are uncommitted or delivered as best effort.

2. Terms and Conditions

Customer interface and equipment specifications must meet the Company's requirements to provide the service. SPN may require specific Customer Provided Equipment (CPE), facilities and space. SPN provides the physical layer and basic transport only. IP addressing and management is the sole responsibility of the Customer.

Customer must request a service credit within forty-five (45) calendar days after the end of the calendar month in which the failure occurred.

The Company assumes no responsibility for the transmission of signals by CPE, for the quality of or defects in such transmission, for the reception of signals by CPE, or address signaling to the extent addressing is performed by CPE. Error detection and correction of data generated by CPE is the Customer's responsibility.

The Company shall not be liable for any damage to the Customer that may arise due to the Customer's attempts to use SPN before all installation and provisioning steps are completed by the Company to ensure privacy and security.

SPN may not be resold or provided to any non-business Customers without prior written consent from the Company.

Network Availability on Cox-owned hybrid fiber-coax (HFC) network is 99.5%. This parameter is calculated by dividing the number of minutes the services are available for Customer's use by the total number of minutes in a consecutive thirty (30) day period in a calendar month multiplying by 100, averaged on a monthly basis across all HFC locations. Upon request, Customer will receive a 1-day credit (1/30 of MRC) per each hour of outage if Network Availability falls below 99.5%.

Exceptions to Credit Allowance. Credit Allowances shall not be provided for Service Interruptions: (i) caused by Customer, its employees, agents or subcontractors; (ii) due to failure of power or other equipment provided by Customer or the public utility company supplying power to Cox or Customer; (iii) during any period in which Cox is not allowed access to the premises of Customer to access Cox equipment; (iv) due to scheduled maintenance and repair; (v) caused by a loss of service or failure of the Customer's internal wiring or other customer equipment; or (vi) due to Force Majeure events. For purposes of this SLA, Force Majeure shall mean (i) third party cable cuts, acts of God, fire, flood, or other natural disaster; (ii) laws, orders, rules, regulations, directions, or actions of governmental authorities having jurisdiction over the Services; (iii) any civil or military action including national emergencies, riots, war, civil insurrections or terrorist attacks; (iv) taking by condemnation or eminent domain of a party's facilities or equipment; or (v) delays in obtaining permit or other approvals from governmental authorities for construction or Services provisioning. Credit Allowances for Service Interruptions shall not be provided if: (i) Customer is in breach of its Agreement with Cox; (ii) Customer has a past due balance with Cox under the Agreement; or (iii) Customer is otherwise not in good financial standing with Cox. In no event shall Customer receive more than One (1) Monthly Recurring Charge (MRC) as credit for Service Interruptions or outages in any thirty (30) day period regardless of the number of Service Interruptions or outages. Customer must request a service credit within forty-five (45) calendar days after the end of the calendar month in which the failure occurred.

SECTION 9 – Private Line Services

(AT)

9.1 General

Private Line Service is a transport service, which is offered on a point-to-point basis. Each Private Line Service is dedicated to the Customer and the entire usable bandwidth for each service is available to the Customer for their exclusive use.

Standard pricing is available for all non-custom services. Standard rates are provided in Section 9.4 following. The tariffed rates contained in this section are applied based on the locality of service, type of service and the term plan selected. Private Line Service does not utilize the Company's end office switches.

9.1.1 Tariff Application

- A. For service furnished between two or more end user premises which are located within the Company's serving area, and are used for local communications within an exchange area, or between exchange areas served by Cox, the rates and regulations set forth in this section will apply.
- B. For services furnished jointly with or for another carrier which is geographically restricted and completely utilized for Intrastate-InterLATA communications, the rates and regulations set forth in the Company's Intrastate Access Tariff No. 2 shall apply.
- C. For service furnished jointly with or for another carrier where the usage is both Intrastate and Interstate communications, the rates and regulations set forth in the Company's Interstate Tariff FCC No. 4 shall apply.

9.1.2 Point-to-Point Service

Point-to-Point or Two Point Service allows two Customer-designated locations to be connected by one dedicated transport service. The service terminated at both locations must be the same speed and the same capacity.

9.1.3 On-Net v. Off-Net

On-Net Services are those which connect two locations which are both directly served by the Company's network. Pricing and regulations pertaining to On-Net Services are described in this tariff.

Off-Net Services are those where one or more locations to be connected is not served directly by the Company's network. Off-Net Service must be provisioned, in part, by another local access provider. In the instances where the Company is able to provide Off-Net Services, the performance parameters and pricing of the Off-Net Services will be passed through to the Customer.

All rates included in Section 9.4 are for On-Net and Off-Net arrangements, unless the costs of providing the Off-Net Service would be cost-prohibitive for the Company. In which case, the Company would provide pricing on a case-by-case basis.

9.2 Standard Pricing Plan Description

9.2.1 Recurring Charges

Recurring Charges are monthly charges applied on a city-specific basis. Recurring charges apply to Point-to-Point Service.

Recurring charges for Point-to-Point Service will vary based on the locality of service, capacity of service, the distance of service and the term plan selected. Point-to-Point Service recurring charges are applied on a circuit basis and reflect complete end-to-end charges.

A. Channel Termination

The Channel Termination rate category provides for the communications path between a customer designated premises and the serving wire center of that premises.

B. Channel Mileage

The Channel Mileage rate category provides for the end office equipment and transmission channel between serving wire centers associated with the two customer premises.

C. Optional Features and Functions

Optional Features and Functions may be added to a special access service to improve its quality or utility to meet the Customer's specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of performance characteristics which may be obtained.

9.2.2 Non-Recurring Charges

Non-Recurring Charges (NRCs) are one-time only charges. NRCs may be waived for certain promotions and under the specific terms of individual case basis services. Additionally, Non-Recurring Charges may be waived in a Competitive Situation.

9.2.3 Termination Liability

Unless otherwise specified in individually negotiated contracts, the termination liability for services purchased under a Term Agreement will be equal to the lesser of either:

- A.** 100% of the balance of the total billing payable for the unexpired term of the agreement, or
- B.** the difference between the monthly rate for selected term plan and the monthly rate for the longest term plan that Customer could have satisfied prior to early discontinuance of service, plus any waived or discounted amounts granted through the agreement.

9.3.5 Time and Material Service

This service provides for the Labor and Material charges associated with installation, maintenance, testing and repair deemed to be associated with equipment and facilities not provided by the Company or deemed to be non-standard or non-routine.

The Company shall have no responsibility for the maintenance and repair of any kind with respect to equipment and facilities not provided by the Company. The Company will charge the Customer Time and Material Charges listed in Section 9.5 for any maintenance visits with respect to service problems which are determined to arise from equipment or facilities not provided by Company.

When a Customer reports a trouble to the Company for clearance and no trouble is found in the Company's facilities, the Customer shall be responsible for payment of Time and Materials Charges as listed in Section 9.5 for the period of time from when the Company personnel were dispatched to the Customer's premises to when the work is completed. Failure of Company personnel to find trouble in Company facilities will result in no charge if the trouble is actually in those facilities, but not discovered at the time.

If the Customer, after being informed that the trouble is not in Company facilities, wishes to have the maintenance work performed by Company, and the Company agrees to perform the work, the Time and Material Charges listed in Section 9.5 will apply.

10. State of Oklahoma Telecommunication Service Contract SW00450

10.1 **General Regulations:**

The regulations specified within Cox Local Exchange Tariff are to apply unless expressly stated otherwise within the State of Oklahoma Contract SW00450.

This State of Oklahoma Tariff section is valid pursuant to the State of Oklahoma Contract SW00450.

Pursuant to Title 74, Section 85.7d and OAC 580:15-6-22 electronic and information technology procurements, agreements, and contracts shall comply with applicable Oklahoma Information Technology Accessibility Standards issued by the Oklahoma Office of State Finance.

Rates in this tariff are available in accordance with the Services provided pursuant to State Contract SW00450.

Purchases by the State of Oklahoma are exempt from Oklahoma sales or use taxes and Federal excise tax. The Central Purchasing Division shall furnish tax exemption certificates upon written request.

The State may terminate the Contract immediately, without a 30-day written notice to the supplier, when violations are found to be an impediment to the function of an agency and detrimental to its cause, when conditions preclude the 30-day notice, or when the State Purchasing Director determines that an administrative error occurred prior to Contract performance. If the Contract is terminated, the State shall be liable only for payment for products and/or services delivered and accepted.

10.2 **Service Description:**

The service description for each of the services provisioned pursuant to State Contract SW00450 can be found in Section 3, preceding.
